LONDON.—The western
Dominion of Canada, is be-
on the River Thames, coun-
is the chief seat of the coun-
boasts a more rapid and p-
than any city in British No-
ty years ago its present s-
ness; now it is a fine city,
having wide streets, well
handsome buildings, and h-
way communication with a-
and the United States. By
streets, bridges and surro-
names to former residents of
the world—such as, among
Bond, Piccadilly, Oxford
Clarence streets, Westmin-
frars' bridges, &c.—it end-
round it fond recollections
sake. Its situation has jus-
the title of the "Forest city,"
by a rich agricultural dis-
nishes it with a large trac-
other produce. In the city
manufactories, mills, machin-
and breweries, while inned
limits are very extensive pet-
These all give employment
of men, and add greatly to
importance of the city. Ric-
da- are the principle busines-
of the buildings on these, as
throughout the city, give e-
architectural design and be-
tation and finish. On Richm-
