Explosion of Bomb Cuts off Water Supply
—President Harding's Condition Causes Anxiety—Sir Charles Hawtry Dead.

WATER MAINS IN BESCO PLANT DESTROYED BY DYNAMITERS.
SYDNEY, N.S., July 31. The Besco Steel Plant is completely closed down as the result of a series of explosions which blew up the lines which supply the plant with water. The damage, it is feared, is not so much by the explosion as damage caused inside by the sudden shutting off of water needed in various operations particularly in the coke ovens section. It is possible that Sydney may be able to furnish a quantity of water for vital purposes until repairs have been made. The only clue to the origin of the explosion is several men seen making a getaway in an auto.

MYSTERY STILL SURROUNDS THE BOMB OUTRAGES AT BESCO PLANT.
SYDNEY, N.S., July 31. Though the police were active all tracing down such meagre clues

as developed, no arrests were made and complete mystery still surrounds the identity of the person or persons who, early this morning, exploded charges of dynamite, and wrecked the pipe lines supplying the British Empire Steel Corporation's plant with water. It is learned that the breaks have been repaired, and operations will be resumed as soon as the exact nature of the damage to the steel plant, if any, is located, although this will not be known for several days until a thorough survey is made.

\$1,000 REWARD OFFERED FOR ARREST OF GUILTY ONES.
HALIFAX, N.S., July 30. Attorney General W. J. O'Hearn announced to-night that as a result of the bomb outrages in Sydney to-day, the Provincial Government has offered a reward of \$1,000 for information leading to the arrest and conviction of those guilty.

PRES. HARDING ILL OF PTOMAIN POISONING.
SAN FRANCISCO, July 31. President Harding was reported ill to-day on landing here from Seattle. He is suffering from complication following ptomaine poisoning, which attacked him at Vancouver after eating crabs that were "copper tainted."

PRES. HARDING IS TALKING TOO MUCH.
SAN FRANCISCO, July 31. President Harding spent a fairly comfortable night, according to a bulletin issued to-day by Brigadier-General E. Sawyer, his personal physician. "His condition is acute and he has temporarily overtaxed his cardio vascular system by carrying of his speaking engagements while ill," the bulletin adds. It would be necessary for the President to have complete rest during the period of acute symptoms.

THE PRESIDENT'S CONDITION IS SERIOUS.
SAN FRANCISCO, July 31. President Harding's illness responded to-day to careful treatment and complete rest, but his physician's statement issued to-night, admitted for the first time that his condition was serious. The most encouraging feature was that he had taken some nourishment and had been fairly comfortable during the day. To-night's bulletin gave his temperature as 100.6, respiration forty-four and irregular, and some cough and evidence of congestion in lung.

THREE MORE YEARS OF RAILWAY BURDEN.
MONTREAL, July 30. In about three years time the Canadian National Railways may be expected to have ceased to be a burden on the pockets of the tax payers, Sir Henry Thornton, Chairman of the Government's Railway, declared here this afternoon. He added however, the provision, that such would be the case if no unfortunate disaster struck Canada.

NOTHING BUT GUESSES.
EDMONTON, July 30. Official investigation into the cause of the wreck on the trans-Continental Line, near Picard, Quebec, Saturday morning, when four train employees were killed and one injured seriously, was opened this morning, and until it is completed no report is to be given

out. One of the passengers, a woman, suffered injury. Her arm was bruised. "Nothing but guesses," authorities answered, when asked if the cause of the wreck was that the express was running ahead of schedule as rumoured.

NEGROES WITH RAZORS SLASH INTO DANCERS.
CHICAGO, July 31. One negro is dead and two county policemen dying. Early yesterday morning, according to Chicago papers negroes entered a community dance hall armed with knives, razors and revolvers, and forced white girls to dance with them, taking wives from the arms of husbands in some cases, says the report.

BANDITS MAKE BIG HAUL.
SCRANTON, Pa., July 31. Three bandits held up the paymaster of the coal company on a Laurel Line train to-day, using revolvers freely, killing one man and wounding two, and made their escape with the pay roll, amounting to from eighty-five and ninety thousand dollars.

SERIOUS FIRE AT NEW GLASGOW.
NEW GLASGOW, July 31. The plant of McKay and Chambers at New Glasgow, a firm operating the salt mines at Malagaash, was destroyed by fire Saturday evening. The mine had been working to full capacity and the loss is a serious one.

List World War Dead in Allied Memorial Centre.

