ment to the Associated Press:
"Secretary Cortelyou announced today that beginning with next week the treasury department would make each week for a period of not less than five eeks, deposits in national banks at ew York. Boston and other points, the security required to be approved state, municipal and railway bonds acceptable under the existing require-ments of the department with the understanding that if called for, such desits shall be returned after January first, installments to be fixed by the secretary of the treasury. This action s taken to meet the commercial and industrial needs of the country at this season and is believed to be preferrable waiting until a time of acute stringency when the only alternative would be a large general deposit. The latter policy the secretary desires to suprecere one that shall have as its ultimate object the adjustment of the operations the treasury department as rapidly as may be practicable under existing aw in such manner as shall preclude their being in any sense a disturbing or in the business of the world."

The plan is one that the secretary pes will find general favor in the ficial and business world. The secreary has kept close watch on the world's money markets and he decided to take action at once to preclude, so far as he was able under the law, the possibility of a panic this fall when it is drawing upon the east for funds. Secretary Cortelyou's plan is all his own and consulted no one regarding it. Inigation of the results attained under the old plan of waiting until the last moment and then placing a large amount of government funds in New York, disclosed to secretary Cortelyou that the placing of a large amount of while it helped, was generally ill-timed and either came too soon or too late. Under the new plan he will funds in amounts large enough he may use all customs funds who permitted under the Aldrich act, and if these funds are not sufficient he will augment them from the available treas-ary balance which increases each week er the usual July deficit. Secretary Cortelyou in placing the governm funds throughout the country will depend much upon the bureau of information to learn where stringencies are being felt most. In this way the funds of the government will be deposited where they will effect the greatest good. Secretary Cortelyou believes that by not stating in advance the amounts to be deposited, he will prevent speculators from taking advantage of the situation to jobtain noney which he believes should go into other channels. The secretary believes that the new plan will do much to prevent a movement of gold to Europe. In previous years the sudoutpour of money from the national treasury when the crop moving stringency was absorbing all the available tunds, produced a sharp relief and made ds, produced a sharp relief and made a good export movement possible by the violence of the reaction. The present financial situation has occupied seretary Cortlevou's at time and he is doing what he can in law to bring monetary relief. Notwith-standing a heavy demand for the \$20,-000,000 bonds which are still unissued, the secretary declines to place them on sale at this time, as the government does not need the money and their pur-chase by the banks and public would tie up additional millions at a time when money is most needed elsewhere.

## TOLMIE TO INVESTIGATE

Deputy Minister of Mines to Look into Coke Shortage Problem
The action of the board of trade on Thursday night in passing a resolution asking for investigation into the con-ditions of the export of coke by the Crow's Nest Pass Coal company to the United States and the telegraphing of the same to the premier of the pro-gince had immediate effect. Yesterday telegram was received by the secre-Richard McBride to the following effect: 'Messags received. Deputy minister for Kootenay tonight. He will advise you of his movements." Mr. Tolmie should arrive here on Sunday evening and the matter can then

be taken up.

A glance at the customs returns for the current year as filed in the customs

ber policy of the government snould be noted for severest condemnation, namely that which allows foreign milioffice, showed that during the year, up o August 15, no less than 27,594 tons in the province and export the logs cut of coke had been exported to the United on these limits to feed their own mi States by the Crow's Nest Past Coal That is what is being done now in this company. None of this coke was for redimport into Canada but was used on the other side of the line. The quantity the mills across the boundary line. Wh sufficient to have kept the Granby in full blast for a couple of months. In January last there were sent away 5413 tons; February. 2892; March. 5352; April 2756; May, 1953; June, 6676 July 1672, and up to August 15. 850 tons.

HARVESTING IN FAR NORTH Edujonton, Aug. 23—Harvesting in to the desirability of checking the flood of Jap immigration now pouring into the province. Still I am not sure but the province. Cornwall, a former fur trader of Lesser that the unrestricted influx of any low Slave lake, who returned from the north | class foreign laborers is about as much yesterday. The crop in the far north is because and in fine condition, and further advanced than those south.

Ottawa, Aug. 21.-Canada's foreign trade totalled \$214.156.015 for the first four months of the current fiscal year, beginning April 1st. This is an increase of \$22,099,004 over the corresponding period of last year. During the four nonths the imports totalled \$131,803,070, an increase of \$25,010,424. Imports of dutiable goods totalled \$77,766,121, an of the Cascades was because the class of logs that could be exported were not increase of \$15,470,146. Free imports totalled \$51,730,825, an increase of \$9,703,769. The duty collected amounted

o \$20,398,734, an increase of \$4,214,436. There was a decrease of \$1,948,653 in the volume of exports which totalled \$82,352,945. However, exports are now showing a tremendous increase and it is known in the following official statethe year will more than make up for the falling off in the first few months.

