

hero made his appearance fully equipped and supplied with all that was needed in the shape of recommendations from the Catholic clergy of Quebec to the clergy of Bonaventure. At the same time, the influence of the moment he obtained critical influence his election was sure. So sure was he of election he did not think even worth while to appear at the polls. He was so sure that clergy would do much more effectively. It is not difficult to imagine the feelings of a people who have heretofore enjoyed the privilege of choosing a candidate to represent them in the Legislature. They themselves actually continued to submit to the dictation of the Catholic clergy. The Protestant part of the population especially felt the indignity of the situation. Upon the facts of several French voters we have the story that on Sunday previous to the nomination the Priests in the several churches of the district had been making an appeal to their hearers, telling them that the coming election was not a contest between Conservatives and Liberals, but between the Church and the State. They told them they did not support the Church party they need not expect hereafter to receive the benefits of the Church. Mr. Tarte well said that the English speaking people, and (especially the English speaking people, in their fear of the English speaking people, and (especially fearing their righteous indignation or still further to insult them), obtained a body of police to surround the meeting. The meeting was stationed at the different polling places throughout the County.

ELECTRICITY THOMPSON'S EXHAUSTIVE ELECTRICITY CURE FOR ALL AFFECTIONS OF THE WRIST IN GOLD.—Pain cannot stay where it is used. It is the cheapest medicine ever known, and it is the best. It is the only one. One bottle has cured bronchitis. Fifty cents' worth has cured an old standing cough. Fifty cents' worth has cured crick in the back, and the same quantity lame back and rheumatism. I have received many extracts from a few of the many letters that have been received from different parts of the world, and I have been enabled to ascertain to satisfy the most sceptical: J. Collard, of Sparta, Ont., writes, "Send me a bottle of your Electricity. I have already sold all I had from you, and want more now: its cures are truly wonderful." Wm. J. G. Smith, of New York, writes, "I have sold all the agent left, it acts like a charm—it was slow at first, but takes splendidly. I have forwarded a dozen Thompson's Electric Oil. I am nearly out, nothing equalled. It is highly recommended by the best of physicians." J. Bedford, Thamesville, writes, "Send at once a further supply of Electricity, I have used a bottle full, never saw anything sell so well and give such general satisfaction." J. Thompson, Woodford, writes, "I have used a bottle of your Electricity, and sold entirely out. Nothing takes like it." Miller & Reed, Elverton, P. Q., write, "We have used a bottle of your Electricity, and it is highly recommended by the best of physicians, and is daily called for as a further supply without delay." Write for a further supply to Dr. J. M. Thompson & Co., 100 N. 2nd St., Philadelphia, Pa. See that the signature of S. N. Thomas is on the wrapper, and

Hair Vigor.

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color, with the gloss and freshness of youth.* If your hair is thickened, falling hair, thinned, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, the glands atrophied and decayed. But such as remain can be saved for usefulness in this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and

the Municipality of Schoolboard a polling place had been arranged at the house of a Protestant, the notices had been printed accordingly. The Protestant party, however, had been told that the Protestant party was *erased* and that of a Catholic inserted, he living several miles further east thus obliging the people west of the place to travel a long distance to the polling place was only half a mile from the centre of the district and only three miles from the next polling place. The reasons given for the returning officers for this proceeding was that *it could not be done*. In order further to annoy the Protestants, two of Tarté's Brass Band members were stationed at the first polling place. When the returning officers were being interrogated by the electors as to what they were doing there, they replied they were there to keep the peace; they said they had been sent by the Gov't at the request of the Schoolboard, and that in the County. A voter asked them if they considered themselves capable of preserving the peace if the people were disposed to riot. They replied that if they were not, they should ensure, they would not try to quell it but that in fact they had no business to be separate from the main body, and did not know why it had been done. The presence of the band was a great advantage, they said, to the worst feelings of the English, and if they had been so minded, would soon have despised them. It is a well known fact that the English are not disposed to give the right to vote here has never been a serious disturbance between parties, nor was there grounds for apprehending trouble at this time, sufficient to lead to the necessity of the presence of the band. It is also to be regretted that the seeds of discord have been

To the Public!

Read what the people say in regard to the
Great Shoshones Remedy & Pills.

LEVI JONES, Markham, says—"I had a
very severe attack of Bronchitis. I was so
ill that I could hardly get my breath. I
bought for a quick remedy the Great
Shoshones Remedy" so highly recommended.
I procured a bottle, and am happy to
say that it cured me. I was taken ill, was
entirely well and have remained so, al-
though I was much exposed through the
winter.

REV. F. B. STRATTON, Demorestville,
Tennessee—"I have found your remedies par-
ticularly efficacious in cases of Whooping
Cough and bronchial affections, and would
advise all similarly affected to give them a
trial."

JOHN FINLAYSON, Athol, says—"When
travelling one of my feet got sore and broke
down. I did not cure it and had to return
home. It became very painful. I was
travelling. I finally purchased a bottle of the
Remedy" and a box of "Pills," and before
very long I was home. I commenced to improve,
and before they were finished my foot was
completely cured. It is now 17 months
since I was cured. I have used the
Pills of the Remedy in pint bottles \$1;
25 cts a box.

NEWCASTLE, N. B. 1877

ROBINSON'S PHOSPHORIZED EMULSION OF PURE LIVER OIL, with Lactophosphate of Lime, is prepared with the finest Cod Liver Oil—one of the most esteemed remedies in the world for the cure of Rickets, or Lactophosphate of Lime, which enters so largely into the formation of bone material, and is the most powerful of all bone-forming agents. It is also a powerful tonic for the system, and a most valuable invigorator in a form most desirable to obtain its fullest effect. It is the only medicine of this kind, and of this quality. These are all ingeniously combined in one demulcent fluid of homogeneous appearance and delicate taste, and is the only one of the kind.

SPECIAL NOTICES.

LISTLESSNESS, HEADACHE, FLATULENCE, &c. These symptoms, so frequently attendant on the use of opium, may be so often terminated in apoplexy. When dizziness and dimness of sight comes on, and the head is oppressed with pain, it would be taken to thoroughly cleanse the bowels. No medicine equals those Pills for this purpose. When the bowels are affected with flatulency, and acting as mild, yet effective aperients, they are suitable for their sex or any age.

One of the most remarkable qualities of this medicine is its power to relieve flatulency and certain wind colics, and contracted ligaments and joints. It has been still for years, have repeatedly cured the most obstinate cases, requiring use of this powerful rubefacient. A good hand-rubbing is necessary, so that its action may be made to thoroughly penetrate the contracted fibre.

When your horse's hair becomes dry and sticking up, and his head, hanging down, and he refuses to eat, you may know he is troubled with worms or some serious ailment. Give him a few pills of this Condition Powder and feed it in his grain, and by the time you have fed one package you will find him eating heartily. Everybody says they are the best powder known for horses, sheep, and cows.

JUDICIARY MANAGEMENT.—Though it is impossible, in this climate of changing temperature, heat and cold, to prevent the diseases of the season, yet their formation may be much mitigated by remedial means. When hoarseness, cough, and any complaints set in, resort at once to Dr. Williams' Pink Pills.

will be carried on in connection with the
 goods trade. I need scarcely remind
 public that the want of PURE WINES
 has been a serious want
 felt in this community. I can
 say that in a short time I will be in a
 position to offer to the public a class of Wines
 and Liquors such as no other House in the
 colony has ever offered in Miramichi before.
