THE WEEK

Holiday Slightly Reduces Ore Shipments of the Districts

Time Necessary for Proper Development of Rambler-Cariboo-Details of Output and Smelter Receipts

The celebration of Labor Day during the past week somewhat interferred with the ore shipments and in consequence the total is somewhat below the general average for the last seven days.

The bonding of the Golden Bell group at Salmo and the statement that the much talked about Mother Lode group adjoining the bonded property, is once more in the market for bonding offers, the last reported deal having fallen through, are two items of local interest fully dealt with in these columns during

After remaining out of the shipping list for several weeks the Silver King sent 445 tons to the Consolidated smelter during the past week and the rumor of some unusually rich finds at the mine urrent a while ago, have been revived In another week or ten days it is ex-pected that the B. C. Copper company's smelter at Greenwood will be in partial operation and by the end of the month the whole newly rebuilt and enlarged plant will be nearly ready for working

full blast again.

Manager Zwicky of the Rambler, who
was in the city during the week, while
positively confirming the finding of the ore body in the famous long tunnel of the Rambler, added that it will take nearly a year to get the mine properly

and thoroughly. Speculators, who raised visions of immediate dividends and "bulled" the stock accordingly, are responsible for the fluctuations of the shares in the market. It is worthy of note that those who control the pro-

sale, being content to await the develop ment of the mine, now that it is known the main ore body has been definitely

The Hall Mining & Smelting company appear to have got needed repairs and changes rushed through and the receipts at the smelter this week are about the ame as usual. The company say, however, that they are delayed in their work by the dearth of competent work-

The output of the various mines and the receipts at the several smelters for the past week and year to date in detail are

News from the White Bear continues to

News from the White Bear continues to be of an encouraging character. Some valuable ore shoots have been uncovered. The management, however, states that it will take several weeks to properly develop them and that only such ore will be sent to the smelter as is taken out in the course of the contrast with the sent to the smelter as is taken out in the course

f development work.
The chairman of the Le Roi board of directors, Grinke-Drayton of London, Eng-land, who has been in Rossland for several weeks, leaves for the old country today. weeks, leaves for the old country today.
During the time that he has been here
Mr. Drayton has been chiefly at the mine
and at the Northport smelter, and has expressed himself as being well pleased with
the result of his investigations. Though the result of his investigations. Though not now actively engaged in business in England, Mr. Drayton was at one time chairman and menaging director of one of the largest collieries in Great Britain.

THE COAL OUTPUT

igures from C. N. P. C. Company's Col

(Special to The Daily News) paratively small this week. Which is accounted for by the fact that Monday was labor day, most of the mines were closed down on Thursday owing to an accident to the box car loader, and that No. 2 mine was idle on Friday owing to an accident to the fan. The following is the tonnage for the week ending Sept. 7:

Coal Creek 8,782.02 3,797.11 ichel ......34,148.18 The shipments of coke for the month of

ANSWERS TO CORRESPONDENTS R. Mcl., Sandon, B. C.—The grayish thite crystals intermixed with the galna you submit for examination, are grussite crystals. Cerussite is a car-mate of lead, which pure, carries near-84 per cent lead, so you will quite see at instead of being a detriment to your e it is a mineral that will considerably increase its lead contents. Regarding any silver contents it may carry, it is that other engagments rend impossible to state without having the sample assayed. The fee for a silver

assay will be \$1.00 T.C.M.—No. I sample is a fairly good specimen of limonite (an oxide of iron), but there is rather too much sandstone asso dated with it to make it of any com-mercial value. No. 2 is a sandstone. No. 3 has limonite on the upper side sand-tone on the upper side, sand-tone on the lower or No. 2 side.

