WASHINGTON, May 20. Defective railroad equipment and bad tracks are responsible for 65 per cent. of all derailments in the United States during July, August and September, 1912. During these three months there were 324 more accidents including 901 more collisions and derailments than during the same months in 1911, for all train accidents. On the steam roads during that time 348 were killed, 4,508 injured, an increase of 87 killed and 315 injured, over the same period of the year previous. These facts are disclosed by the Accident Bulletin Interstate Commerce Commission for the quarter ending September 30th, 1912. Accidents of other kinds, including those sustained by employees while at work, not including industrial accidents, make the number of casualties 995, and 29,447 injured, a total increase of 237 killed and 3,340 injured over the preceding year. The damage to equipment and roadways by accidents amount to \$33,664,000.

BERLIN, May 20. Preparations for the wedding, Saturday next, of Princess Victoria Louise, only daughter of the German Emperor, and Prince Ernst August of Cumberland, give striking prominence of the Emperor's apparent desire to make the occasion lead to the betterment of relations between Germany and Britain. That the wedding is of a non-political character, has been emphasized, but the real attitude of the Emperor was illustrated yesterday by the granting of pardon to three English spies who are now undergoing terms of imprisonment in Germany. Another evidence of German concern is the forthcoming visit of the King and Queen of England contained in the official programme published last evening, which prints in prominent position a half column article of the reception arrangements for the British Sovereign, while a few lines in another column describe the preparations for the reception of Emperor Nicholas of Russia. According to the programme, two squadrons of Cuirassiers and Dragoons will comprise King George's escort on his arrival at Berlin, Wednesday, while only one squadron is assigned to escort Emperor Nicholas on his arrival the following day. The German newspapers are giving much attention to the political importance the wedding may have in bringing about a manifestation of friendship between Germany and Britain, but they have little to say concerning a similar manifestation towards Russia.

ST. ANDREW'S, Scotland, May 20. This little town is almost in a state of siege as the result of threats uttered by militant suffragettes, that they will destroy Putting Greens, and thus render play impossible in the world's amateur golf championship, which is to be competed for here next week. Intense excitement prevails among the townspeople, who depend largely for their prosperity upon the golf links; while members of the Royal Avenue Golf Club also are extremely anxious that they and citizens organize a vigilance committee, whose members, together with 5,000 volunteers, will guard the Greens night and day. General anxiety becomes keen every day as it is thought the militants may refrain delivering the attack until the last moment, when it will be impossible to repair the damage. It is understood the women will use vitrol to destroy the Greens, and all sentries stationed there have been provided with umbrellas to prevent the fluid being thrown in their faces.

LONDON, May 20. The Telegraph says the Canadian Premier is convinced that the voting of three Dreadnoughts will not give adequate expression to Canada's desire to co-operation in the defence of Imperial interests. It's author states that the Halifax dockyard will be developed, and Vancouver converted into a great Imperial base.

**A Paris Chemist Has Discovered How to Grow Hair.**

In Paris the ladies have entirely abandoned wearing rats, which is due entirely to this new discovery. It has been proven that Henna leaves contain the ingredients that will positively grow hair. That they contain this long-looked-for article is proven every day. The French are now placing on the market a preparation containing the extract from Henna leaves, which is having a phenomenal sale. This preparation is called SALVIA and is being sold with a guarantee to cure dandruff and to grow hair in abundance. Being daintily perfumed, SALVIA makes a most pleasant dressing, and is sold by your druggist. A large, generous bottle can be purchased for 50 cents. MCMURDO & CO., special agents.

**MINARD'S LINIMENT CURES DIS- TEMPER.**

Special to Evening Telegram.

LONDON, May 20. The New York Yacht Club, to-day enabled the Royal Ulster Yacht Club, definitely accepting Lipton's challenge for America's Cup, the race to take place September, 1914, under the New York Yacht Club's present rules as to measurements, allowances and racing regulations.

LONDON, May 20. The strike on the Great Northern Railway has been averted by the unconditional reinstatement of engine driver Chappell, who was suspended several days ago for failure to report for duty on time. The prospects of the strike considerably ruffled the stock exchange, railroad shares showing a tendency to drop.

LONDON, May 20. Advocates of free speech are adopting arguments with the object of making the British Home Secretary's life more unpleasant. A man strolled up to the Home Office this afternoon and hurled a brick through a glass door in the office leading to Reginald McKenna's sanctum. A howl of vote for free speech rose above the din, caused by the shattered glass. The visitor attempted to break a second door, but was arrested before he could accomplish his purpose.

PATTERSON, N.J., May 20. Fifty-seven arrests were made to-day in the vicinity of the Prince Silk Mills, whose hands returned to work yesterday in the face of protests from the Industrial Workers' World Leaders who are conducting the strike. Twelve hundred more, strikers and others gathered in the streets near the mills to-day to jeer the returning workers. There was no actual violence. Those arrested were taken because they refused to move on. Three of the prisoners were women, one with a baby in her arms, who was immediately paroled.

PHILADELPHIA, May 20. Threats to tie up shipping along the Atlantic Coast, unless longshoremen here are granted their demands, were made to-day by the National Organizers' Industrial Workers of the World. Firemen and longshoremen in New York will be ordered out and refuse to handle all freight consigned to this city. Similar orders will be issued to Baltimore and other points along the coast. Nearly 3,000 men are said to be on strike here. They demand 35 cents an hour for a ten-hour day; time and one-half for work after 6 p.m., and double time for Sundays and holidays.

LONDON, May 20. John K. Davis, Commander of Dr. Mawson's Antarctic ship Aurora, who has arrived in London, gives in an interview fresh details of the sufferings of Mawson and his comrades, Lieut. Ninnis and Dr. Mertz, Swiss scientist and ski-runner. "We were not more than half a mile from Mawson, when we returned," said Davis, "but we could not relieve him or his party. Mawson had gone out with Ninnis and Mertz. Twenty-five days after the little party started, Ninnis fell in an unfathomable crevice with his sledge and provisions. His body was not recovered until thirty-four days later. After this Mawson and Mertz struggled across the plateau on the verge of starvation till January 17, when Mertz, too, succumbed as a result of exposure and want of food. For twenty-two days more, Mawson struggled alone with a few dogs as his sole companions. That he did not go mad under such conditions is wonderful, and the account of his journey when he tells it will prove to be one of the greatest stories of Antarctic heroism." As an urgent request Mawson signalled Davis by wireless to come to England and try and obtain part of the money rendered necessary by the extra season's work which has been forced on the explorers, who are compelled to remain in the Antarctic until Davis returns there at the end of the year.

**Fresh Putter and Eggs for Sale by J. W. CAMPBELL, Ltd.**

AGAIN IN COMMISSION—The S. S. Karl of Devon which had been on the rocks last fall and after being towed here was repaired, is again in commission. She yesterday returned from Formosa where she landed supplies and will sail shortly for Labrador with a load of supplies for various light houses.
