The Plague In Orient

Authorities on the Alert to Prevent Spread of Dread Disease.

Several of Crew of Empress of India Sentenced to Imprisonment.

When the steamship Queen Adelaide arrived at the outer wharf yesterday afternoon there was a strong gathering of Asiatics on hand to meet her, and the chatter between those ashore and those on board was deafening. Well dressed runners for different Japanese boarding houses in the city hailed the ship before she made fast to the wharf, and with cards in hands soon struck up conversa tion with their fellow countrymen. the 720 Japs aboard 120 odd landed here, together with 300 tons of the ves-

sel's cargo. It was May 25th when the Queen Adelaide left Japan. Up to that date the plague conditions had not assumed any very serious proportions, although on the 10th of May five cases had broken out at Osaka. The authorities of that city are, however, adopting strick measures to stamp out the disease, and have appointed 76 officers to look after the sanitary duties of that city. That the Russian authorities are likewise on the alert to prevent the spread of the epidemic may be judged by the action of the Russian consul at Nagasaki, who has given notice that, owing to the outbreak of plague at Osaka, the Governor-General of Piamursky Krai has ordered all ships leaving Japanese ports for Primorskaya, Oblast and Saghalien Island, to call at Vladivostock first for quarantine observation and to take bills of health.

The origin of the outbreak of plague at Hamamatsu and thereabout is still curred being the points of arrival of trains from Osaka and thereabouts, it is believed a dead rat or rats may have been brought through in freight.

The case of Reuben Carr, Thomas Shay, Thomas Adamson and Geo. Murray, employed on board the Empress of India, who were committed for trial for stealing \$900 from a Chinese moneyin Yokohama harbor on the 8th of March, was recently given a hearing in a Yokohama court, Adamson and Shap were each sentenced to six months' hard labor for stealing the money, and Murray was sentenced to three months' hard labor for receiving \$40, well knowing the same to have been months' hard labor for receiving stolen

A dispatch from Seoul to the Jiji states cession of the Keishu and Wiju gold mine have been successful. The Corean foreign minister protests against the concession, but the Emperor has given his sanction, and it is understood that the mines will become American property. * * *

The N. Y. K. European liner Inaba England, will carry to Yokohama some 500 tons of submarine cable for the Japanese government. The vessel will also take to Japan a large amount of gold, which will be landed at Kobe.

The Nippon Yusen Kaisha has recently ordered at the Kawasaki shipbuilding yard of Kobe three steamers, to be used on the service between Hakodate and mori. One of the steamers will be 1,000 tons and the two others 700 tons.

It is noted that over 160 persons have so far obtained government permits for gold dust washing in the Tokachi district, Hokkaido, the aggregate area leased by them representing over 400 million tsubo.

A Seoul dispatch says disturbances in opposition to the electric tramway in Seoul have again broken out, this time sequence of a man having been killed by a car. The rioters attempted to destroy the tramway station.

BODLEY FOR BISLEY. Another Victoria Rifleman Selected for the Canadian Team.

Victoria this year will have the unusual honor of being represented on the Bisley team by two of her militiamen. Gr. Fleming was among the first team selected, and to-day Sergt. Bodley received a wire from Col. Hodgins, secretary of the D.R.A., offering him a post on the team owing to the retirement of Swain.

Sergt. Bodley accepted the offer, and will report with the team at Montreal on the 21st.

As there are no funds in the provi cial association treasury it is hoped that the city will contribute to the expenses of these two shots, whose work at Bisley may be one of the very best advertise ments the place can receive.

LAW INTELLIGENCE.

Mr. Justice Drake is holding a Speedy Trials court to-day. Miss Valentine Harl is being tried for robbing Gunner Sweeney, of the Reval Artillery, of about \$50 on the 13th of May. The case will likely be concluded this afternoon. Mr. Maclean is prosecuting, and Mr. G. E, Powell defending.

Marines **Meet Boxers**

And Forty Rebels Go Down Before the Fire of the "Handy Man."

Much Damaged--Japan's Demands.

London, June 13 .- A squad of 16 British marines, reconnoitering in advance of the international column, marching to Pekin, fought and chased 2,000 Boxers on Monday, killing twenty

A correspondent accompanying the column, in a dispatch dated Tien Tsin, June 12th, via Shanghai, June 13th, 6.15 a.m., says: "While the working parties, accompanied by a patrol of sixteen British marines, commanded by Major Johnson, were repairing the line on Monday the line. The Boxers moved away from the advancing marines and dispersed into the country, leaving the rails moved and the sleepers.
"The marines, when two miles in ad-

vance of the train, near Laing Fang, suddenly perceived Boxers coming from a village on their left. It was estimated they numbered 2,000, some of them being mounted; and they were trying to get between the marines and the train. Most of them were armed with spears and swords. A few had fire arms, which they used awkwardly.

"The marines retreated, keeping up a running fire for over a mile and killing between twenty and thirty. The Boxers pursued the British for some distance Then, seeing more marines from the train coming to their assistance, Major Johnson's sixteen halted and poured a heavy, continuous fire into the crowd, driving them across the front of the reinforcing bluejackets, who punished the Boxers severely with Maxims.

"The Boxers fled and the Europeans followed up their success and cleared out two villages. The total loss of Boxers is estimated at forty killed wounded. Seven of their wounded were attended by the British surgeons. British loss was nothing.

"Unless their less causes the Boxers to lose heart, the international column will have much trouble before it reaches Pekin. The railway is so much damaged that the column only covered thirty-four miles on Sunday and Monday, and there reason to fear the road beyond is ore badly damaged. Evidence of Gen. Nieh's operations were found in headless bodies. The whole country presented a desolate aspect, entire villages having been deserted. The expedition numbers 2,044, as follows: British, 915: German. 250; Russians, 300; French, 128; Americans, 104; Japanese, 52; Italians, 40. and Austrians, 25."

MANITOBA LIQUOR ACT. Winnipeg, June 12.-Premier Macdonald explained his prohibition measure, entitled the Liquor Act, in the local

legislature last evening. He confessed that his motives in introducing the bill were moral rather than political. The law had been framed so as to avoid as far as possible any litigation, and special care had been taken to leave no loophole for the traffic if possible. He thought this had been admirably done, and felt that the bill was as nearly perfect for the object intended as it was possible to make it at the present time. He did not think it necessary to go into it clause by clause, but would leave it to the individual research and perusal of every member, and would be thankful for any suggestions from either side of the House as to details of the bill, but by principle the government must stand or fall, and no change could be allowed in that. A hint here or there as to minor details would be acceptable, but no atwould be considered. It was not a political question, but one on which both sides had been pledged, and he would be a traitor to the cause of temperance if he allowed any interference with the main object of the act. He was pledged to the people, and on that pledge he would stand or fail. The members had a perfect right to vote whichever way

out in committee, but at present it was a principle they were asked to consider. Mr. Greenway characterized the bill as one of the greatest reforms ever seen in Mr. Bertrand, of St. Boniface, continued the debate this afternoon, and strongly opposed the measure as inter-
