

TIE IN THE ELECTIONS IN NEWFOUNDLAND

Capture of Seats—St. Barbe Retaining True to Premier Bond—Result is Unprecedented in British Political History—Will Bond Retain Power.

Halifax, November 10.—With the government and the opposition each holding eighteen seats, Newfoundland is now confronted with a situation probably unparalleled in the annals of British political history. There have been many cases where the vote of one man decided the issue, but for the opposing parties to come out of the election in the position of having the same number of seats is believed to be unprecedented.

St. Barbe was the last seat to be decided. On Monday night the Bond government was one in the minority, but the election of Clapp by a majority of 315 over Mott, the opposition man, has tied the parties. Whether Sir Robert Bond will resign and Sir E. Morris be entrusted with the task of forming a new administration, or whether he will endeavor to carry on the government by electing an opposition man speaker, or whether he will go to the country again are still moot questions.

St. Barbe Supports Government. The return from St. Barbe, the final constituency to be heard from in Newfoundland, turned out today as anticipated. Sir Robert Bond, giving Clapp, the government candidate, 372 and Mott, the opposition candidate, 67. This leaves the standing of the parties in the legislature at tie of eighteen each, the House consisting of 36 members, though the recount may lose the government one seat.

This standing may be affected by a recount in Harbor Grace, which has been demanded. In that constituency, Hon. E. D. Dawe, the government candidate, was declared elected over Seymour, the opposition candidate, by a majority of 1. The total vote between these two candidates was 1,147. Harbor Grace has three representatives, two of them having gone to the government and one to the opposition.

Will Retain Power. In some quarters, it is maintained that Premier Bond will find means of retaining power, providing the recount in Harbor Grace does not change the representation there and make the standing 19 to 17, instead of the tie that now prevails. It happened before in Newfoundland political history that a candidate has accepted office and vacated his seat in the legislature. The House will not meet until late in the winter or early in the spring. In Newfoundland an election cannot be held in the outlying districts except in the summer or autumn. Premier Bond has held power now for two terms, and is the beginning of the third. For eight years he has held sway in the ancient colony and whether he will make some exciting times in deciding whether it is to continue.

Upon reaching the train His Majesty drove to the castle and took up a position on the terrace. EYE OPENERS TO BE READ TO THE JURY

The Edwards-McGill-Cuddy Libel Case Unexpectedly Shortened—McGill-Cuddy Admits the Authorship of "Nemesis" Letters and Edwards' Counsel Admits Putting in as Evidence Copies of Eye-Opener.

Bulletin Special. Calgary, Nov. 10.—The Edwards-McGill-Cuddy libel case was brought to a close today. Instead of thirty or forty witnesses being called, as was expected, and the case lasting all week, the evidence was all in by five o'clock and the counsel will address the jury tomorrow. The case for the plaintiff closed at noon, being greatly shortened by Mr. Davis, for McGill-Cuddy, admitting the authorship and responsibility for the publication. Edwards did not go into the box to tell wherein he was libelled. The defense was taken up this afternoon and scored by several copies of the Eye-Opener being admitted as evidence. F. J. Nolan, the defendant's counsel, admitted the papers in the libel case as evidence. This led Davis to alter his course somewhat and the Eye-Opener will constitute the chief evidence for the plaintiff tomorrow.

J. S. Denning, assistant to Vice-President of the C. P. R., was the first witness this afternoon and told of an alleged attempt of Edwards to hold him up at the railway vicinal elections. The Eye-Opener then was not allowed on trains and Edwards wanted the privilege in respect to supporting R. B. Bennett. The witness refused to recommend it and Edwards dropped, supporting Hon. W. R. Cushing immediately afterwards. The Eye-Opener attacked him frequently in an untrue and grossly insulting manner.

R. R. Jamieson, formerly superintendent of the C. P. R., also gave evidence on this point and was in connection with the purchase of land near Lethbridge, and Dr. E. G. Mason, who has attended to the case, when suffering from the effects of alcohol, was the last witness.

Mr. Davis intimated that the Eye-Opener itself would constitute the chief evidence and this his lordship intimated would have to be read. The fact that witnesses were not called to prove the charges of immorality made in a letter to the Eye-Opener, was a surprise to the jury, and that his lordship expected it was apparent from the orders issued at noon that no one under 21 was to be admitted.

Morse Remains in Tombs.

New York, Nov. 10.—The application for bail in the case of Charles W. Morse is denied. That decision, handed down late this afternoon by the United States circuit court of appeals, dashed to the ground all hopes that the former mayor might have had of getting out of the Tombs for some weeks at least, and perhaps for months. Whether he will ever leave the city prison except to be taken south to do stripes and work as a felon in the government jail at Atlanta, Ga., depends entirely upon the action which the United States court of appeals takes on his application for a new trial. The error granted to him by Judge LaCombe is returnable before that tribunal on Dec. 3 next.

There were 200 boat loads durum and Manitoba kinds sold for export. December advanced 1/2c, May 2 1/2c. Some features of the early news connected with wheat were of a bullish character, and prices started about 1/2c higher in consequence. There being large concentrated holdings ready to give markets a boost on all such occasions. Foreign markets were also up. Budapest 3 1/2c higher. Spot wheat in Liverpool was also up 1/4 to 1/2 for all but Manitoba kinds, making the entrance to the new channel. West Nebraska today. Tugs were unable to release here. The foreign corn summary was bullish and there was news of frost damage in Russia. The entire advance of the morning was not held, but in Chicago the close showed an advance of 1 1/2 for December, 2 1/2 for May and 1 1/2 for July. In Minneapolis closings were all at high point of the morning. December being 1 1/2, May 1 1/2 and July 1 1/2 higher. The Winnipeg market, however, made the record. In face of the heaviest receipts of the year, the advance was 3/4 for November, 2c for December and 2 1/2 for May. Cash wheat was strong, the demand for spot was active, the advance in price being 2 for contract grades, with premiums on this for spot. The demand was good and trading was largely without speculation. Had there been much of a speculative element, it would have been a runaway market sure. Receipts were 432 cars for Monday and 500 in sight for today.