G. M., Slocan-Your sample is a decomposed sulphide of iron, part of it being ovidized into the form of melantorite or sulphate of iron, this being the

greenish part; the other, the blackish-brown mineral, being in the form of an oxide, or oxy-sulphide of iron. J. W., Socar City—Your letter with the enclosed postal note has been receiv-

ed. Also the samples which you sent by express. No. I is secondary quartz stained brown by the action of the iron There is also a considerable amount of iron and zinc oxides in the sample as well as some pyrites and quartz crystals. It will probably carry small values in gold and silver. Your No. 1 sample is being assayed as requested and will probably be ready on Tuesday next; in the meantime it would be advisable for you to send us your name, as we do not publish the results of assays in this column, and the postoffice

authorities will not deliver letters addressed by the initials only.

J. K., McGuigan, B.C.—As you will o doubt have noticed, your No. 1 sample (float) is galena, coated with some oxidized matter. No. 2 has every appearance of having been made by mechanical means, that it is appears to have been rolled up into this shape by some man. It is a conglomeration of talc. slate, chlorite and some silicious rock, with here and there specks of galena and pyrite.
G. W. C., Phoenix, B.C.—Write to the

fraction.

for mineral displays are already on exhibition in Nelson and they are well worth the time and trouble you may take should you manage to win one.

P. R., Cascade, B. C.—See reply to G.

W. C. above. Mrs. A., Cranbrook, B.C.—Your No. 1 sample is an ordinary slate rock. No 2 and 3 are similar only stained brown-ish with iron. No. 4 is talc. None of hese samples will contain any comme cial values, so cannot advise you to have them assayed for any particular

P.R., Nicola, B.C.—The sample you submit for examination is a variety of brown coal or lignite. It is impossible to give you any definite reply as to its qualities without having an analysis made of the sample. For this a fee of \$6 is charged, and your sample will be kept ten days awaiting a reply from you. would be better to send a larger sample if possible, if not this one will do.

W. S., Aspen Grove, B.C.—Your No. 1 sample contains pyrrhotite and blende in quarty. No. 2 is nearly all blende with a little pyrrhotie. No. 3 is similar to

No. 1. No. 4 mainly composed of an al-tered schist with some pyrrhotite. L. L., Nelson, B. C.-Your sample is quartz carrying arsenical pyrites. It is impossible to state whether it will carry gold and silver as you do not give any particulars as to the district from which it is obtained, but most likely it will carry both metals in greater or less

quantities.
J. P., Molson—Your letter was received. ed early in the week, together with sam-ples and fees. A private reply has already been sent you.

C. P., Kaslo. B.C.—The green stain in

C. P., Kasio. B.C.—The green stain in your rock is probably due to the leach-ing out of the copper present in the grey copper, of which some is noticeable in your sample. Have it assayed for silver

J. R. C., Sandon B.C.—Your rock is of a chloritic nature. The green color present is not due to copper, but to ferrous You might have it assayed for siliron. You might have it assayed for sirver, but it is very doubtful whether it will contain any commercial values.

H. R., Ferguson, B. C.,—Your specimen is a piece of Jamesonite. This is a sulphide of lead and antimony. Have it

assayed for silver and lead. Your sample will be held ten days to see if you would like it assayed; the fee will be \$1.50.

L. B., Trout Lake, B.C.—We fail to see any indications of free gold in your sam There is a little copper pyrites, as

well as some pyrrhotite, nothing more M.S.C., Kaslo, and F. H. Salmo—Your lies will be published in next Sunday's issue as they require considerable time and attention being paid to them. Your letters did not arrive in time for it to be given this week.

T.L., Fernie, B. C .- Nos. 1 and 3 are hematite (red); have both assayed for iron; No. 2 being powdered it is impossible to give an opinion upon.

### EARL GREY'S PRESENT

CUP COMING FOR AGRICULTURAL ASSOCIATION

ATURDAY NEXT CLOSING DAY FOR ALL ENTRIES.

