

great interest is manifested, questions are asked, the Bible is studied, verses are committed to memory and Roman Catholics are asking for enlightenment. Each year about twenty-five of them publicly confess the Lord Jesus Christ as their Saviour and become members of the Church. The others go back to their homes with new ideas, bringing to their friends and parents the glorious message of truth. Altogether nearly three hundred young people go back to all parts of the Province every spring with the Gospel message.

The other lessons taught in our institution are the same as are taught in the public and high schools of the Province of Quebec. We use the same books as those prescribed by the Protestant Board of Education and we prepare our pupils to enter universities and colleges.

Our aim is to teach them as much English as possible so that when they reach the highest class, which is the matriculation one, they will be able to follow the course which is entirely given in English. Besides these subjects, we have elementary domestic science and sewing for the girls, musical band training, printing, and agricultural classes for the boys.
