TUESDAY, May 6th, 1913.

Notes and Comments.

We notice the Postmaster General states that it is proposed to expend \$50,000 during the coming year, to strengthen the land lines and string additional wires on the poles on the main telegraph lines.

As to telephones, he says the Postal Telegraphs are more interested in the extension of the telephone to the smaller outposts to connect them with the larger telegraph centres and thereby affording a means of contributing to the Telegraph Revenue, and he expresses the opinion that the whole telephone system needs to be properly organized and placed under the supervision of a competent telephone expert before it can be regarded as satisfactory.

The statement by Sir Edward Grey that Montenegro has placed the future of Scutari, unconditionally, in the hands of the European Powers, is most satisfactory and should abate the tension which has prevailed for some considerable time.

The Eastern Question now seems in a fair way for a settlement and one great disturbing factor to the Peace of

A New Motor Boat.

A new departure in the prosecution of the lobster fishery has been made by Mr. Vincent Singleton, an enterprising packer of St. Joseph's, Salmonier. During the past winter, his brother, Mr. Joseph Singleton, built for him a large boat, which has been fitted with a 5 H.P. Fairbanks gasoline engine by Mr. Geo. M. Barr. Mr. Singleton had a spin in her on the harbor, while here, and is very enthusiastic about his new venture, which he hopes will enable him to reap a richer harvest of the valuable crustacean, besides the cod and other fisheries of our fertile bay. The boat was shipped to him by the s.s. Portia last week. She is the first to be used in St. Joseph's, and if a paying proposition, will be followed shortly by others. No one doubts that the motor is the boat of the future for inshore fishing, but few are willing to incur the expense of procuring them. No doubt Mr. Singleton will find the motor of material assistance to him; and with pluck and perseverance success will crown his efforts. The outcome of his new venture will be watched with interest by his fellow-packers; and gradually the old will give place to the new, and the "chug chug" of the motor will give place to the brown sail of the dory around our coast. We wish Mr. Singleton all the success his enterprise deserves (which is going some), and trust he and the rest of our boys will have a "good summer."—Com.

Kyle Made 13 3-4 Knots

The new S. S. Kyle built at New-castle-on-Tyne for the Reid Newfoundland Co.'s Labrador service made her trial trip yesterday forenoon, running over a 6 hour course. The ship made 13 3/4 knots which is most satisfactory, as the contract called only for 13 knots. The ship is a beauty and is a duplicate of the Lintrose with the exception that she is 35 feet shorter in length and a couple of feet less beam. Her accommodations are first class, and she is fitted with a finely equipped hospital, etc. The ship, it is thought, will leave for here Thursday with Capt. Stephens, chief officer of the Lintrose, in charge.

Here and There.

The Portia left Channel last night. The Prospero sails to-morrow morning for northern ports.

CAUSED A DISTURBANCE.—An inmate of the Poor Asylum was arrested last evening, having been picked up in a cab. Another had created a disturbance there to-day and had to be driven to the station in a cab.

SALT STEAMER HERE.—The S. S. Snowden Range, Capt. Fell, arrived from Santa Pola this morning with a cargo of salt to Bowring Bros. The passage took twenty days, during which considerable fog was met.

APPOINT A GUARD.—Now that there are in hospital again some cases of smallpox, a policeman should be put on guard there. The danger of the disease being brought about would be avoided by the presence of a policeman.

NOTE OF THANKS.—Mr. and Mrs. John Flynn desire to thank the many kind friends who sent flowers to adorn the casket of their beloved daughter, Florence; and also those who by their expressions of sympathy helped to lighten the burden of their sorrow in their recent bereavement.—adv.

LOST.—Between Bowring's wharf and Cooktown Road, by way of Beck's Cove, Bates' Hill and Carter's Hill, a SUM OF MONEY. Finder will be rewarded on leaving same at this office.—may 6, 11

CATCHING CODFISH.—The bankers are now at work on the Cape Shore grounds, and those out at Angell's and Patrick's Coves and Custlette have caught from 1/2 to 1 1/2 qts. prime cod. Bait up yesterday was scarce, but some ten boats went up to Argentina and secured herring which had struck in there.

THE S. S. EARL OF DEVON.—Capt. A. Carter, of the s.s. Earl of Devon, will leave the Dry Dock to-morrow, going to Cape Bonavista with a fog alarm. After landing the freight he will return to St. John's to take on board some sportsmen for the Labrador. Capt. Carter is in good spirits after the mishap of the winter and his friends wish him success in his undertaking.

HONESTY REWARDED (1).—Mr. Richard Doran, of Outer Cove, yesterday sold a salmon at an East End residence and was paid \$5.50, its value. About a half hour afterwards in giving change to other purchasers, he discovered he had a \$50 bill in his possession and concluded that the party of the East End had given it to him overlooking it for a "fiver." Mr. Doran went back and promptly restored the money, and the owner was so highly pleased that he handed the man—nothing. Truly an encouragement for the dissemination of honest principles.

