Your years at Medical School are the hardest. So how about some help along the way?

Pre-med was tough. But med school will be tougher. So how about making things easier on yourself. How about going through the final years on the Medical Officer Training Plan (MOTP).

MOTP will help to pay your medical school expenses so you can concentrate on becoming a doctor. Instead of worrying about money problems.

MOTP will solve your summer employment by putting you to work developing military and medical skills in the Canadian Armed Forces.

When you graduate as a doctor of medicine, you're promoted to Captain. You're all set to practise your profession. At a salary equal to your professional status.