Oakland, Calif., July 28. (A.P.)—Names of 84,324 heroes who died in the World War to-day repose in a vault in the Allied Memorial Center here. The memorial, a majestic monument of steel and stone, was erected on the banks of Lake Merritt, in the heart of Oakland, for the purpose of housing the names of every Allied soldier, sailor, or nurse killed in the World War.

Dr. Leroy F. Herrick, of Oakland, who erected and maintains the memorial at his own expense, states that in time he hopes to have the names of every participant of the World War in the huge vault of the Allied Memorial Centre.

Dr. Herrick stated that the Canadian authorities have promised to have a complete list of the soldier and sailor dead of Canada in his hands on July 1, and he says, the names will be deposited on July 4 with proper patriotic services. This, the memorial founder stated, will be a departure from the usual method of depositing the names.

"I planned and since 1919 have carried out my plan of holding patriotic services for the depositing of names on each Memorial Day and each Armistice Day," said Dr. Herrick. "However, I do not want to keep the entire Canadian list out of the vault until next November 11, and I am going to break the rule of procedure this once.

"I do not know how long it is going to take me to get the names of the 1,500,000 soldier dead of France. The French war authorities have not finished compiling its list. I expect to have the Australian and New Zealand lists in time for next Armistice Day, but I do not know how long it will take to get complete lists from England, Belgium, Italy and other Allies.

"The names in the vault to-day are all American, with the exception of 145 of Brazil's war dead." The monument has the portraits of Washington, Lincoln, Roosevelt, and Wilson carved on the four sides, and is topped by an eagle. Dr. Herrick, a local physician for the last 30 years, was born in Wellington, Maine, in 1861.

Timbering in Summer Under Modern Efficiency.

Montreal—A number of the largest lumber companies in the Riviere du Loup district are planning to carry on lumbering operations during the present summer on some of their timbering limits. This is a radical departure from the custom of cutting and hauling the logs during the winter. Heavy snows during the past winter impeded and greatly retarded cutting operations. In the past hot weather has been considered a handicap and summer hauling was supposed to be at a disadvantage as compared with the facilities offered by the snow. Modern equipment, however, has made the handling of logs in summer easier than the winter. A saving of timber also results, for stumps can be cut lower in summer.

REGATTA DANCE, C. C. C. HALL—On to-morrow, Wednesday night, August 1st, C.C.C. Hall, with the Prince's Full Orchestra, in Lancers, Waltz-Lancers, Waltzes, Fox Trots and One-Steps, all the very latest from New York.