As was confidently hoped he would, arl Grey will present a prize cup to the

Nelson fair. His excellency had a long chat with captain McMorris on Saturday and be-fore leaving wrote the captain a personal te saying that the fair directors would be formally asked to accept a cup, to be mpeted for next year and thereafter in the opinion of the directors, is best ntitled to it by reason of the excellenc of his orchard during the preceding

The cup will be included in next year's prize list and it is hoped that earl Grey's gift will be of silver "mined, smelted and efined" in British Columbia, as is the handsome cup presented to the associa-tion the other day by sir Thomas Shaughnessy, and now on view here. In his note to captain McMorris earl Grey lays stress upon his being unable to be here during the fair and his regret having the possible for him to open the exhibition. The secretary received word from the Revelstoke lacrosse team yesterday that they will play here during the exhibi-

The collectors for fair funds will short ly go their rounds and expect a gener-ous response from all good citizens. Mrs. Melville Parry has completed her list of those who will engage in the Jap-anese parasol drill before the grand t the fair Last night another rehearsal

was held in Fraternity hall, and excelent progress was made. iding exhibitors are reminded again that all entries must be in by the end of this week, Saturday next, Septem ber 15th, being positively the last day when entries will be received.

BOXING IN PHOENIX Sailor Kelly Wins Decision From Kid

Arnold (Special to The Daily News) (Special to The Daily News)
Phoenix, Sept. 12—A 20 round boxing hout
was held Monday evening at Miners' union
hall between Sailor Kelly, formerly of the
United States navy, and who halls from

Milwaukee, and Kid Arnold of Spokane. Danny Deane was the referee. The contest, which was held with an audience of some 125 in attendance, was over in just five rounds, Sailor Kelly being given the lecision. In the first two or the decision. In the first two or three founds Arnold put up quite a scrap, but was evidently weakening and outclassed from the beginning. In the fifth round he was down and out and Kelly declared the winner. There was not much betting on the con

# OF THE LAW

Secretary of Lord's Day Alliance on Sabbath

Will Address Gathering in the Methodist Church Tonight and Tell Inner History of the Legislation

Rev. J. G. Shearer, general secretary of the Lord's Day Alliance, the man to whose exertions the passage of the Lord's Day act at the last session of parliament was due, is in the city. This vening he will deliver an address in the church and has promised in ts course to reveal some of the inner istory of the battle for Sabbath legisla tion. Yesterday he was interviewed by a representative of The Daily News and gave the following information regard-ing the act, which goes into force next

"What is your estimate of the new

aw?" he was asked.
"The new Lord's day act has been in some quarters gravely misunderstood and misrepresented. It has on the one hand been said to be as stringent and uritanical as the blue laws of Connectiut, and on the other to be so full of loopholes as to be practically worthless. The truth about it lies between these extremes. It is not puritanic but it is effective; it is not over stringent but reasonable. It will prove a great bless-ing to the working men of Canada and will effectively prevent many abuses Sunday which disgrace Europe and the western states. It is the most thor oughgoing Sunday law on the statute ooks of any country, and yet it does no

nduly encroach upon individual liberty. "How does it affect Sunday trading?" "It prohibts it absolutely, excepting only the sale of meals and medicines or anything that from its nature in given ircumstances is a necessity or mercy The sale of cigars, tobacco, liquor, news papers and all general articles is abso-lutely prohibited."

"To what extent is travel interferred "Through regular traffic is not inter ered with at all. Street rallway traffic s left to be regulated by the provinces The running or conveying of excursion however, for hire or pleasure is prohib-ited. Horses, carriages and small boats may be hired for the personal use of the hirer or his family for purposes not pro-hibited by the act. This will prohibit letting conveyances for business purposes of any kind or for conveying pleasure excursions for hire, but will allow hiring for other purposes to private in

"Does the act allow for the continuance on Sunday of such continuous pro-cesses as smelting and cement working?'
"It allows for the absolutely unavoidable work in connection with such processes, but not for carrying on practi-cally the whole industry as is often done. There are greedy men in some companies engaged in the smelting inlustries for instance, who prefer to have all subsidiary sorts of work done on Sunday as on other days. To avoid investing in certain facilities that would enable them to give a large number of their men the Sunday off they keep the whole industry going when much of it might be discontinued. The new law allows absolutely unavoidable work in

onnection with such processes to be one on Sunday."
"What about working in the mines of inning concentrators or stamp mills? "Pumping out, ventillating and in-specting of mines is allowed where necessary in order to ensure the safety of life, health and property. But the oper-ation of the mines, concentrators and stamp mills is absolutely unlawful on Sunday under the new act just as other sorts of work are. And about this there

was unanimity in parliament."

