

### Heart Trouble Cured.

Through one cause or another a large majority of the people are troubled with some form of heart trouble.

The system becomes run down, the heart palpitates. You have weak and dizzy spells, a smothering feeling, cold clammy hands and feet, shortness of breath, sensation of pins and needles, rush of blood to the head, etc.

Wherever there are sickly people with weak hearts Milburn's Heart and Nerve Pills will be found an effectual medicine.

Mrs. Wm. Elliott, Angus, Ont., writes:—"It is with the greatest of pleasure I write you stating the benefit I have received by using Milburn's Heart and Nerve Pills. I suffered greatly from heart trouble, weakness and smothering spells. I used a great deal of doctor's medicines but received no benefit. A friend advised me to buy a box of your pills, which I did, and soon found great relief. I highly recommend these pills to anyone suffering from heart trouble."

Price 50 cents per box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

### VANCO Lime Sulphur Solution

carries more active sulphur in solution than other brands, and is the most effective spring spray for San José Scale, Aphid, Bud Moth, Apple Scab, Leaf Spot, Pear Scab and similar parasites and fungi.

VANCO is a clean, uniform solution, free from sediment. One barrel makes 12 for spring or 50 for summer spray.

\$3.00 per bbl. f.o.b. Toronto.

### VANCO Lead Arsenate

is rapidly replacing Paris Green for Codling Moth, Potato Bugs and all leaf-eating insects. Easier to spray, stays on longer, and kills more.

VANCO Lead Arsenate contains 15% to 16% Arsenic Oxide and 40% moisture average.

10 to 13c. per lb., according to quantity. Write for our free Booklet on Spraying.

### CHEMICAL LABORATORIES LIMITED

148-158 Van Horne Street, Toronto, Canada.

Richard le Gallienne, the noted poet, was entertaining a group of magazine editors at luncheon in New York. To a compliment upon his fame, Mr. le Gallienne said lightly:

"But what is poetical fame in this age of prose? Only yesterday a schoolboy came and asked me for my autograph. I assented willingly. And to-day, at breakfast time, the boy again presented himself.

"Will you give me your autograph, sir?" he said.

"But," said I, "I gave you my autograph yesterday."

"I swapped that and a dollar," he answered, for the autograph of Jim Jeffries."

### QUESTIONS AND ANSWERS. Miscellaneous.

#### PAYING OVERDUE MORTGAGE.

Mortgage drawn for five years has run ten years, interest paid. If mortgagor wants to pay mortgage, is he legally bound to give notice, and if so, how long?

Ontario.

Ans.—No, unless there has been an express agreement between the parties that notice should be given.

#### FARM AND MAIL BOX.

A advertised his farm for sale and mentioned rural free mail delivery in the advertisement. B bought the farm from A, and, after settlement, A wants extra pay for the mail box, which is installed on the highway at end of lane. As it is on the highway, A claims it does not belong to the farm. A also claims rural free mail delivery consists only in delivery without a mail box.

1. Would A have rural free mail delivery without a mail box?

2. What would be the difference in regard to the mail box belonging to the farm, whether erected on the highway or inside of fence?

3. Has A a legal right to sell the mail box under these circumstances?

Ontario.

Ans.—1, 2 and 3. We think that, having regard to the circumstances generally, and especially the fact of the advertisement which, we presume, led to B's purchasing, A was wrong in demanding additional money for the mail box, and ought not to insist upon such extra payment. We do not think that he could legally enforce same.

#### OYSTER-SHELL SCALE.

I read the article on the oyster-shell scale, by L. Caesar, February 24th, in "The Farmer's Advocate." Our apple trees are nearly all affected with this pest. I did not know such existed until last fall, when one of the men who packed my apples drew my attention to the same. It seems to be confined more to the lower branches, and the bark gets loose and peels off. The man who drew my attention to it, advised me to take a hoe some day in the early part of summer, after the leaves were all out after a heavy rainstorm, while the trees were damp, and scrape all this loose bark I could off. Then take a weak lye, made the following way: 1 quart hardwood ashes, put in a pail and fill up with hot water; when this was cold I was to take a whitewash brush and go over the trunk and lower limbs of the tree, just as if I were whitewashing the tree. I would like to know if this would harm the trees, also if I could use instead of the above preparation, the lime and sulphur Mr. Caesar speaks of in "The Farmer's Advocate" of February 24th. I could not spray my trees, but I could use the whitewash and sulphur with the whitewash brush, as the man told me to use the lye.

Ans.—In reply to the inquiry as to whether one could kill the oyster-shell scale by scraping off the bark with a hoe in the early part of the summer after the leaves were out while the trunk was still moist after a heavy rainstorm, I may say that this scraping would be of considerable value, and that if he were to put on the potash lye in the way he suggested, especially if it were put on about the middle of June, he would undoubtedly kill the scale wherever he touched them, and would not injure the trees. A good thick whitewash, made simply of fresh lime and water, and applied with an old broom, or a brush, would be just as cheap, and rather more satisfactory. The reason that it acts well shortly after the first of June is that the eggs hatch out about this time, and the young are very easily killed by almost any caustic substance, such as the lye or the whitewash. He can tell when the young hatch out by simply observing when the little, tiny creamy-white insects are crawling around. They hatch during a period of about five days and then settle down, and the lime would act on them any time for a couple of weeks after they hatched. The lime-sulphur could be put on in the same way, but the whitewash, in this case, seeing that he has no spray machine, would be simpler to make up and would give first-rate results.

L. CAESAR.

## Shear Your Sheep this Way

and get at least 20 cents worth more wool from each one. Take the fleece off in one unbroken blanket and do not cut or injure your sheep as with the old hand shears. Do away, too, with tired, swollen wrists. You can do all of these things and do them easy by using this
