

IT WAS ALL OVER IN THREE HOURS

DETAILS OF CAPTURE OF COLON BY LIBERALS

The Loss Is Placed at Twelve Killed and Thirty Wounded—Gen. Patino Among the Dead.

Colon, Colombia, Nov. 20.—The Liberals made an unexpected attack on Colon at 6 o'clock last night. The government was not prepared and there was little resistance. There was some fighting in front of the Cuartel and in certain streets for an hour and a half. The Liberals gained possession of all the public offices and the town of Colon. The prefect guardia is a prisoner. Over twelve men were killed and about thirty men wounded.

The United States gunboat Machias, now here, took no part in the proceedings. There has been no telegraphic communication with Panama since last evening, and it is surmised here that Panama is now being attacked.

Official Confirmation.—The state department has received official confirmation of the capture of Colon by the Liberals. Transit was interrupted for a brief period, but is now restored.

Capt. Perry, of the Iowa, the senior naval officer at Panama, has been instructed to land marines if necessary to maintain transit across the Isthmus. A dispatch received at the navy department from the commander says that 30 bluejackets have been landed from the Machias at Colon and have taken charge of the railway station. This was not done because of any further disturbances, but as a matter of precaution.

Colon, Colombia, Nov. 20.—On receipt of the news that Gen. Albani, the military commander of the Isthmus, had started to attack the Liberals at Corrales, near Panama, the Liberals detached 160 men under Gen. Patino, to attack Colon. This force embarked on board a train bound for Panama at Colon yesterday evening at Last Cascades station, previously cutting off telegraphic communication across the Isthmus.

On arriving at the outskirts of Colon, where the government usually maintained a small guard, the Liberals left the train and in the initial skirmishes which began soon afterwards, Patino was killed. The command of the Liberals then devolved on Col. Frederico Barrera, and they continued their march on Colon, arriving there a few minutes after the train, thus surprising the government forces.

The government troops at Colon were outnumbered by the Liberals. Fighting immediately began at the Cuartel (the barracks), which was soon taken. Thereafter, the Liberals, under the command of Senor Jaen, a judge of the Criminal Court, and Senor Muscus, the district representative of the department of the interior, was mortally wounded.

Fighting subsequently occurred at the town hall, which was also taken by the Liberals. Among the prisoners captured there by the Liberals were the prefect guardia and the commander of the hearing apparatus in the refrigerating cars.

Smallpox, John W. Causley, his wife and three small children were removed to the quarantine to-day suffering from smallpox. They came here two weeks ago from Council Bluffs, Iowa.

The Late W. Garland, The funeral of the late W. Garland at Portage La Prairie to-day was attended by members of the Manitoba government. Premier Roblin was one of the pall-bearers.

Unknown Man Killed, Two foreigners, names unknown, were blown to atoms by an accidental explosion of dynamite while working on a track cut on the Canadian Northern near Mine Centre, Ont.

BOER APPEAL, Court of Arbitration Will Not Take Matter Up.

The Hague, Nov. 20.—The administrative council for the court of arbitration decided to-day that it was incompetent to consider the Boer appeal for intervention in the war in South Africa.

RHEUMATIC JOINTS—Mrs. George Smith, 62 Channon street, Point St. Charles, Que., says: "Rheumatism in my joints caused me sufferings that words cannot describe how terrible. I took four bottles of South American Rheumatic Cure and am a well woman. I have recommended it to others with as good results. Think the treatment nothing short of a wonder." Sold by Jackson & Co. and Hall & Co.—10.

ATTACKED BY A HOG, Windsor, Ont., Nov. 20.—John Hager, a Sandwich South farmer, was nearly disturbed in the woods while making a bed for his litter. The animal knocked him down and cut open his abdomen, which required stitches. Hager managed to regain his feet and beat off the brute with a club.

MURDERER EXECUTED, Auburn, N. Y., Nov. 20.—Fred Krist, the murderer, was put to death by electricity in the state prison here at 6:37 a. m. to-day. He met his fate with fortitude.

Kirst's crime was the murder of his sweetheart, Katie Tobin, at Waverly, Toga county, on April 7th of last year.

