POOR DOCUMENT

THE SEMI-WEEK: Y TELEGRAPH. ST. JOHN, N. B., JULY 22, 1899.

MUNICIPAL COUNCIL.

MR. HARGROVE GIVEN THE DISPUTED MUSQUASH SEAT.

Mr. Balcolm Presents a Claim to ers Given Power to Issue Bonds

for Heating and Ventilating.

The regular quarterly meeting of the Municipal Council was held Iuesday. There were present Warden Maxwell, Couns. Sears, (Colwell, McMulkin, Macrae, Seaton, Christie, Stackhouse, War-ing, Millidge, Tufts, McGoldrick, Robin-

heard Mr. Wallace on behalf of Mr.
Balcom and Mr Baxier on behalf of Mr.
Hargrove, the committee are of opinion ask for the money if they did not need that Mr. Hargrove having the majority of votes, was elected, and they recom-

Coun. Sears seconded the motion, on the ground that the opinion of the county secretary should be taken. By way of explanation, Coun. Lee stated before the meeting he had talked to men on both sides and they were willing to have the matter run ever. He thought this the eariest way out of the

difficulty.

Coun. Macrae thought the council had been pretty well informed on the matter under dispute. The committee hadgone pretty thoroughly into the evidence. He depricated the introduction of politics into the matter by Coun. Sears, who had stated that he was a liber.

Sears, who had stated that he was a Liberal. He moved in amendment that the report be adopted and the recommendations carried out.

Coun. Sears stated he had not introduced politics, but had merely referred to the fact that he was a Liberal.

Coun. McLeod said that Coup. Macrae was the first to introduce politics. He had done this in the naming of the committee, which he had not given the warden the opportunity of appointing the committee.

Coup, Macrae-I offered to put any one

Chur. McLeod—1 understood that the ommittee was really named by Coun.

Cour. Macrae indignantly denied this and Cour. McLeod withdrew his remarks, but said the evidence showed that crooked work had been done in the election and he moved for the reading of the evidence taken by the committee. He felt that the committee were not as well informed on the matter as they might be.

Cour. Christie supported the motion on the ground that the report recommended the seating of the man who secured a majority of the votes. The evidence, he thought, would not inform the council very much.

Cour. Seaton said he had made up his mind months before the investigation, and all the evidence that could be produced would not change his mind. He believed the man with the most votes should be seated.

Coun. Les thought the evidence should be read as the committee was appointed to investigate the case and report. He held that the council was not fully informed until they had heard the evidence showed that the voting lists had been tampered with and names added which did not properly belong there. He would not say by which side the names had been added, but did not think the committee should have given a judgment in favor of the man who received a majority of votes when it was a majority of a padded lst.

The amendment to the amendment carried, although it was stated that the reading would take two or three hours.

argued that Mr. Balcolm was not quali-fied, and that Mr. Hargrove was. The amendment was put and carried

as follows:-For-Colwell, McMulkin, Seaton, Waring, Christie, Millidge, Macrae, Tufts, Cochrane, Dean, Lowell, Catherwood,

Cochrane, Dean, Lowell, Catherwood, Fownes—13.

Nays—Sears, Allan, Stackhouse, Mc-Leod, Hogan, Lee—6.

Mr. Hargrove was then sworn.

The finance committee recommended the payment of the usual quarterly account amounting to \$1,081.66; they also recommend the issuing of \$5,000 for the heating and ventilating of the hospi al as inadvisable in view of the large surplus on hand; the secretary reported having called for tenders for count printing, and no tenders being received but a letter from Mr. Knodell agreeing to continue the printing for the ensuing year under his contract for the past year: It was recommended that his offer be accepted.

On motion of Coun. Christie the report was adopted with the exception of the section referring to the general public hospital.

Couns. Sears, (Colwell, McMulkin, Macrae, Seaton, Christie, Stackhouse, Waring, Millidge, Tufts, McGoldrick, Robinson, Catherwood, Lowell, McLeod, Lee, Horgan, Fownes, Ruddick, Cochran.

