**THE
NEW DE LAVAL
CREAM SEPARATOR**

**Every Reflection
Shows Perfection**

VIEWED from every angle, the De Laval is distinctly in a class by itself. It has a business-like appearance. It looks as if it were well made, and it is. It looks sturdy, and it is. There is no make-believe about it anywhere, from the wide-spreading substantial base to the solid, seamless, symmetrical supply can.

It's no wonder that big dairymen and creamerymen who have for years made a careful study of dairy methods and machinery refuse to consider any other separator but the De Laval. They know that from every angle—clean skimming, ease of operation, freedom from repairs, durability—there is no other cream separator that can compare with the De Laval.

They know that it has a record of 40 years of service behind it. They know that it can be depended upon. They know that they can't afford to take chances with any other cream separator—

And neither can you.

Order your De Laval now and let it begin saving cream for you right away. Remember that a De Laval may be bought for cash or on such liberal terms as to save its own cost. See the local De Laval agent, or if you don't know him, write to the nearest De Laval office as below.

Advice From the Food Controller

Re Maple Sugar: Office of the Food Controller, Ottawa, February 8, 1918
Dear Sir,—I would respectfully suggest that in your advertising maple sugar and syrup producers you emphasize the opportunity for Canadian maple products, and call attention to the cane and beet sugar shortage. You have authority for using any influence with the approval of this office for the campaign for increased maple syrup production, so our advice to each maple grove owner is—

Tap More Trees — Tap Every Tree You Can

Maple sugar is more than ever a food, a national necessity. Make preparations now to save this valuable crop, and double or treble the production. Every pound of sugar, every gallon of syrup helps food conservation.

THE CHAMPION

With a GRIMM CHAMPION OUT-FIT you can make more syrup with less help, and in less time, and at less cost than any other way.
Put your maple bush in working order, and get in touch with us on the question of outfit.
