4/5 of this Dirt
was IN the Rug
not ON it!

NEARLY all of the dirt in your rugs is deeply embedded. It is dirt that you cannot see. Only powerful suction can remove it. The Torrington has powerful suction, because the motor power is not used to drive the brush.

The big bristle brush revolves freely just like a carpet sweeper. It takes up all the threads, lint and surface litter and gently combs out the nap of the rug.

Big Brush—Powerful suction. This is the secret of perfect cleaning.

COTTON MILLS GO BACK TO FULL TIME OPERATION

BETTER MARKET AND
NEW CONTRACTS HELP

Increased Employment Hailed
With Pleasure by 400
Workers.

"Back again to full time" was the cheering news that about 400 employees of the Cornwall and York cotton mills received early this week after 18 months of curtailed operations. The change is effective at once so that instead of closing down today as usual for the rest of the week the mills will operate until Saturday noon as they do under normal conditions.

Market Is Better.
An improvement in the cotton market and the securing of some additional contracts by the local mills, it was learned on good authority this morning, have brought about the resumption of full time. While it is not definitely known for how long a period this will continue efforts will be made to keep the mills on full time during the next few months.

The congestion of the market more than a year and a half ago hit all the cotton mills throughout the country hard and in many cases they shut down altogether for a time. The local mills have been operating on part time during this period of depression. Lately both the Cornwall and York mills have been running four days a week.

Improves Conditions.

Employees of the mills and their families greeted the return to full time with the corresponding increase in the size of their pay envelopes, with relief. Struggling along as best they could with only part time at the mills and with the high cost of necessities it has been a time of hardship for many. Landlords, store keepers etc. in the vicinity of the mills will also benefit by the return to normal conditions. In fact the effect of the increased work will make itself felt more or less throughout the city, a citizen pointed out this morning, and will help greatly in restoring better times around St. John.

CHURCHES TO UNITE FOR SPECIAL PLAN

German Street and Central Baptist Adopt New Scheme For Evangelistic Work.

An important movement is on foot under the direction of Rev. Dr. S. S. Poole of German street Baptist church and Rev. James Dunlop of the Central Baptist congregation. It will be a merger of both congregations in a fortnight for special evangelistic effort in which both churches will be united for three or five nights of one week and the other the same number of times.

This special season of spiritual work will begin in the middle of March, and if thought advisable, will be extended. Both Dr. Poole and Rev. Mr. Dunlop are opposed to the idea of appointing evangelistic speakers and campaigners to work in their congregations. Such effort, they say, may be put forth by a union of the churches and their pastors themselves. In this view the governing bodies of both congregations heartily concur.

Favor Union Idea.

It has been many years since these two leading churches of the Baptist faith have collaborated in a forward movement of this kind. German street and Central Baptist churches participated in union services last summer with Presbyterian and Methodist bodies and it is understood similar vacation-period arrangements will be made this year.

GERMAN BUILT SHIP REGISTERED HERE

Philip T. Dodge Was Turned
Over to Britain to Replace
Destroyed Vessel.

The steamer Philip T. Dodge, now in port loading a full cargo of grain for Italy and Sicily, has a rather interesting history and is probably the only large steamer that is at the present time registered from the Port of St. John.

The vessel was built in Germany and named for the German mercantile prince, Hugo Stinnes. After the war she was turned over to England to make up for some of the sailing craft which had been destroyed by submarines. She was purchased from the British government by parties in New York and transferred from the British registry to registry in the Port of St. John. At first she was registered in the name of H. A. Powell and remained in his name for some months, until a New Brunswick company was formed to take her over.

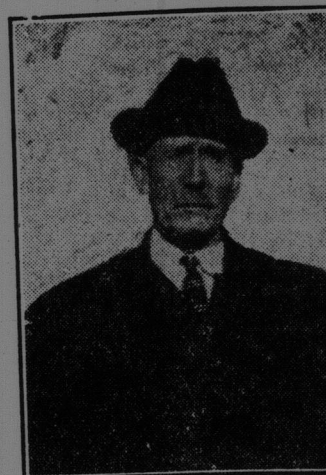

Captain's Father a Lawyer.

She is commanded by Captain S. A. Hutchinson of Richibucto and has been under his command for several years. Captain Hutchinson is a nephew of the late Robert Hutchinson, of whom it was said he was the greatest jury lawyer that Canada ever produced. During the war Capt. Hutchinson was engaged in ice-breaking in the White Sea, serving as chief officer on the Mikula Selinovich and the Minto.

The steamer will sail tonight for tonight for Italy and Sicily.

Oliver D. Thomson Has Had Fine Record in Public Service Here.

One year after the disastrous fire which destroyed a great portion of St. John in 1877, the new acting Chief Engineer of the St. John Fire Department, Oliver D. Thomson, joined the force, becoming a member of No. 1 Company. He remained with this company, rising through the various stages, to foreman of the company. Later he became foreman of No. 8 Company and in time was appointed to the position of District Engineer, when the late George Blake was appointed chief. On Chief Blake's death, he became second in command and when Acting Chief Jackson passed away suddenly, he was appointed by Commissioner Harding to the post of Acting Chief of the department.

46 Years Service.

Thus, after 46 years of service, only one less than that given by the late Chief Jackson, Mr. Thomson succeeds to his responsible post. During that long stretch of nearly half a century, he has helped fight the majority of fires in the city and gained thereby a wide experience that fits him now to direct the force in battling the flames.

A Popular Officer.

Faithfulness to duty appears to be one of the characteristics of the new chief as he has been a valued employee of the New Brunswick Telephone Co., Ltd. for an unbroken stretch of 40 years. With the rank and file of the force, he has always been popular and has a host of friends who wish him success in fulfilling his exacting duties.
