

FROM KIMBERLEY TO THE ZAMBESI BY THE RAILWAY

Canadian Traveller Greatly Impressed by Trip—Wonderful Possibilities.

Victoria Falls, Rhodesia, Nov. 2.—The railway journey from Kimberley to Blantyre, thence to Bulawayo, and on to the great falls of the Zambesi, was one with the immense possibilities of this country. We passed through no desert tracts, everywhere there was fine range country for cattle and in many places for sheep, though in some districts the quality of the soil was poor. The railway runs along the river banks and the tributaries of these are dry in winter, but there are many general farming or fruit growing, though the rainfall is in many places enough for the growing of maize and Kafir corn. But even the passerby, without particular knowledge of the country, can see that there is very great wealth awaiting production on this part of the South African veldt. When there is a general depression among the Boers, who are not very enterprising farmers, of the Australian merino sheep, the wool industry of South Africa will more than rival that of Australia.

Met N. W. Rowell.

At Mafeking, a junction for Johannesburg and Pretoria, I was fortunate enough to meet the Right Hon. N. W. and Mrs. Rowell, who were on their way to Victoria Falls, after a visit to the capital and to the gold fields. They have seen the guests of the Union Government of South Africa. Both Mr. and Mrs. Rowell are in good health, and are enthusiastic in their appreciation of the natural features of this country, of what has been achieved in the last thirty or forty years and of its limitless possibilities. We have seen the grandeur and beauty of Victoria Falls together, and Mr. Rowell now proposes going east to Beira, thence by steamer to Aden, and back to England by the Red Sea. To meet Canadians in South Africa, a thousand miles from anywhere, is like drinking the cool liquid of the desert.

Can Be Seen 25 Miles Away.

The immense volumes of spray, confined within narrow limits by the opposing wall of rock, shoots high into the air, and several times the river is in flood, it can be seen twenty-five miles away. This dense vapor driving skyward, seems to confirm your first impression that the earth has been opened by the act of God and that the water now pouring down to depth of incandescence is shot up again as steam. The other several facts, however, seem to be that a softer substance has here filled the crevices in the hard basaltic rock, and that the water has washed this out. I don't know whether this exactly tallies with Professor Coleman's view. He doubtless knows for he spent some time here and made several very interesting and beautiful sketches of the falls and river.

"The Boiling Pot."

The water emerges from the first gorge into the second through a narrow channel, and the spray is so great that the original native name for the falls, winds along its unfathomable depth under the railway arch bridge, 400 feet in the air, makes another turn of a half-circle in front of the hotel, travels back on a parallel course for half a mile, and then turns again at right angles and disappears in the forest. The wonder of the river below is that the country maintains its usual level and does not fall, but the river passes on its way through this gorge, which is full forty miles in length. A great wonder of nature.

FINDS GIRL IS HIS DAUGHTER

Father Works Beside Young Woman in Factory for Year Before Learning Identity.

Flint, Mich., Nov. 2.—A father and a daughter were reunited here today after a separation of 20 years and efforts were being made by the daughter to effect a reconciliation between her parents.

Jack Benjamin, working in a factory here, admitted the pretty young woman as Mrs. S. C. Diamond. They had been working side by side for a year. One day when she handed him a package to mail for her he noticed it was addressed to the woman he had divorced 20 years before.

"Then I recalled our 3-year-old daughter and sure enough Mrs. Diamond was my little baby," said Benjamin.

GERMAN GUNS AT HILLSBORO

Two Machine Guns and Trench Mortar Received at That Town.

Special to The Standard. Hillsboro, Nov. 2.—New machine guns and one trench mortar have been received here from the War Trophies Department at Ottawa.

The machine guns were captured from the Germans by the 24th Canadian Battalion and 10th Canadian Battalion. They will be erected in town.

