

McCORMICK'S

The Snow White Sunshine Biscuit and Candy Factory.
Just About Completed.

LARGEST, MOST MODERN and MOST SANITARY
FACTORY OF ITS KIND IN AMERICA.

Finished on the inside with white enamel and tile, on the outside with white enamel terra-cotta. Materials used—1,000 cars gravel, 100,000 bags cement, 800 tons steel, 40 tons terra-cotta, 1,500,000 bricks, 150,000 feet maple flooring, 200,000 feet composition and cement flooring. Eight acres of floor space.

The building is absolutely fire-proof, being of reinforced concrete construction. Boiler house, engine room and bakeshop all separate buildings. No dust or smoke penetrate the main building.

The Home of JERSEY CREAM SODAS and hundreds of varieties of HIGH CLASS FANCY SWEET BISCUITS AND CANDY. By far the most sanitary and modern plant ever constructed.

Every accommodation for the employees, such as sunshine dining-rooms, where meals are served at cost, rest rooms reading-rooms, Red Cross department, gymnasium, smoking-rooms, dressing and locker-rooms, lawn tennis courts base ball diamond—in fact, everything for the accommodation and convenience of the employee.