After the minutes were read and approved, the following report of the committee appointed to investigate the Musquash election case was read:—

"To the Warden and Council of the Municipality of the City and County of St. John:—

"The special committee to which was referred the Musquash contested election matter, beg leave to report:—

"1. That they met and elected County of the Chairman, and examined several witnesses under oath, and after having heard Mr. Wallace on behalf of Mr.

Ald. McMulkin spoke on the same

of votes, was elected, and they recommend that he be allowed to take his ment at the council board as councillor representing the parish of Musquash.

"2. The evidence taken befor the committee is herewith submitted.

"Respectfully submitted,

"(Signed) JCEPH LEE,

"Chairman."

When the report was read, Coun. Lee moved that the report lie on the table to see if it could not be arranged that the men run another election.

Ald. McMulkin spoke on the same lines.

Coun. Allan, one of the hospital commissioners, said the institution had been run so economically that a surplus had accumulated. To run the hospital it was necessary to have a surplus for emergencies. Repairs were needed to the roof of the wing, which would absorb all surplus. The claims of the public on the hospital made it necessary to increase the staff and hence the expense.

Coun. Seaton poke on the same lines.

Coun. Allan, one of the hospital commissioners, said the institution had been run so economically that a surplus had accumulated. To run the hospital it was necessary to have a surplus for emergencies. Repairs were needed to the roof of the wing, which would absorb all surplus. The claims of the public on the hospital made it necessary to increase the staff and hence the expense.

Coun. Seaton word in a surplus for emergencies. Repairs were needed to the roof of the wing, which would absorb all surplus. The claims of the public on the hospital it was necessary to have a surplus for emergencies. Repairs were needed to the roof of the wing, which would absorb all surplus. The claims of the public on the hospital it was necessary to have a surplus for emergencies. Repairs were needed to the roof of the wing, which would absorb all surplus for emergencies. Repairs were needed to the roof of the wing, which would absorb all surplus for emergencies. Repairs were needed to the roof of the wing, which would absorb all surplus for emergencies. Repairs were needed to the roof of the wing, which would absorb all surplus for emergencies.

the section as reported be adopted.

Cour. Lee said that if Cour. Allan assured him the necessary repairs were to be made this season he would vote for the bonds.
Coun. Allan said that the roof would

be repaired if possible. He was afraid the season had already been too far ad-

vanced.

The amendment was lost, and Counse Christie's motion carried and the report as amended was carried.

A communication from John B. Armstrong complaining that Cornellous Calahan, field driver of No. 8 district, Simonds, had refused to perform his duty, was referred to the councillors.

Coup. Lee gave notice that he would move for an amendment to the road act, and the council adjourned.

A VANCOUVER LADY

Oured of Asthma After Eight Years of Al most Constant Suffering-She Says the Absolute Freedom From Diseas Seems Like a Dream-Clark's Kola Compound Cures.

Ompound Cures.

Mrs. J. Wise, Mt. Pleasant, Vancouver, B. C., writes: "I have been a great sufferer from bronchial asthma for the past eight years, many times having to sit up nearly all night. Through the advice of a friend who had been cured by Clarke's Kola Compound I resolved as a last re-ort to try it. The first bottle did not relieve me much, but before I had finished the third bottle the attacks ceased altogether, and during the past six months of damp and cold weather have not had a single attack. It seems something like a dream to be free from this worst of all diseases after so many years of suffering. I have since my recovery recommended this remedy to others suffering as I was, and know many others in this city whom it has cured. I consider it a marvelous femedy, and would urge any person suffering from this disease to try it."

Three bottles are guaranteed to cure. A free sample bottle of Clarke's Kola Compound will be sent free to any person who has asthma, mentioning this paper. Address the Griffiths & Macpherson Co., sole Canadian agents, 121 Church street. Toronto, Clarke's Kola Compound should not be

A Kentucky Feude.