HANDSOME MONUMENTS.—Mr. Jno. T. Kelly, marble worker of this city, has executed a beautiful marble tablet to the memory of the late Mons. John Walsh, of Renewa, erected in the church there. Another beautiful tablet erected by Mr. Morsy will be put in the Parish church at Fernside, and Mr. Kelly is also placing a handsome granite shaft over the grave of the deceased priest in the cemetery at Renewa. These memorials are beautifully done and reflect credit on Mr. Kelly's ability as an artist and marble worker.

Cable News.

Special to Evening Telegram. LONDON. Soon. A militant suffragette was caught this morning after placing a bomb at the entrance of the Grand Hotel, in which court of tourists were present. She gave her name as Ada Ward.

LONDON, To-Day. An end was put to-day as to the possibility of a divorce on the ground of force and other suits in the United Kingdom by a judgment delivered by the House of Lords, sitting as the highest Court of Appeals. The Divorce Courts had adjudged Mrs. Scott guilty of contempt of court for circulating among her friends a report of a case heard in camera, in which she had been accused of infidelity, but had been vindicated. The Lord Chancellor's opinion, in which the other Law Lords concurred to-day, reversed the judgment for contempt of court, which the Court of Appeals had sustained. The Lord Chancellor declared that "Every court of justice in the land is open to the subjects of the King, and the court has no power to sit otherwise than with open doors."

OTTAWA, To-Day. A bill to provide for more advantageous conditions for telegraphic communications between Canada and the United Kingdom, and other parts of the British Empire, introduced in the House yesterday by the Hon. L. P. Pelletier, occasioned some debate. It was intended to ratify a contract to fill the gap in the present All Red Cable Service. At the same time it creates an ocean telegraph line from the United Kingdom to Vancouver by contract with the Postmaster General, the Minister of Marine, the Minister of Railways to make regulations governing the system. At present the governments of Britain, Canada, Australia and New Zealand control the trans-Pacific cable and the Board of Management of that line has leased a telegraph line from Vancouver to Montreal from the Canadian Pacific Railway's Telegraph Company, by contract with the Postmaster General. He explained to the House a wireless service will be secured to complete the communication between the Antipodes and Britain.

Handel's Messiah.

The Soloists at Tuesday night's performance will be the same as at the first, namely: Mrs. F. J. King, Miss Elsie Herder, Mr. F. Seymour, Mr. P. J. McCarthy.

While it may not be possible to conclude the performance by eleven o'clock, every effort will be made to avoid all unnecessary waits, so that it may close as near that hour as possible. Doors open at 8.30.

Irish Comedy
At Rossley's.

Rossley's Theatre, last night, was filled to overflowing, many having to stand. The Irish Senator is one laugh from start to finish. Jack Rossley, as the Senator, filled the bill to perfection and there is some fine wardrobe. At repeated requests Mrs. Rossley again staged the Butterfly Dance. The tiny tots have been trained by Mrs. Rossley to such a state of perfection, that last night they looked as though they floated through the air. With the new mechanical and electrical effects, it is the most beautiful sight ever seen in St. John's. There are ten children in the act. There is in preparation another big act, that will delight all that attend. If you want a good and hearty laugh, see the Irish Senator.

Here and There.

STEPHANO'S QUICK TRIP.—The Red Cross Innr, Stephano, Capt. Clarke, reached Halifax at 10 o'clock yesterday morning, making the run from this port in thirty-eight hours.

BLACK DIAMOND LINE.—The s.s. City of Sydney left Montreal last Saturday at midnight, coming via Gulf ports. She is due here on Friday. The s.s. Morwenna sails for Sydney this afternoon.

PERSONAL.—Mrs. Simon Tooton, who has been residing in Montreal the past three weeks, arrived here by the s.s. Morwenna, to spend the summer with her friends. Mrs. Tooton's two children accompanied her.

TWO FREIGHTERS COMING.—The s.s. Sindbad left Montreal on Sunday for this port via Sydney, bringing a full cargo, principally flour, to Shea & Co. The s.s. Carleton will run on this route during the summer season in conjunction with the Sindbad.

Cable News.

Special to Evening Telegram. LONDON. To-day. FRANKFORT-ON-MAIN. To-day. King Nicholas will shortly abdicate the throne of Montenegro, according to a telegram received by the Frankfurter Zeitung.

LONDON, To-day. The novelist, Alice Maud Meadows, was accidentally drowned at Redhill, a few miles from London, while attempting to rescue her dog, which had fallen into the river.

The Victim of a Gunning Accident.

There arrived by the Bruce express at 6.30 last evening for the General Hospital, James Bennett, a 15-year-old lad, to receive treatment for injuries sustained as the result of a gunning accident. Bennett belongs to Burgeo and was on a visit to Rose au Rue, P.E. While there he and another boy went bird-shooting. The gun was accidentally discharged, the contents entering the boy's left thigh. The wound was temporarily dressed by a doctor who ordered the victim to hospital where he now is. Bennett will be operated on to have the shot extracted.

The schr. Mabel D. Hines, Capt. G. Green, is discharging her cargo for George Neal. Capt. Green is to be congratulated on his new vessel.

Rugs will not slip on a polished floor if a strip of rubber is sewed underneath them at either end.