PRISON GUARD AND FAIR PRISONER ELOPE RUSSIAN SENTENCED

Windsor, Ont., Nov. 2.—Officer of the night watchman here arrested a woman's brother and Josephine, a prisoner, yesterday night. They were taken to the police station and the brother was sentenced to 30 days in jail.

WONDERFUL NEW TEA WAREHOUSE

The magnificent building shown above, and situated at the corner of St. Lawrence Boulevard and La Rayer Street, Montreal, will be occupied by the SALADA TEA COMPANY about February 1st, next. The building at present occupied by SALADA, at the corner of St. Paul and St. Sulpice Streets, Montreal, was erected by them eleven years ago, but for some time has proved inadequate for their business.

Other SALADA warehouses are situated at TORONTO and BOSTON.

GIRL SHUNS GAY LIFE TO TAKE JOB

Daughter of Wealthy Chicago Society Couple Becomes Stenographer.

Chicago, Nov. 2.—Ever since she was a little girl Miss Jane Morton was told by her wealthy parents that she would enter society when she attained her majority.

She was educated in exclusive colleges and prepared for a "debutante" existence, but Miss Morton had a mind of her own and when her parents finally announced the "coming out" she shied her foot down hard.

"I'll do no such thing," she is reported to have said. "I'm going to do something useful in the world and I'm going to start by being a stenographer."

The girl had her way and that is why she appeared at the office of Ingersoll & Co. investment brokers and took charge of a typewriter.

Miss Morton believes, according to her intimate friends, that the typewriter work prepares one to master real problems in a business career.

She is a daughter of Mr. and Mrs. Mark Morton, prominent in Chicago's social life, who reside in the exclusive Lake Forest suburb here.

RESTAURANT PRICES CUT IN VANCOUVER

Vancouver, B. C., Nov. 2.—A twenty per cent. reduction in its prices yesterday in about two weeks is announced by the local restaurant. The cut is made possible by the reduction in raw materials. Lately there has been noticed a slight decrease in the cost of certain foods.

PROBE RUM RUNNING IN WINDSOR DISTRICT

Judge Will Investigate Charges Made Against Three Special Officers.

Toronto, Nov. 2.—A judicial inquiry into charges against Rev. J. O. L. Spracklin, of Sandwich, special license inspector, and the two Italian brothers, who were recently dismissed from the staff of officers employed in prosecuting the rum-runners, will be held in the Windsor district shortly, and a general airing of the manner in which the O. T. A. is being enforced along the border will be given by a judge yet to be appointed. This was decided on this afternoon at a meeting of the special afternoon at a meeting appointed to report upon the workings of the Ontario Temperance Act.

Rents have risen to such a degree that figures and percentages but faintly indicate the extent. Rents are higher in Paris than in any other world, capital; they are twice the average rent of London, and three times the average rent of New York.

CHICAGO TREE IS 1,000 YEARS OLD

Chicago, Nov. 2.—Chicago has a candidate for the Hall of Fame for trees. It is a giant white maple, 9 feet in circumference at the base, 30 feet high and estimated to be 1000 years old.

The big maple stands in the Cook county forest preserve near Glenview, Hansome Kennicott, chief forester of the preserve, who recently examined the tree and computed its age, found that while the heart was dead, the exterior was sound and the tree capable of lasting many more years. So far as known the tree is the oldest tree in Illinois, according to Mr. Kennicott.

At the end of September the Canadian Milliner of Finance held \$99,223,744 in gold. Total circulation of the Government at that date was \$303,066,376.

CLOTHING PROBLEM IN FRANCE SERIOUS FOR THE FAIR SEX

Furs Worth More Than Their Weight in Gold—Garments of All Kinds Very Expensive

Special to The Standard. Paris, Nov. 2.—The clothing situation in France is as serious as the food and fuel crisis. Suits for men costing 60 francs before the war are now 600, and the most startling increases have been registered during the past six months. Good tailoring, worn by well dressed men, has risen higher still. A suit from one of the best tailors in France before the war cost 250 francs, which was considered excessive. Today the same suit, if it could be obtained, would cost in the neighborhood of 1,500 francs. The mere item of silk lining now costs more than the whole suit formerly did.

