

"places,-

- "(a) Commencing at a point on Big Creek
"tentatively designated "Y" on Water
"Rights Map No. 4572 and extending for
"a distance of approximately 4500 feet
"along the ditch to the point of natural
"drainage into Kenton Creek.**
- "(b) From a point on Kenton Creek officially
"designated "A" on Water Rights Map
"No. 4572 and extending for a distance of
"approximately four and a quarter miles
"along said ditch across the said Reserve
"to the Chilco Ranch."**

**Recommendations of Engineers Warren and Murray
provided for the following:-**

**"1. (a) That the artificial control at Big
"creek be strengthened for the present season,
"the wing dam be removed and a boom substituted
"at a cost of approximately \$60.00.**

**"(b) That a permanent control and intake
"as designed be constructed, if feasible in 1927,
"approximate cost \$1,300.00**

**"2. That Kenton creek be enlarged to pass
"maximum requirements and permanent gates of
"adequate size be installed at a cost of \$1,750.00
"in preference to the development of storage below
"Hutch meadows.**

**"3. That Kenton creek below Hutch meadows be
"cleaned out at various points at a cost of \$200.00.**

**"4. That cut-off ditch to Abrams lake be en-
"larged at a cost of \$150.00.**

**"5. Repairs to Fletcher Lake Dam at a cost of
"\$195.00.**

**" The total cost of all works suggested,
"exclusive of Fosberry's claim, is \$3655.00."**

**After reviewing this report this Department was
quite agreeable to paying its proportion of cost of having
the works undertaken and to pay its proportion of cost in
connection with any of the items which could properly be
considered as coming within the agreement of 1923, but it**

was
