

Bog Spavin

Cure the lameness and remove the bunch without scarring the horse—have the part looking just as it did before the blemish came.

Fleming's Spavin Cure (Liquid) is a special remedy for soft and semi-solid blemishes—Bog Spavin, Thoroughpin, Splint, Curb, Capped Hock, etc. It is neither a liniment nor a simple blister, but a remedy unlike any other—doesn't irritate and can't be imitated. Easy to use, only a little required, and your money back if it ever fails.

Fleming's Vest-Pocket Veterinary Adviser describes and illustrates all kinds of blemishes and gives you the information you ought to have before ordering or buying any kind of a remedy. Mailed free if you write.

QUESTIONS AND ANSWERS. Miscellaneous.

BOOK ON STRAWBERRY CULTURE.

Would you please let me know where I can procure a book on growing strawberries? Would also like to know if there is any paper published that deals with the same subject.

D. S.

Ans.—The Orange-Judd Company published a book on Small-fruit Culture, by A. S. Fuller, which would probably contain the information desired. Price, \$1.05, postpaid. Can be ordered through this office. There are no papers published that we know of dealing exclusively with strawberry culture.

Veterinary.

ENLARGED LEG.

Mare sprained her leg four months ago. I blistered the leg and used Absorbine and the lameness has disappeared, but there is still a slight enlargement.

J. H. S.

Ans.—Get a Liniment made of 4 drams each of iodine and iodide of potassium, and 4 ounces each of alcohol and glycerine. Rub a little of this well into the enlargement once daily. Swellings of this nature are hard and tedious to reduce.

V.

SUPPURATIVE MAMMITIS.

Six-year-old Clydesdale mare had one foal. Last week her mammary swelled as large as the udder of a cow. I bathed it and applied camphorated oil. It broke, and is discharging large quantities of pus and tissue. What caused the trouble, and how should it be treated?

D. A.

Ans.—I assume that the mare is now neither nursing a foal nor pregnant. Mammitis in non-pregnant mares is not unknown. It occasionally follows oestrus. In some cases the abscesses of strangles or distemper form in the mammary, and in some cases it is not possible to give the cause. Flush the cavity of the abscess out well three times daily with a 5-per-cent solution of carbolic acid. If any fresh abscesses form, lance them and treat as above. Give her, three times daily, 40 drops carbolic acid in a pint of cold water as a drench.

V.

GOSSIP.

THE VEGETATION OF UGANDA.

"For a whole day we crept through the skirts of the Holma forest, amid an exuberance of vegetation which is scarcely describable. I had travelled through tropical forests in Cuba and in India, and had often before admired their entertaining yet sinister luxuriance. But the forests of Uganda for magnificence, for variety of form and color, for profusion of brilliant life—plant, bird, insect, reptile, beast—for the vast scale and awful fecundity of natural processes that are beheld at work, eclipsed and, indeed, effaced all previous impressions. One becomes, not without a secret sense of aversion, the spectator of an intense convulsion of life and death. Reproduction and decay are locked, struggling in minute embrace. In this glittering Equatorial slum, huge trees jostle one another for room to live; slender growths stretch upwards as it seems, in agony—towards sunlight and life. The soil bursts with irrepressible vegetation. Every victor trampling on this rotting mould of exterminated antagonists soars aloft only to encounter another host of aerial rivals, to be burdened with masses of parasitic foliage, smothered in the glorious blossoms of creepers laced and bound and interwoven with interminable tangles of vines and trailers. Birds are as bright as beautiful, butterflies are as big as birds. The air hums with living creatures, the earth crawls beneath your feet. The telegraph wire runs northward to Gondokoro through the vegetable labyrinth. Even its poles had burst in bud."—Rt. Hon. Winston S. Churchill, in "My African Journey."

275 BURLINGTON SHORTHORNS 275