"What change will the new law make n regard to Sunday work and traffic on

the railways?"
"It makes more difference perhaps to the railways than to any other industrial concerns, because heretofore they have not been in any way subject whatever to existing Sunday laws. No new construc ion work on roadbed or rolling stoe is allowed, nor general repairs to en-gines, cars or buildings, bridges or roads, lutely necessary in order to ensure the safety of the public or property. Trains loaded with through freight which are in transit when Sunday begins, can go forward to their destination, but trains of freight cannot be made up or started out on Sunday, nor can cars be gathered up along the line or distributed or way freight be handled. No loading, unload ing or shipping of freight of any kind can be done, except that live stock and perishable goods may be unloaded and cared for at their destination. these however, cannot be loaded or ship-ped on Sunday." "What about sports and amuse-

ments, etc., where there is an admis sion fee charged directly or indirectly or any prize or reward contended for are absolutely prohibited. There can thereore, in Canada, be no Sunday theatres ball games, etc., such as prevail in the United States. But amusements as such are not prohibited—only the business of

"How do you think clause 15, requiring the consent of the provincial attor-ney general before prosecutions are comenced, will affect the working of the law and its usefulness?"

"I have no hesitation in saying that

the government and parliament did not display their usual dignity and good judgment in passing this clause in its

present form. It is ridiculous and un-reasonable to say that before a pool room can be closed or a gang of navries punished for working, for instance in the streets of Nelson on Sunday to the scandal of the whole city, the attorney general must be written to. But while this is true, I do not agree with some that it practically nullifies the act. have already ascertained the attitude of the attorney generals of several provin-ces and they unhesitatingly announce their readiness to heartily and prompt-ly co-operate in uniformly, impartially

and thoroughly enforcing the new ac as soon as it comes into effect—that they will on every application, give their consent to action being taken. This of course can be done either by letter or telegram, very promptly. No affidavits, etc., are necessary with these men in office. I have no doubt what-ever that the attorney general of B. C. and those in similar office in all the

and those in similar office in all the provinces will do the same thing."

"Can newspapers be sold, distributed or published on Sunday?"

"No—nor imported. The American papers cannot be brought across the line for sale or distribution on Sunday, across the line for sale or distribution on Sunday, and the sale of the sale of distribution on Sunday, and the sale of nor can Canadian papers be sold or dis-tributed to customers. There are no loopholes in the law regarding this. They cannot even be sold on the trains or in hotels. The Sunday papers had practi-cally no defenders before parliament in other house so far as I observed. Work s allowed after 6 o'clock p.m. in pre-

aring for the Monday issue."
"Do you consider the Sunday is badly beserved in Nelson?"
"Not at all. On the whole from what I hear it is remarkably well observed. But even the most loyal of its citizens would not claim that it is perfectly ob-served. I would only venture to call at-tention to one thing. I understand that little attention is paid by the saloons to the provincial liquor law which prohibits selling on Sunday except perhap to close the street door. Such open de fiance of law tolerated by the city auth orities and people cannot but tend to breed lawlessness of spirit in general and in an otherwise well ordered city like Nelson it is to say the least unbe coming. The Sunday saloon is ino-where a mark of a city being up-to-date And no western city would care to be ranked as behind the times."
"What will be the subject of your ad-dress Thursday night in the Methodist

"I shall tell the story of the battle for the Sabbath at Ottawa, and in that story there is much of interest the people of the west have not been told in

press despatches."

