

V

Lycopod foliage.....	26
Lycopodiales.....	25
<i>Lycopodium Matthewi</i>	25, 110
<i>Lyginodendron</i> , fructification of.....	77

M

McGill University collection, examination of.....	12
<i>Mariopteris</i> , absence of.....	124
<i>Medullosa</i>	47
" fructification of.....	77
<i>Megalopteris</i>	53
" a characteristic Carboniferous genus.....	6
" from base of Ohio Coal Measures.....	54
" <i>Dawsoni</i>	53, 111, 114, 118, 120, 155
" superficial similarity to <i>Glossopteris augustifolia</i> ...	55
" <i>plumosa</i>	55, 120
Missing types found in British Museum.....	13

N

<i>Nephropteris problematica</i>	72, 111
<i>varia</i>	66, 111
<i>Neurodopteris impar</i>	67
<i>Neuropteris</i>	58, 97
" remarks by Dawson on.....	5
" a characteristic Carboniferous genus.....	6
" <i>crassa</i>	62, 111
" <i>eriana</i>	61, 62, 111, 115, 157
" <i>flexuosa</i>	63
" <i>gigantea</i>	62, 111, 114, 158
" <i>heterophylla</i>	58, 59, 62, 111, 114, 118, 156, 157, 163
" <i>hirsuta</i>	60
" <i>obliqua</i>	67
" <i>Pocahontas</i>	120
" <i>polymorpha</i>	58, 62, 71, 111, 158
" <i>retorquata</i>	62, 111, 120, 158
" <i>Schlehani</i>	64, 65, 115, 122, 157
" <i>Selwyni</i>	64, 65, 78, 111, 115, 157
" <i>serrulata</i>	44, 45, 111
" <i>sp.</i>	66, 111, 157
" pinnules included in <i>Cyclopteris</i>	71
<i>Noeggerathia Bockschiana</i>	56
Number of species, reduction in.....	113

O

<i>Odopteris</i> , a characteristic Carboniferous genus.....	6
" <i>squamiger</i>	102, 111
" <i>squamosa</i>	102, 111
" pinnules of included in <i>Cyclopteris</i>	71
<i>Oligocarpia</i>	39
" <i>Brongniarti</i>	114, 152
" <i>splendens</i>	40, 110, 114, 152