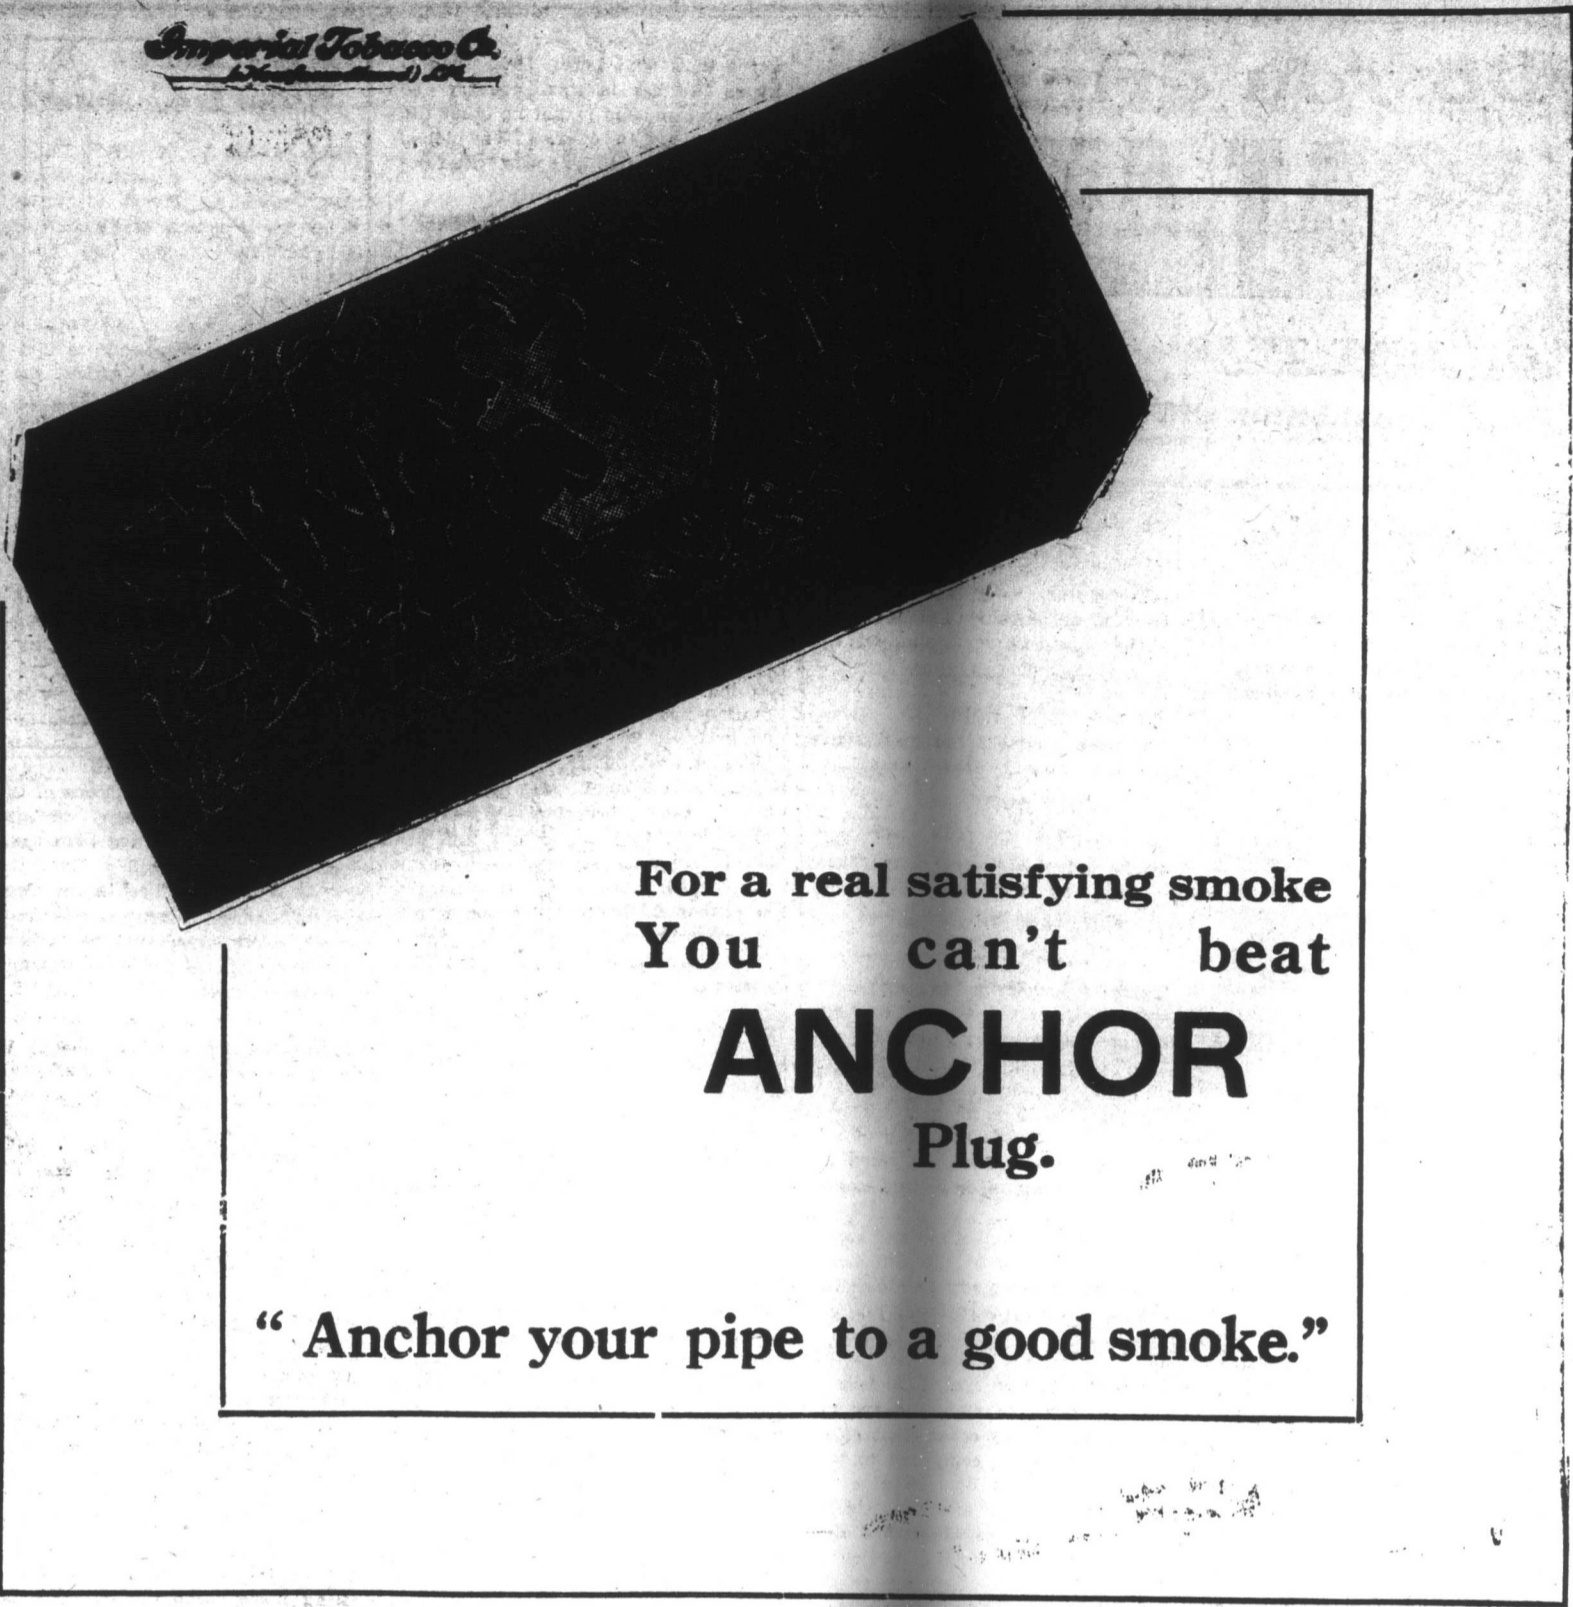

"The Night Rose" a Masterful Production.

IS WITNESSED BY HUGE HOUSES AT THE NICKEL.

One of the most powerful screen dramas seen in a long while is "The Night Rose," the great LeRoy Scott story at the Nickel yesterday. Much abused as is the expression "all star cast" there has never been a more conspicuous example of it's deserved use than in "The Night Rose." The cast is headed by Lon Chaney, whose work in "The Penalty" played him at the very top of screen players. In this picture he has the role of a boss of the underworld, but one of an unusual type. Though living on the fringes of evil and enemy of the law, he hides behind the outward personality and garb of a gentleman. The remainder of the cast is excellent.

On Thursday the Nickel will screen Major Sidney F. Ootson's Aerial Survey of the Frozen North and the Labrador Gold Fields. This film is very interesting and will, no doubt, be witnessed by immense audiences.

REGATTA DANCE, C. C. C. HALL—Don't forget the big Dance in the C.C.C. Hall on to-morrow, Wednesday night, wet, shine or postponement, this Dance will go on, Prince's Orchestra. Also on Thursday should the Regatta be held on Thursday.

"Anchor your pipe to a good smoke."

Here is a Question Worth Considering

Have you ever given a thought to the reason you see some women with red and roughened hands?

The explanation is simple: Something is wrong with the soap they use for household work.

Furthermore, have you ever given a thought to what a soap that reddens the hands will do to the clothes?

You do not need to be told that it will fade the colors and weaken the fabric.

It is unnecessary to use such a soap today when you can buy pure laundry soap that is absolutely free from any adulteration, and does not contain lye to harm the hands.

Made of the finest materials, blended together perfectly during the 20 days it is in the making, Kirkman's Soap is the absolutely "safe" soap to use for your household washing and cleaning.

Remember always, for the sake of your hands and clothes, to ask your grocer for Kirkman's Soap.

Acting on Impulse.

Having once upon a time been a schoolmaster, it is only in the nature of things that some of Mr. Jerome K. Jerome's funniest stories should concern themselves with schools and scholars.

One that he is fond of telling concerns a certain inspector who, visiting a provincial school, was much worried by the noise of the scholars in the next room. At last, unable to bear it any longer, he opened the

door and burst upon the class. Seeing one boy taller than the others talking a great deal he caught him by the collar, carried him to his own room, and planted him in the saying: "Now sit there and be quiet."

Ten minutes later a small head appeared round the door, and a meek little voice said: "Please, sir, you've got our teacher."
