

### *ADVERTISEMENT TO SECOND EDITION.*

---

A second edition of this book having been called for within a few months of its first appearance, the present edition has been issued at a considerably reduced price, so as to bring it within the reach of those who may contemplate emigrating, or be desirous of learning the feelings and experiences of an Englishman on first visiting British North America.

And this step has been the more readily taken because both the Canadian and the English Press have borne most generous testimony to the independent spirit in which the Letters were written, and to the value of the information they contain.

The following extracts are taken from notices by the Canadian Press :—

"We doubt if we have ever met a writer who gave a more straightforward account of what he had seen in Canada than Mr. Morris has done."—*DAILY GLOBE*, Toronto.

"The book contains a great deal of information, and has been written with care, and will not fail to interest the reader."—*THE SUN*, Toronto.

"We thank Mr. Morris for having placed before his readers in England so much valuable information about Canada, as it cannot fail to assist in making this country better understood by our fellow subjects at home."—*THE MAIL*, Toronto.