Coun. Les thought the widenes should be read as the committee was appointed to investigate the case and report. He held that the control was not fully informed until they had heard the widenes on which judgment had been passed that the votting lists and been tampered with and name and been added, but did not think the committee should have given the wideness of the would not asy by which side the names had been added, but did not think the committee should have given as majority of a padded let.

The amendment to the amendment carried, although it was stated that he reading would take two or three hours.

The smeading of the evidenes occupied more to speak but Warden Maxwell the following had been added, but the following had been added to have resulted the same and a member of the committee he could not be heard. He shan handed Warden Maxwell the following had been added to have resulted to the result of the major to a proper two filters.

The smeading would take two or three hours.

The smeading would take two or three hours.

The resulting the concluder of the committee he could not be heard, He shan handed Warden and Concillors of the county, farmer, do live and the state of the county for the county

SUPPLEMENTARY ESTIMATES.

THEY TOTAL FOR THE YEAR ABOUT FIVE AND A HALF

Of This About Four Million is Charged to Capital Account, and Something Over a Million to In-Brunswick and St. John.

OTTAWA, July 18-The supplementary stimates for the year 1899-1900 were brought down this afternoon. They total \$5,497,343. Of this \$3,898,556 is charged to capital and \$1,898,556 to income.

The following are for the Intercolonial:-tables.
mprovements Point Tupper.
mprove water service, Moncton...
telegraph service.
Ingine houses and improvements...

New appliances.
Refrigerator cars
Scales at Pictou, Drummondville and
North Sydney.
Subway at Christie's Crossing, Amherst.
Tredging at Pictou predging at Pictou wharf....... levator at Halifax.... ffices at Moncton....

Prince Edward Island Bailway from Charlottetown to Murray Harbor and Hillsborough bridge..... storage..... Improvements below St Mary's cur-

territory.

Miscellaneous expenses
Required to maintain prisoners.
Pay of militia officers and men.
Food, clothing and necessary transportation.
Trains, roads and bridges.
Telegraph lines in British Columbia and Yukon district from Benneut to Dawson and branch to Atlin City.
Quesnelle to Atlin, British Columbir, via Stickene River and Teslin Lake, about 900 mfl:s of telegraph lines.
Public buildings Yukon district.

Ont. Clarke's Kola Compound should not be confounded with the other Kola preparations on the market, as this is altogether a different preparation, designated especially for the cure of asthma. All druggists. Price \$2.00 per bottle.

slightly. It was at once noticed that she was sailing nearly, half a point nearer the wind than the Britannia. The Shamrock was carrying her mainsail, jib headed topsail, jib and foresail. The Britannia carried the same canvas but in addition her club topsail. The Shamrock was half a mile ahead passing Warner.

Hogarth was of the helm of the challengar. The boat held up admirably

to port near Ryde. They were then travelling at such a rate that the press boat, going at a speed of eleven knots an hour, was unable to keep the pace with the Shamrock, though the wind lightened considerably after leaving the Nab lightship. The wind freshened after passing Cowes and both boats took in their spinnakers and started on the broad reach to the Solent started on the broad reach to the Solent buoy. After jibing around they reached back finishing with a short tack to make the home mark. The Shamrock won MILLIONS.

easily, arriving at the finish line at 3.46.00.

Experts were satisfied that the Sham-rock would be able to give a good ac-count of herself in the contest for the America's cup. Church Dedication A very interesting event took place a

QUEBEC, July 18-Quebec has again been visited by a disastrous fire, this time destroying over sixty houses. About church, was solemnly set apart as a place of worship. It was a day long to be remembered by all who took part in the service. A large congregation assembled which more than taxed to its utmost the seating capacity of the church. The dedicatory prayer was offered by Rev. J. C. Robertson, while an impressive opening sermon was preached by Rev. A. D. Archibald, of Sackville, formerly missionary in this field, who based his remarks on 1 Cor. 3—ii.

A. D. Archibald, of Sackville, formerly
missionary in this field, who based his
remarks on I Cor. 3—ii.
In the afternoon another large crowd
assembled and listened to an appropriate
of book for his text John iv, 23.
The church was again well filled in
the evening to hear Rev. T. Pierce, resident Methodist minister, who treated
his hearers to a very carefully prepared
and datess from I. Cor., I., 23, 24. During
the services a choir is du by Miss Annie
Forbes, who presided at the organ, furinshed excellent and appropriate music.

