No Reciprocity About it.

The Ogdensburg Republican is ready enough to clip items from the Report ER, but up to the present has evinced no willingness to "exchange" in return for the paper we send regularly to thein. There is evidently a streak of boorishness running through our contemporary, which may perhaps be eliminated after it has clipped enough from us to have imbibed a small MUNICIPALITY OF THE TOWNamount of editorial courtesy.

Lithograph Posters. We beg to call the attention of our conferes of the press, to the fact that NOTICE is hereby given that I have Cincinnati, Oliio, and can supply one, required by said sections to be so trans

It is with regret that we learn that office at Farmersville, in said municipality on the 3rd day of August, 1886, and W. R ley, one of the foremen on the remains there for inspectio one of his employees getting his shoulder dislocated at the same time. While leading heavy stones in one of mediate proceedings to have the said erthe earts, the front fastenings unlock- rors corrected according to law. ed and tipped over, thus throwing out the stones which fell on the two men, Mr. Riley is able to get around again, and the other fellow is rapidly recover

Camp Meeting.

A very interesting and profitable four day's meeting was held on the St. Lawrence Central camp ground last week. The Rev. Go. McRitchie, Supt, of the district, presided and usided much to the success of the meeting by his able sermons and his happy method of conducting the prayer meetings. The services were characterized by clear expositions of the doctrine of holiness and were pervaded by the Sanetifying Power of the Holy Ghost. Gracious results are looked for, on the various circuits represented at the meeting.

The Railway.

The work on the Farmersville sec. of the B & W. R. R., is progressing very rapidly, and the teremen have done their duty towards both men and the results of contractors. They have finished the rock cut opposite Mr. Pierce's on the Delta road and have done about as fast work as any men could do in rock. There has been excavated, in the meighborhood about 1,000 yards in and the days, with an average of about 20 men. The foremen, Tom Mellyenna and Wilson Rdey, have performed their duties in a manner which must be gratifying to the contractors, Mitchell & Robinson.

A large number of Italian yo kmen are expected on this section short'y. Fay's Co., are making good progress on their section of the road.

Improvements. C. L. Lamb, commenced on Monday morning to remove the balance of his goods from the store so long occunickly Lim. He will close business

MENT.

Let the studious mind look back on undred years and see the improvements the methods of work, and the rapid progress of the century in the mechanica arts will be apparent. In 1793 Eli Whit ney, a mere lad in obscure circumstances, was led to the idea of inventing the cotton THE subscriber wishes to intimate to the public, that after the completion of his engagement with H. O. Gordon & Sen as weaver, he will be prepared to do all kinds of hand custom weaving, such as carpets, flannels, fulled cloth, &c. Shop and residence: Part of the Levi Johnston house, on Mill street. He can be consulted for the next month at the Carding Mill.

Was led to the idea of inventing the cotton gin, a machine for picking the cotton from the seed. For some time he labored with the seed. For some time he labored with the seed is sent a determined turn of mind he evacually mastered it. The result, as we all know, was to make cotton king and to create a great source of wealth to the United States. Again, Fulton's application of steam to navigation, in 1807, Jeserves special mention as one of the greatest inventions of the age; and although the first steam bout proof that they are standard. the age; and although the first steam boat went up the Hudson at the rapid rate of four miles an hour, yet in those days it was a good model; and had many points of weellages, still alter to have a six of the state of the stat a few of the testimonials I have published in pamphlet proved upon from time to time, was certainly a mark of great progress. While the inflalation of ether, as a preventative of pain, introduced by modern Wills and Jackson, was not of so much importance to the commercial world, yet it can well and truly be called the greatest been ever complete, and I respectfully. and truly be called the greatest boon ever complete, and I respectfully A call solicited. But perhaps no invention of the present century has produced such wide spread social and business changes as that of steam locomotion. While the electric light, the telephone, the phonograph and the microphone can truly be termed the four new wonders of the world, there are many other inventions of note that could many other inventions of note that could be spoken of. But what are all these compared with the new Davis Vertical-feed Sewing Machine? This new machine entirely dispenses with the old under-feed, and consequently entirely obviates the necessity of basting. It ha less number of vorking parts, and is
