

The eastern branch of the Sixteen Mile Creek, has its source near the centre of the Township; it flows South-west through the Scotch Block to lot 9, in the second concession; thence South-east to lot 1, in the sixth concession, where it enters Trafalgar. The sixteen Mile Creek enters Esquesing at lot 3, in the first concession, and runs South-east to lot 1, in the second concession, where it passes into Trafalgar. The rest of the streams in this Township are so small that I think it unnecessary to describe them.