GOLD MINING IN NOVA SCOTIA.

coal mine at Kyushu, Japan, on the morning of June 15.

Two hundred men and women were all the mine when an explosion of coal gas took place.

People living in the neighborhood assayed to go into the pit from a side entrance, but were driven back by sufficent gas laten pit, but it was some time before people could go into the shaft.

Dy to the night of the 16th only five bodies had been recovered and these with charred and with terribly injured limbs. The work of recovering corpses was still going on when the Olympia sailed.

Mr. Khiracka, M. P., who is now travelling in America, is the principal owner of the mine and his loss resulting from the disaster is roughly astivated at loo of the circumstances it is not at loo of the New Brunswick Medical Society opened today. The commissioners are much blamed for not ordering the restitution of loot taken by rebels.

The commissioners are much blamed for not ordering the restitution of loot taken by rebels.

The commissioners are much blamed for not ordering the restitution of loot taken by rebels.

Mr. Korina when the explosion have been on a small scale and conducted with limited capital. There have been no large mines or miles, and much of the work has been done in an unsystematic way, and with little related to the proper development of the resources of the goll-fields. There has been to follow the vern as long as the work paid, and when the pay-streak pinched out, was faulted for another though the total yield of the Province has not a small scale.

Mr. Khiracka, M. P., who is now travelling in America, is the principal owner of the mine and his loss resulting from the disaster is roughly astivated at the second of the converted of the supporters request the disaster. The commissioners are much blamed for not ordering the restitution of loot taken by rebels.

Mr. Khiracka, M. P., who is now travelling in America, is the principal owner of the mine and his loss resulting from the disaster is roughly astivated the constraint through the total yield of the Province

The gold measures of Nova Scotia form an slmost continuous belt along the Atlantic coast of the Province, 260 miles, the width varying from 10 to 75 miles. O'course this whole area is not auriferous, but gold-bearing deposits may be expected, and are found over a very large part of it. The gold measures fall naturally into two groups, the lower or quartzite, and the upper, or slate group. The beds forming these measures were originally deposited horizontally, but have been slowly moved by powerful pressure, which has folded them into a series of huge undulations, roughly parallel sure, which has folded them into a series of huge undulations, roughly parallel with the coast. Both the rich veins and the large bodies of low-grade ore follow the lines of stratification and occur at well defined points along the anticlinal axes of the folds. To locate the deposits on the surface and to develop them in depth, a knowledge of the structure of the anticlinal folds is the first necessity. The work of the Galogical Survey has done much towards extending this knowledge, and will be of great service in future explorations.

rure mining in this field, it seems probable, will be of a widely different character from that which has been carried on in the past. Instead of small mines, following only the richer veins and condition asked by him.

FIRE RAGING IN QUEBEC.

and looking for higher grade ore, there will be exploitation on a large scale, and the low grade ores will be worked extensively. There seems to be no reason why these low grade deposits cannot be made to pay well wherever they are of sufficient extent to warrant the erection of large mills. The Nova Scotia ores are free-milling, as a rule, and can be worked cheaply and with little difficulty. Of course there is plenty of opportunity to make mistakes in this field as well as others. Proper selection of locality and development of the deposit before investing in machinery are imperative. Caution is needed, and the reckless promoter is to be avoided. There is no doubt, however, that there are chances in the field, and that the next two or three years will see extensive developments there.—[Engineering and Mining Journal.]

To Vote on Sunday Cars.

Winnipeg, July 18—A bill giving power to the city of Winnipeg to submit the question of Sunday cars to a vote of the people, received a second reading in the Manitoba legislature last night. The vote was a tie, 14 to 14, when the speaker gave the casting vote in favor of the bill. This power was taken from all municipalities three wears ago through the cipalities three years ago through the efforts of a few country members.