During the four months the exports four months the exports of products of mines showed an increase of \$743,832. Agricultural products showed an increase of \$3,847,874. The decreases in exports for the period were fish, \$546,160, lumber, \$590,208, animals and their products, \$5,222,573, manufac-tures, \$342,148.

During themonth of July the volume

of exports took a remarkable jump of \$11,174,051, totalling for the month \$27,-723,598. Exports of products of the mines show for the month an increase of three and a half millions, products of the fisheries an increase for the month of almost five millions, animals and their products a decrease of a million, and a quarter million, and manufac tures an increase of almost three-quarters of a million.

RAILWAY LAND GRANTS. The Government Forestry Policy-Ian-

anese Immigration. Editor The Daily News: In view of your recent editorial on the charges in-troduced in the terms of sale of the C. P. R. land grants, (which are certainly without any justification) would you permit me to suggest that the true rem edy would be the cancellation of all these grants and their resumption by tration and sale are concerned. I have had this matter before the provincial electors for nearly ten years, in the following words:

"The resumption by the province of all grants to rallway companies and their sale to actual settlers under the general laws relating to crown lands; the proceeds of such sales, less costs of administration, to be handed over to the

beneficiary companies."

This can be justified, in the case of C. P. R. lands. on the ground that their regulations have been framed without regard to public interests—the obvious reason for the making of these grants being not the aggrandizement of the rail-way company, but the promotion of the higher interests of the province, by the increase of its population, with all that that implies.

Our provincial treasurer has been

Rossids Urges Governme Interference

ATTACK GREAT, NORTHER

CLAIMED THAT COKE OVENS CROW'S NEST DO NOT SUFF TO SUPPLY MORE THAN CA ADIAN SMELTERS AND NORT

dand, Sept. 3-The action of the p incial government on the report of . Tolmie, deputy minister of mines, w is investigating the coke shortage, will a termine whether the exportation of co is to be continued for the benefit of t fontana smelters and the financial prof the Great Northern, or whether Ca adian smelters and especially the smelt at Trail and the mines of Rossland sup plying it and other smelters with ore, o cease operations. The capacity of tracious coke ovens of the Crow's New roal fields is 1400 tons per day. The sm coal fields is 1400 tons per day. The sm ters of southern British Columbia requi about 1200 tons per day, leaving 200 to for Northport. If the several Canadismelters were supplied with their quo of coke instead of shipping it to the Mo tana smelters, there would be no occasi-for complaint. As it is, however, smelte e operated at times only a portion r plants and at others were closed e irely for nearly a year. Even at this wr the operation of the Trail smelter uncertainty and it is stated that unle plant at Trail must temporarily close. I will of necessity compel the cessation operation on the Centre Star and its all nines, throwing several hundred men ossland out of employment, to say noth a large number of smelter emp

Briefly stated, the facts are these; in coke produced by the Crow's Nest Pa Coal company is controlled by the Gre Northern and alided interests. In furnis-ing Canadian smelters the only profit co-ists in the ease of coke. In supplying to the coke in supplying to only in the sale of the coke, but in the country which results from the covered susiness which results from the operation of Montana mines and smelters. For tance, there is shipped from Butte to tamelters at Great Falls 5000 tons of on which the Great Northern g s 170 tons of copper, on which the Gra Northern also gets the benefit of the he o the east. From this it is readily appe int that the Great Northern makes fare rofits by delivering the coke to Monta melters than it does to Canadian smelte the Crow's Nest Pass Coal company e other collieries in the Crow's Nest ion would supply Canadian smelt what they need, and let Monta elters secure their coke supply from ited States, there would still be 200 t aily for Northport, even at the pres ate of production of coke, which wo

ion of coke is the fact that the Cr the United States, rather than to manufature it into coke. Aiready large quantities Fernie coal are stored along the line the Great Northern railway at points acr the line, for consumption during the oring winter. The fact that the payroll remie is nearly twice that of Michel ites that the men at Fernie are l sed to get out the mine run of coal pment to the United States ins cturing it into coke and simply the reason that the company finds it in profitable to do this. These evils in the remedied or Canadian mines and sn ters must cease operations and hund of Canadian workmen be thrown ou

Under the circumstances there seem province and this is to probable the province and this is to prohibit apportation of coke until the Cana exportation of coke until the Canad smelters are supplied. Notwithstand what may be said to the contrary, smeloants which have cost millions of lars do not close down or run only a tion of their furnaces for small cau. The smelters of southern British Columbave been short of coke for nearly a sand have not run nearly to the mile. and have not run nearly to the imit their capacity. There is plenty of or keep them going. In order to keep t in full operation they must have all coke that they can consume, and this only be secured by insisting that the Cr. Nest Pass Coal company keep their as ent with the provincial government cootenay. The remedy for the evil power, all it has to do is to exert ower and put an end to the great me hat is retarding and injuring the mi nd smelting industries of the pro-