ONE FACT IS BETTER THAN TEN HEARSAYS, Ask Doctor Burgess, Supt. Hospital, Montreal, where they have used it for years, for his opinion of "The D. & L." Menthol Plaster. Get the genuine made by Davis & Lawrence Co., Ltd.

CROPS IN MANITOBA AND TERRITORIES

EXHAUSTIVE REVIEW OF PAST YEAR'S YIELD

Total Amount of Grain Exported This Fall Will Reach About Twenty-Three Million Bushels.

Winnipeg, Man., Nov. 20.—The railways are doing great work in carrying the Manitoba wheat crop. From September 1st to November 16th no less than 17,680 cars of grain were loaded and shipped East carrying in the neighborhood of fifteen to sixteen million bushels. The total amount of grain shipped East last year from September 1st, 1900, to September 1st, 1901, was only a trifle over 13,000,000 bushels. At present all records for grain shipments have been broken, and it is expected that the total amount exported this fall will reach 22,000,000 or 23,000,000 bushels.

The Northwest Farmer, West-Can's farm journal, in its issue to-day, publishes an exhaustive review of the crops gathered from correspondents of the paper in Manitoba and the Territories who were asked to furnish reliable information as to the returns from the past season, as well as to ascertain the amount of land in readiness for next year's work. Introducing the reports the Northwest Farmer says:

Striking an average of the yields reported, we obtain the following results: "Manitoba—Wheat, 23.76 bushels to the acre; oats, 44.44; barley, 35.43; flax, 17.50.

"Alberta—Wheat, 30.29 bushels to the acre; oats, 50.75; barley, 38.33. "Saskatchewan—Wheat, 28.50 bushels to the acre; oats, 50.75; barley, 38.33.

"We think these averages represent pretty accurately the actual crop returns for the divisions of the country which they represent.

"The estimated yield from the crops in the Territories has never been prepared during the growing season by the Territorial Department of Agriculture, but it is interesting to compare the figures obtained from our correspondents with the averages for the provinces issued by the Department of Agriculture for Manitoba. That report gave estimates made from the standing crops as follows:

"Wheat, 24.28 bushels to the acre; oats, 42.28; barley, 37.28 bushels to the acre. The Territories yield is 15% more actual information which these results have enabled our correspondents to gather, it will be noticed that the average for the wheat crop has been slightly lowered, while those of oats and barley have been raised. It will be noted that the best yields as a rule are reported from the parts of Manitoba lying to the north, a fact which may be more or less due to the greater percentage of newer lands being brought into cultivation in these districts and which also suggests that perhaps the production of the land in what we have all along called the best wheat growing sections may already be becoming impaired by too close and too continuous cropping.

The returns from crops in the Territories show a considerably higher average than do those from Manitoba, but this is only in keeping with conditions as they have existed throughout the entire growing season.

"We do not think the reports have anything of the boom character about them; in fact, in some cases it may be rather below than above the actual figures. The general tendency of reports seems to indicate a loss, sometimes of one or two grades, on what on account of the wetness of the fall, although some correspondents do not report any detriment from this cause. It is gratifying to observe the general immunity from damage by frosts; and in contrast to the season of 1900, there seems to have been almost an entire freedom from loss by winds and hail. From some Manitoba points considerable complaint is made of damage by rust. The only damage sustained through winds has been that which has resulted from crops being blown down late in the season, in a few cases being shelled late in the fall while overripe grain was left standing too long before being cut.

"Delay and lateness in threshing is complained of from every quarter. The amount of land under summer fallow seems in most parts to be on the increase, and no doubt the adverse conditions for fall plowing of this season will act as a strong factor in impressing upon the farmers the advantages of having the land under fallow a large part of the land intended for early seeding. Not only this, but with the large amount of land left fallow for spring plowing, it is almost certain that after spring work has been carried as far as the season will allow, a good deal of land will of necessity be held over for fallow. The amount of land held over by insects does not seem to have been very great. In the central part of Manitoba, about and south of Douglas, a few of the lighter lands were invaded by grasshoppers, and in some places complaints are made of the ravages of wire worms and cut-worms, while from one point (Gladstone) the report mentions an attack of Hessian fly. Multiplying the average obtained for Manitoba by the acreage of 2,011,835 acres reported in the Manitoba June bulletin as being sown to wheat, we obtain a total wheat yield for the province of 47,802,049 bushels.