A number of active local opponents of the bill which Mr. Shearer fathered and which he is now championing, made inquiries last night as to whether or not hey would be allowed to ask the lec turer questions this evening. They were unofficially informed that, as Mr. Shearer usually made it a rule to accord his audiences free discussion of any ques-tion with which he is dealing, their desire for information would probably be granted. Accordingly they stated their intention of being on hand.

### ELEVEN WERE KILLED

ERIOUS ACCIDENT ON C. P. R. FAST EXPRESS COLLIDES WITH

SPECIAL COLONIST. (Special to The Daily News) Sudbury, Sept. 12.—At 7.30 today No. 2 ast express from Montreal, collided with cial colonist train for Winnipeg The two trains came together at Aslda station and made a complete wreck of both engines and five cars. The engine of the colonist train never left the track but jumped as they came together. The death roll now totals 11, injured number

The dead: Two daughters of Mr. and Mrs. Leonard Schade, Monkton, Ont. aged 11 and 14 years; Dr. Milne, South Woodsly; J. J. Noble, Barrie; Frank Blackwell, Bellevue avenue, Toronto; Percy Baker, Collingwood; Lewis Paff, Percy Baker, Collingwood; Lewis Fair, New Hamburg; — Sheit, New Hamburg; — Pluff, New Hamburg; John Petti-comb, New Hamburg; Thomas Petti-comb, New Hamburg; Henry Herman,

New Hamburg.
The injured: William Rowe, Frankfort, feet and internal injuries; Herbert Williams, Toronto, cuts and bruises, do-ing well; Sheldon Moran, Frankfort, ractured leg; Seymour Chapman, Mapleview, Ont., cut and bruised; Leonard Schade and wife, Monkton, Ont., injuries not serious, their two daughters instantly killed. Mrs. Willoughby Tenny son, London, England, severely injured; John Stewart, Edengrove, Ont., seriously injured; George Jarratt, Essex, Ont., cut and brulsed; J. Watt, Stockdale, Ont., severely injured; William Alexander, Parkhead, Ont., cut and brulsed; George Reis, Hanover, Ont., seven ribs broker and other injuries, doing well; San Kingston, Frankfort, legs and body bad-ly cut, condition critical; David Martin, Weisenberg, slightly injured; Jaco Mersinger, Hanover, arms and head in-jured, not serous; C. Hamilton, Harper's Corners, Ont., slightly injured; George Rose, Frankfort, slightly injured. The accident occurred at 7:30 in the

The accident occurred at 7:30 in the norning. Third section No. 1 westboun had orders to meet second section No. 2 eastbound at Azilda. The westbound train was made up of colonist coaches, containing harvester excursionists and was back-ing into a siding to allow the eastbound express to pass when suddenly the eastbound train came around the curve and crashed into the harvester train, the baggage coach of the latter telescoping the first passenger car. The dead and injured were all taken out of the first car of the harvester train, no one being injured in the other cars or on the eastbound express. The engineer of the eastbound train states that the brakes refused to work. The crews escaped by jumping. Scenes of wild confusion followed the shock, but rescue work began speedily, the survivors working hard taking out dead and wounded. The wreck is one of the most serious in the history of the C.P.R., and an investigation is in progress. The excursion train carried 18 coaches all crowded, making the train hard to handle, but the general opinion at the scene is that the east

slowing up at point of meeting. The engineer states he applied the brakes which ump with the fireman for his life as did the crew of the other train.

FATHER MORICE CHAMPIONS HIS INDIAN FRIENDS

(Special to The Daily News) Vancouver, Sept. 10.—Private word has been received here from the north to the effect that the Babine Indians are quite satisfied with the promises made to them by the Ottawa authorities, and hat there will be no further trouble over the removal of the obstacles the had erected in the river. It is asserted on rumor that one cannery representa tive who was over zealous in his efforts to enforce "the law" was seized by a o enforce "the law" was seized by a number of Indians and ducked in the

Winnipeg, Sept. 10.—Father Morice, O. M. I., the celebrated British Colum-bia missionary and author of a history of the interior of British Columbia, ha issued an appeal to the press on behalf of the Babine Indians who he believes are being unjustly treated. These Indians are among the least known of the many tribles of American Indians. They inhabit a tract of country, several hun-dred miles in extent in the central por-tion of the western province. They number about 600 souls in all. Father Morice has been a resident among them for the past 27 years. Among them and the neighboring tribes he has succeeded in having fourteen churches built. He has been in very close communication with the tribe from the beginning of his with the tribe from the beginning of his life among them, and is supposed to unlerstand them better than any other living man. He is in the city at the present time on the way to Quebec.

