MOTT'S BROMA. The following observations having intenumber of the Boston Medical Journal:—

A Lew, years since a great manufacturer of Broma songlit the opinions of many inedical gentlemen of distinction, for the purpose of kaving an motojectional by an additional statement of the lower provided with it. When grach, arrowers, greats, or deep, starch rice, farina, and many or times a solution of the patients are of no utility, the front is an abstract of the great that the had fully successful use it as a beverage will have manifest district advantage over the consumers of tea and coffee. We see it gated that during the last summer those individuals who were continually using Concolate or Broma petitier had a tasks witchness or dysenterio affections, while other particular of the set are front Cholera or the choleroid symptoms. All it has been farther observed that persons who cannot could here from Cholera or the choleroid symptoms. All it has been farther observed that persons who were the sufficient place of the last summer those individuals who have been free fron Cholera or the choleroid symptoms. All it has been farther observed that persons who were been free fron Cholera or the choleroid symptoms. All it has been farther observed that persons who were the sufficient by the secure of the late epidemic, were not affected by cite in the last taken internally, would appear, by these states saits, to have secured those who took them from the shalts of the pestilence. It is certainly a point well worth smileto determine, whether the choolate drinkers have been secured in other intected cities."

Cared.

This is to certify, that I have been afflicted with the Ecysipelas, or the Salt Rheam, as the Dictors call it, for ten years. My hinds were frequently so diseased, that I could make no use of them. I employed several push-cians, but to no purpose as my suffering only increased.—I applied Mrs. BERTAUX'S MEDICINE for a short time and was soon cured of every vestige of the disease. The thanholiness which I felt, on the long and painful disease being removed, was much more than tongue on express. After three years from the time when I used the Medicine, I was threatened with a relapse or return of the disease. was threatened with a relapse or return of the disease. I applied the Medicine and the disease disappeared. From that time to the present, I am perfectly free from all symptoms of Erystpelas or satt Rheum. I therefore heartify recommend it to all who are similarly afflicted, as a speedy and effectual remedy.

ANN S. WHEELOCK, Nictora.

This is to certify that m? wife wes attached with Beysipelas in the face. I applied Mrs. BERTAUR's Medicina
and the first application stopped its progress; and, continuing to mee the medicine, in less than a week my, wite was
quite well.

ELLAS GRIMES, Wilmos. May 1st., 1848.

Wilmot, May 15, 1050. This is to certify that my son was exercit afficted with the Brysipelus in his leg last summer, so badly that he scarcely slept for five successive nights. I then procured some of Mrs. Braryaux's Mentrus, and applied it, and in the course of one week, the boy was well; and I verify he' leve if I had not used the above Medicine, that he would have lost his life.

THOMAS C. WHEBLOCK, ESQ. May 16, 1850.

Annapolis, January 3rd, 1951. This is to certify that my daughter about a year ago had a very severe attack of Erysipelas in her head and ince, so much so that there was left no hope of lite. Medical aid was called, but the word was, that all was over as the dreadth diseane had oversprend the brain, and she was raving distracted. In this extremity I had accidently neared of Mrs. Bernaux a Medicals. I, went and got a simply hial, and proceeded to apply it as directed; and almost instantaneously the disease was arrested from further progress, and, in a lew days, the swelling was gone, and her a proceeding in closur returned, and she is now alive and well.
