

A MISSING PROMISE OR THE MISSING WILL

CHAPTER IX.—(Continued.)
This she turned delicately flushed with a pleasant excitement and ran with a springing step in from the frosty air, singing some snatch of song in the glee, kindled by this passing glimpse of another kind of life. Long doors, sometimes woke within her under the spell of the lady's gracious presence, her voice, her face, her smile set many currents astir in her half-petried, half-remembered past. It was wonderful to Jessie that she should be once again detected her loneliness, the young creature, so full of kindred and friends, but that more invincible loneliness of one who lives among ungenial and unsympathetic natures. Even Philip had never seen this Philip, with all his tenderness held her but a slight, mindless, cold creature.

HEALTH IN SPRING

Nature Requires Assistance in Making New, Health-Giving Blood.
Spring is the season when your system needs a tonic. In the morning you must have your blood just as the trees must have new sap. Nature demands it. Without new blood you will feel weak, weary and languid. With new, rich, red blood you will be sprightly, happy and healthy. The one sure way to get new blood and fresh energy is to take Dr. Williams' Pink Pills. They actually make new blood. They are the greatest spring tonic in the world. Mr. J. J. Mallette, a well known grocer in Montreal, says: "I wish to thank you for the great good you do. My system was very much run down and your pills have made a new man of me. As I have written you before in contact with many people, I am often able to recommend the pills, and they have already relieved a dozen of my friends who suffered as I did."

THE INCURABLE CURED AGAIN

J. J. PERKINS OWES HIS LIFE TO DODD'S KIDNEY PILLS.
Manitoba Man Helpless from Kidney Disease. Made Strong and Healthy by the Great Canadian Kidney Remedy.
Tyndal, Man., April 18.—(Special)—Among the many in the great West who confidently state that they owe their lives to Dodd's Kidney Pills is Mr. J. J. Perkins, a well known resident of this place.
"Two years ago I was troubled with my kidneys," Mr. Perkins states, "and at last became so bad that the doctor gave me up and said I was incurable.
"At that time, had such severe pains in my back and kidneys that I thought I would have to give up all work and was becoming decrepit.
"While in this condition a friend presented me to try Dodd's Kidney Pills. I had little faith in them, and it was more to please him than anything else that I gave them a trial.
"Too my surprise the first box did me so much good that I felt like a new man. Five boxes cured me completely.
"Dodd's Kidney Pills saved my life and I cannot praise them too much.
"Thousands of cases similar to that of Mr. Perkins are the proof that Dodd's Kidney Pills are the best cure for all cases of kidney disease from backache to bladder trouble.
"Write for a free trial box to Dodd's Kidney Pills, 100 West 12th Street, Toronto, Ont., Canada."

MACS WITH MANY TARTANS

Many Scotch clans have several tartans, such as a common tartan, a hunting tartan, and a full-dress tartan. Early in the day a Highlander of position dons a kilt of plain tartan and in the evening for dinner he puts on his full-dress tartan, with sporran and richly jewelled design of their hunting tartan in dark blue and green is particularly fine. Each clan has its own badge, and an even-keeled, the Stuarts an oak leaf, and so on.

KEEL LITTLETONS WELLS

There ought not to be any sickly, feeble, or nervous children—there would not be if mothers gave their little ones an occasional dose of Keel Littleton's Tablets.
These and the other minor ills of little ones are speedily relieved by the system and the nerves. The best evidence of its efficacy is the undoubted testimony of thousands of cured cases.

REMARKABLE SALVAGE FEAT

One of the sights of the Show Daga in Burma is a gigantic bell of bronze weighing forty-two and a quarter tons, and said to be the largest bell in the world, the next largest being in Moscow and the next largest in Mingin, also in Burma. After conquering Burma the British undertook to carry the great Rangoon bell to Calcutta as a trophy, but the project was abandoned when it was found that the bell was too heavy to be carried by the efforts of the engineers to raise it from its position in the river. The process is repeated until the rivets no longer give under the strain of the bell. The process is then repeated with a second set of rivets, and so on until the bell is raised to the top of the mountain. The process is then repeated until the rivets no longer give under the strain of the bell.

ASKING A FAVOR

Eliza (coming upstairs to her mistress): "I'd feel extremely obliged to you if you would do me a favor."
"Tell me, Eliza, what it is?"
"Hardly know what to say, ma'am."