"The Babine Indians are being greatly wronged," says father Morice. "The entire question is one of salmon fisheries. The first I heard of the trouble was when I received a letter signed by some of the chiefs, the letter being written in the characters which I myself had taught them. In order that you may understand this letter, I will need to explain that from time immemorial the Babine Indians have subsisted on the salmon taken from the streams in northern British Columbia. In order that sufficient of the salmon may be secured to give a supply for a year, it is neces-sary that the Indians should use the weir, into which the fish naturally en-ter, when ascending or descending a stream. In this manner a large quantity of fish are taken, which are then cured in the sun and by the use of artificial heat and smoke. With the net only enough fish can be secured to supply the needs of the Indians from day to day or a little more. I need scarcely ex-plain to you that the salmon means everything to the Babines. It means more to them than bread and meal do to us. Dried salmon is the staple of Indian. life in the country, as it is the real stape of white life also in that country at the present time. In the letter which I received from the chiefs it was stated that officers of the government had ap-peared in the country stating to the Sabines that they must discontinue at once the use of the weir in fishing. When

I received this communication, I paid no attention to it, being persuaded that the people were unnecessarily alarmed. Some time later I received a second let-Some time later I received a second letter from the chiefs, repeating the statements contained in the former. Again I passed the matter by. Finally I noticed the item in the Winnipeg Free Press, stating that there was open conflict between the officers of the law and the Babines and that a request had been made for the services of 100 men, to compel the Indians to obey the law. I wrote then to a good friend of mine in British Columbia, and I found that the statements of the Indians were only too

government has no treaty with these people. What right can the govern-ment have to interfere with the rights which the driginal inhabitants of the country have enjoyed from the begin-ning of time? If the Canadian people desire to interfere in the domestic affairs of the Babines, let them approach them through representatives in the regular way and make the treaty with them. "It would be exceedingly costly to send an armed force to the Babine and Carrier Indians, and what is more imortant, the Indians are in the right in the matter. It is a matter of life and leath to them, and if the government wishes them to do otherwise, it must nake some arrangement with them."
"Can anything be grown up in that ountry?" was asked the missionary.

Yes. Much can be grown. We can grow very fine potatoes, and excellent vegetables of all sorts. The government of the province is now endeavoring to direct immigration into the Bulckley valley, a large and fertile district in our part of the province. The mountain scenery of the district is indescribably part of the beautiful. The Indians are natural mountain climbers, moving about the towering rocks with all the agility of the mountain goats. I made many ascents of the highest points under the guidance of the Indians who drew me up with a rope at points where I could not make the ascent unaided. I also made many very long journeys in the country in the st of science, doing work especially in ethnology, anthropology and in geography. I have now in course, of preparation an entirely new map of the ountry on the scale of eight miles to the This map is being brought out in . C., and will contain much information which is entirely new."

FROST IN FERNIE

(Special to The Daily News) ie, Sept. 12-This district has been visited by heavy frosts for the last two nights, and as a result the gardens have suffered extensively, but the hardler plants being left standing.