"Taken altogether, the whole trend of the report gives testimony to an unusually satisfactory crop and in the reflection that the crop will furnish good sauce for our Thanksgiving dinner."

Farmer Shot, Brandon, Ont., Nov. 20.—Dr. Robt. Harbottle, Bradford, this morning shot Herman Stewart, a well-to-do farmer who lives a mile south of the village on Fairgrod road. Dr. Harbottle deliberately pulled a revolver from his pocket

REGULATIONS FOR EPIDEMIC DISEASE

STRICT MEASURES TO CHECK ITS SPREAD

Reciprocity With Canada Was Discussed at Convention Now in Session at Washington.

Washington, Nov. 20.—The session tonight of the National Reciprocity convention was devoted mainly to the question of reciprocal trade relations with Canada. Several papers were read, after which the convention adjourned.

The views of the Boston Chamber of Commerce on the subject of reciprocity with Canada were presented in a paper by Mr. Geo. P. Coppins. "There was, he said, no logical escape from the conclusion that Canada should be included in any general scheme for reciprocal trade relations. We should cultivate such a good customer and not incur his hostility."

Mr. John Charlton, a member of the Canadian parliament, spoke earnestly in favor of more reasonable concessions in trade relations to meet the liberal treatment accorded the United States by Canada. "Canada," he said, wanted reciprocity and free trade in the natural products of both countries. Canada could not permit existing conditions to continue.

Mr. Wm. Irvine, of Chippewa Falls, Wis., largely identified with the lumber interests, discussed the attitude of the lumber interests on the question of reciprocity with Canada. He believed that the lumbermen of the United States would voluntarily agree to the same concession proposed by the Canadian high joint commissioners provided those who are engaged in the manufacture of lumber and free trade in the natural products of both countries. Canada could not permit existing conditions to continue.

MR. G. H. KENT.

The above is a likeness of Mr. G. H. Kent, 408 Gilmour Street, Ottawa, taken from a recent photograph. Seven years ago Mr. Kent was cured of Bright's Disease of the Kidney in its last stages by Dodd's Kidney Pills, and has enjoyed good health ever since. The full particulars of this remarkable cure, as sworn to, were published in these columns a few days ago.

provincial board of health. 12. In all cases of death from tuberculosis the rooms or houses occupied by deceased shall be disinfected to the satisfaction of the medical health officer, or the secretary of the provincial board of health or his deputy.

13. Whenever a case of tuberculosis is reported from a hotel or boarding house, the medical health officer shall visit the premises while residing in said hotel or boarding house once a week, or as often as the secretary of the provincial board of health may direct.

Spitting in Public. 14. Inasmuch as spitting is purely a matter of habit, and is offensive to many, and is often very harmful and a fruitful means of carrying disease, it is hereby declared unlawful to spit in tram cars, railway cars, or other public conveyances, or on sidewalks, or on floors and other parts of public buildings.

Tuberculous Milk. 15. Inasmuch as tuberculous milk is a most fruitful source of consumption, it is hereby declared unlawful for any person to sell milk unless he has a certificate of date not later than six months, from the provincial veterinary surgeon that the cows from which such milk comes are free from tuberculosis. Such certificate may be demanded by any customer, or medical health officer, sanitary inspector, secretary of the provincial board of health or his deputy.

Distinction. 16. Whenever it appears necessary or advisable to the medical health officer to have any house, hotel, boarding house, hall, theatre, car, railway car, or other public conveyance disinfected, he may order same to be done and at the expense of the owners.

Penalties. 17. Any person who violates any provision of these regulations shall be liable, upon summary conviction before any police or stipendiary magistrate, or before any two justices of the peace, for every such offence, to a fine not exceeding one hundred dollars, with or without costs, or to imprisonment, with or without hard labor, for a term not exceeding six months, or to both fine and imprisonment in the discretion of the convicting court.

DROWNED WHILE SKATING. (Associated Press.) Duluth, Minn., Nov. 20.—Miss Belle Woods, aged 25, Charles P. Valley, aged 26, and Stanley McLeod, aged 24, skated into an air hole in the St. Louis bay last night and were drowned. The three were skating together and did not see the hole until too late. The bodies have not yet been recovered.
