A Word to Cur Subscribers.

OUR bills for subscription to the HERALD, for the past year, have been sent out, and we are pleased to state that several of our friends have responded most promptly, and sent in the amounts due. We should be most happy if all others would profit by the good example thus set them. and promptly remit. Now friends, we want to take you into our confidence. We have worked hard during the year, and have given you the best paper possible, under the circumstances. At the same time we paying amounts due. Is it too much, now, to ask you to be so kind go far to prove that "free trade' as to avail yourselves of the conveni-ences we have placed at your dis-posal for remitting your subscriptions, without trouble or expense? The "Reverend Ranter" Heard From. THE Guardian of Monday last contains a letter from Rev. A. F. Thomson, in reply to an editorial, under the caption, "A Reverand Ranter," which appeared in the HERALD of October the 16th. In an introductory note, the writer says a copy of the letter was sent to the Editor of the HERALD "two weeks ago." Now, the letter in the Guardian is only a portion of the letter first sent to the HERALD; as the Rev. gentleman, a few days after sending the letter, telegraphed us to withold publication, till we should hear from and subsequently sent a second letter withdrawing a portion of the first. Free Trade and English Husbandry WHILE Mr. Laurier and

they hope to gain a vote, "free trade as it is in England," events are transpiring in England that turist in England has become next to unbearable. A short time ago a Kent Stewart forwarded to the of this farm, feeling that the will enable me to stop in the face of these ruinous prices, my rent is moderate, I am perfectly satisfied with you as steward. I do not wish for a better landlord. but bad luck has attended me for the last few years—this year worse than all. Unless a change soon my loss on the year will be £1,000. The Times. correspond ent adds: "'Bear ye one another's burden,' is an old text, and unless the nation is prepared in some way to lighten those of agriculture it must fall. I do not doubt that the trade at present lost to this country by its present de-plorable condition would exceed tenfold any amount paid in duties upon foreign agriculture produce." Close on the heels of this comes the speech of Lord Salisbury, delivered at Walford, on corn laws we have had the strong est cause to lament that, though the protectionists resisted, their warnings had not been listened to more carefully. The repealers laughed at the idea of injuring

husbandry; but, a lowering of prices resulted and free trade has almost killed husbandry in several districts." From this it will be seen that Lord Salisbury is not incognizant of the gravity of

WE notice that the Patriot and other Grit organs, so fond of describng imaginary troubles in the ranks of the Conservative Party, are silent about the nice little quarrel between Mr. Laurier and the newspaper La Patrie. Mr. Laurier wrote to Mr. Beaugrand, proprietor of La Patrie, stating that he repudiated it as the organ of the Liberal Party. In answer to this, Mr. Beaugrand, in studiously polite, but scornful phrases asks when La Patrie ever posed as Mr. Laurier's organ, "or as he mouthpiece of his surroundings. Continuing, Mr. Beaugrand asks the opposition leader: "By whom can you, today, replace a name like that of your protector, your friend and your leader of the olden time, Jean Baptiste Eric Dorion? AN IMPORTANT OFFICE,

To properly fill its offices and functions, it is important that the blood be pure. When it is in such a condition, the body is almost certain to be healthy. A complaint at this time is catarrh in one of its various forms. A slight cold developes the disease in the head. Droppings of corruption passing into the lungs bring on consumption. The only way to cure this disease is to purify the blood. The most obstinate cases of catarrh yield to the medicinal powers of Hood's Sarsaparilia as if by magic, simply because it recaches the seat of the disease, and by purifing and vitalizing the blood, removes the cause. Not only does Hood's Sarsaparilia do this but it gives renewed vigor to the whole system, making it possible for good health to reign supreme the two creameries at \$11,000. By the intercase in the quantity of milk supplied, the revenue from the manufacturing charge of 1½ cents per pound of cheese, and 3½ cents per pound of butter, will be almost, is not wholly, sufficient to pay all expenses of operation and management. This, I am sure, will be gratifying to you. I have not yet sold the cheese. The butter has been sold at prices from 18 to 20 cents per pound. With the improvement recenthas been sold at prices from 18 to 20 cents per pound. With the improvement recently in the markets for cheese, I look for prices which will be satisfactory to you. Need I say that I would be glad to escape from the wearying responsibility of being salesman for the products belonging to so many people; all I can promise is that I shall do the best I can for your interests. As several weeks must elapse after the selling of all the cheese before a final settlement with the Patrons can be made, advance payments as usual will be made to