# **GOVERNOR'S**

Earl Grey Wrote Note of Appreciation to the Mayor

Party Will Reach Vancouver Tomorrow Evening-All Were "Sorry to Leave Nelson"

Their excellencies, the governor genral and lady Grey, and the rest of the vice regal party, left the city on Sunday night at 8.30; the regular evening coast train being held here an hour as the up river steamer was late. At Robson the party boarded the steamer Rossland and started off for Revelstoke They are due to arrive in Vancouver tomorrow evening. Superintendent J. S. Lawrence accompanied the party to Robson. The special train taking the party across the continent, which has been lying here since Wednesday last, was sent to Arrowhead via Slocan lake early Sunday morning and on this train the party will journey to the coast.

Quite a crowd assembled at the sta-tion on Sunday night and just before the train pulled out earl and lady Grey came out on the rear platform. "I am sorry to leave Nelson," said his excellency, ad-

dressing the crowd generally. "We have enjoyed our stay here immensely, and will be glad to come again."

Then R. R. Hedley proposed three cheers and these were heartily given by the crowd as the train moved out. Lady

the crowd as the train moved out. Lady Grey stood by her husband's side till the train was well away.

The earl bowed repeatedly to the crowd and his wife waved her farewell with a bunch of Nelson's best flowers, presented to her before leaving by aldermen Selous.

On Sunday lady Grey attended, the morning service at St. Saviour's church

on Sunday lady Grey attended, and morning service at St. Saviour's church and afterwards called on the mayor and Mrs. Gillett, His worship and Mrs. Gillett dined with earl and lady Grey at The governor general carried away with him a very handsome mountain goat rug presented to him by Nelson's first citizen. In addition to a formal acknowledgment with thanks, for the gift sent to him through captain Trotter, A.D.C., the mayor received a kindly worded letter from the governor general personally.

eral personally.

Before leaving his excellency sent his worship the following letter:
Strathcona Hotel,
Nelson, Sept. 9, 1906.

Dear Mr. Mayor: I can not leave the beautiful view in front of my balcony without writing one line to convey to you, and to your city, my very sinceme thanks, and those of lady Grey and of every member of my party, for the most kind hospitality with which you, in the

name of the city, have so generously welcomed us.

Although I have been greatly disappointed at being prevented, by an un-fortunate attack of influenza, from visit-ing the several points of interest in your neighborhood which I was most anxious to see, I have yet seen and heard enough, both of your district, and your people, to be satisfied that I am abundantly justified in entertaining the rosiest hopes for your future. That these hopes may be fully realized is the sincere wish

of yours truly, GREY.
In his letter acknowledging the mayor and Mrs. Gillett's gift earl Grey wrote:
"Lady Grey and I are both delighted "The great injustice of the situation consists of the fact that the Canadian government has no treaty with these people. What right can the situation of our very happy visit."

His excellency overlooked no one at the hotel Strathoons and in saying good bye to Mr. Tomkins complimented him on the excellent accommodation of the house, and presented him with a gold pin, the head of which was made up of his excellency's monogram "G.G.,"

SLOCAN NOTES

(Special to The Daily News)
Slocan, Sept. 12 — Paul Hauck has 18 inches of good ore at his claim, the Hamilton fraction, adjoining the Ottawa. He has taken out 40 sacks of ore which assays

owners to apply for a crown grant on the group of claims, of which the Happy Me-Martin Lavall, wife and daughter left on Monday for Spokane where they will

dium on 12-Mile, of the intention of the

in future reside. A farewell ball was given on Friday evening to the Lavall family and Miss McMillan. Mr. and Mrs. Alex Rogers left this week

for the east where they will visit relatives in Ontario and Quebec. Several business changes have taken place in Slocan this week, John Pinchbeck taking over the Lavall hotel and Pinch-beck's stock of confectionary and cigars

tionery store. MINING DEALS

Two Salmo Properties Bonded Yesterday at Good Figures

Yesterday two local mining deals were closed. G. W. Bell, R. B. Bell and M. C. Donaldson have obtained a lease and sond Donaldson have obtained a lease and sond on the Kootenay Belle property near Salmo and Charles Olmsted of New York, has bonded an adjoining property, the Columbian mines, comprising three claims, from Devilin, Pool and Amas. No figures were given out in the first deal, but in the for \$30,000.