Women's clothes have increased if possible more astoundingly than men's. It was stated recently by Femina, the French fashion magazine, that no woman could hope to dress decently in Paris on an income of less than 3,000,000 francs.

Fifty, sixty, even a hundred thousand francs for an evening gown is an ordinary sale on the Rue de la Paix or the Place Vendôme. The great dress-makers themselves have expressed amazement at the price society women are willing to pay. But by far the greater volume of trade of this sort comes to Paris from America.

Worth More Than Gold.

Furs are now worth considerably more than their weight in gold. Silver fox, the fashionable fur this winter, is unobtainable for less than 20,000 francs, and that is an exceedingly moderate price. A fur coat made of mink, costing before the war, 1,000 francs, is now priced at 50,000 and there are plenty of buyers.

The real situation, that there are two classes in France now those who have too little money and those who have too much—is best described by a glance at the situation in the automobile trade.

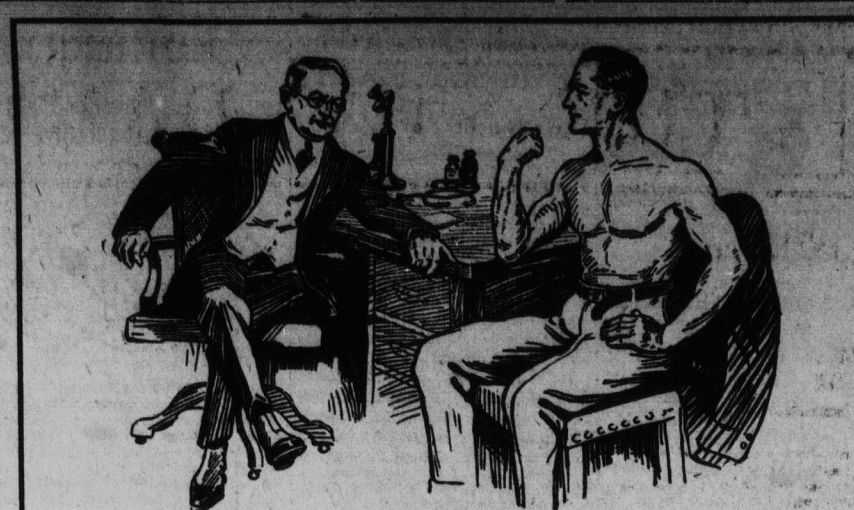

The slump in America has not only been felt here but prices of all makes are increasing rapidly.

Medium priced cars are not selling rapidly. In fact, the medium-priced auto trade is at present at a standstill. But the de luxe models, the Rolls-Royces, the Delages, the Renaults, the Goutard-Birois, the Panhard-Levassour and scores of similar makes are selling readily.

Rents have risen to such a degree that figures and percentages but faintly indicate the extent. Rents are higher in Paris than in any other world, capital; they are twice the average rent of London, and three times the average rent of New York.

NEGRO WOMEN REFUSED BALLOTS

Savannah, Nov. 2.—Negro Women are refused ballots at the voting places in Savannah today. Many negro women have registered here since the suffrage amendment became effective, but the election judges ruled that they were not entitled to vote because of a state law which requires registration six months before an election.

"But I Am Not Nervous, Doctor, See How Strong I Am"

"YES, you are strong, all right, and I find after a careful examination that there is no indication of organic disease."

"Then what does seem to be the trouble?"

"It is your nerves, the internal nerves which control the action of the vital organs such as the heart, the stomach, the liver, the kidneys, etc. This is called the sympathetic nervous system. It is not at all uncommon for strong, healthy-looking people to suffer from this form of nervous trouble."

"I never thought I was nervous."

"How do you act in the dentist's chair?"

"Well, I generally keel over in a faint."

"That is just it. Your sympathetic nervous system is affected by the thought that you are going to be hurt. Your digestive troubles are due to the run-down condition of your nerves."

"I never thought of that."

"No, and not many people realize the all-important part played by the nerves in the digestion of the food and the function of the vital organs. The flow of the digestive fluids in the stomach, the filtering of bile from the blood by the liver,

the purifying of the blood by the kidneys—all these functions and many more are controlled by the sympathetic nervous system. Consequently when the nervous energy runs low all these processes are slowed up and you suffer accordingly."

"While examination shows that there is no organic disease, the action of these organs is weak because of the exhausted condition of the nerves. You need a good nerve tonic."

"What about Dr. Chase's Nerve Food?"

"There is nothing better that I know of. I find evidence everywhere I go of the exceptional restorative power of this popular treatment. But do not expect to get well in a day. It takes time to bring back strength and vigor to an exhausted nervous system."

"How long will I need to use the Nerve Food?"

"That is hard to say. Perhaps two or three months. But you will soon feel the benefit of this treatment and then keep right on using it until you are fully restored."

Dr. Chase's Nerve Food, 50 cents a box, all dealers, or Edmondson, Bates & Co., Ltd., Toronto. Look for portrait and signature of A. W. Chase, M.D., on the box you buy.

TWO ARE DROWNED

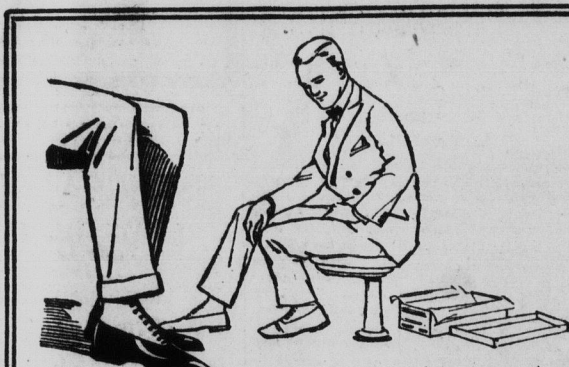

Fort William, Ont., Nov. 1.—Alderman D. A. Gordon and Stanley W. Wermate were drowned last night when a launch with a party of four fouled a sand bar towed by the tug Strathmore at the mouth of the Mission River. The other occupants were rescued.

\$100,000 FIRE IN BOSTON

Boston, Nov. 2.—Fire in a former brewery in the Roxbury district, now used as a storehouse, for cotton, caused damage estimated at \$100,000 today. Nearly all the 1,700 bales of cotton were destroyed or damaged.

The Annual Meeting of the Shareholders of the Prince William Apartments, Limited, will be held in the office of the undersigned, Room 16, Pugsley Building, No. 29 Princess Street, Saint John, N. B., on Monday, the 8th day of November, at 4 p. m.

L. P. D. TILLEY, Managing Director.

The Quality that Wears

You and your rubbers have got to be close friends all winter. Whether or not you get foot comfort and long wear out of the rubbers, depends on the kind of rubbers you buy.

Dominion Rubber System Rubbers

WILL BE EASY AND COMFORTABLE BECAUSE YOU CAN GET THE EXACT SIZE AND SHAPE to fit perfectly every pair of shoes you wear.

They will prove a real economy, too, because they have the quality of materials and workmanship that will give long and satisfactory wear.

Have all your shoes fitted with rubbers—old shoes as well as new ones—then you can use your old shoes for every-day wear in bad weather.

DOMINION RUBBER SYSTEM RUBBERS make shoes waterproof; insure dry feet on wet days; protect you against catching cold; and prevent you from slipping on wet, icy sidewalks.

Go to the shoe store where DOMINION RUBBER SYSTEM RUBBERS are sold and you will find the dealer who wants to give you your money's worth. He believes in quality and service and proves it by carrying DOMINION RUBBER SYSTEM RUBBERS—the sturdy, dependable line that includes shapes and sizes for all shoes for men, women, boys and girls.
