

In the Realms of Sport

SWEETSTAKE TICKETS ON SALE.

A sweepstake arranged by the Newfoundland A.A.A., on the Halifax Road Race, will be found on sale at the stores of Messrs. J. P. Cash, G. Trainor and A. S. Wadden to-day. Owing to the time being short, only a limited number will be offered for sale, and it would be a wise plan for intending purchasers to get them early before they are all bought up. The sweepstake will be for time between Ron O'Toole, Victor MacAulay, the champion, and Wright, the Westville runner who came second last year. The prizes will be 1st best time, \$200.00; 2nd best time, \$100.00; 3rd best time, \$50.00. Tickets only 10 cents each.

For those who purchase tickets with Linerage stamped on same, it is to be clearly understood by all that this ticket is now substituted by Wright. The Sweepstake was placed in the hands of the Printers when it was taken for granted that Linerage would compete, and when it was definitely made known that he was unable to go, it was found too late to make a change as desired. The Nfld. A.A.A. officials hope there will be no friction amongst ticket holders with tickets of Linerage in their possession. MacAulay, Wright and O'Toole, the names under which the Sweep is being run, will compete in the race.

TO-DAY'S FOOTBALL GAME.

Should weather conditions permit, the second game of the Inter-Collegiate Football Series will take place at St. George's Field this afternoon at 4 o'clock. The contesting teams will be the Collegians and St. Bon's. This game promises to be more evenly contested than the first one.

Her Contribution.

One day a lady, who was canvassing subscriptions towards an inebrates' home, stopped at Mrs. Slattery's. "Mrs. Slattery," she said, "we are collecting for the drunkards' home. Could we prevail upon your kindness for a contribution?" "Certainly," replied Mrs. Slattery. "You come around at ten o'clock, and you can have my old man."

Taking No Chances.

Pat had just been appointed to the responsible position of special constable, and felt the honour. On the day of his first arrest he was taking his capture up to the station, when a sudden gust of wind blew off the latter's hat. "I say," exclaimed the prisoner, "let me get my hat." "Phwat?" said Pat. "Run away and never come back again? You stand here, and O'll get the hat."

Venerable English Fanes

SUCCEUR TO WOOD BORERS.

PETERBOROUGH, Eng.—(A. P.)—Peterborough Cathedral, the great Norman fan which was spared by Henry VIII. when he was demolishing church property because it held the grave of his first wife, the ill-starred Katharine of Aragon, has fallen a victim of the death-watch beetle.

The 800th anniversary of the foundation of this structure, whose west front has often been described as the finest portico in Europe, was celebrated ten years ago. Now it has been discovered that the death-watch beetle, for how long it has been unknown, has been silently eating away the interior of the great oaken beams in the roof spaces of the choir, nave and transepts. So great have been the beetle's ravages that the whole roof structure is in danger of collapse.

The dean of the Cathedral has launched an appeal for \$50,000 to remedy the defect. Probably an even greater sum will be needed for the work. This is not the first ancient English structure to be endangered by the death-watch beetle. Its ravages have been discovered in dozens of the old Tudor and Norman roofs.

Westminster Hall, built by William Rufus, was reopened only last year, having been closed for eight years while craftsmen replaced the work of the mediaeval carpenters which had been gradually eaten away by the destructive beetle.

The roof of Henry VIII's banquet hall at Hampton Court Palace is now undergoing similar treatment for the same defect. It all shows what constant vigilance has to be exercised in preserving and renewing the ancient English fabric. There is hardly an English Cathedral which has not a force of masons constantly at work replacing decayed and weather-worn stone.

One may have an evening bandeau of feathers matching one's fan. Elaborately beaded and spangled net tunics are worn over satin slips.

Big Features at the Majestic

Grave of Noted Indian Chief Believed Found

POCATELLO, Idaho, Sept. 25 (A.P.)—An ancient Indian grave believed to hold the remains of Chief Nam-puh, the Puute Indian leader after whom the city of Nampa, Idaho, was named, has been found by R. W. Lambert, whose explorations in the country now known as the Craters of the Moon national monument contributed greatly to national recognition of that territory.

While hunting in the desert close to the Nevada line recently, Mr. Lambert said he found a flat rock upon which there was carved an arrow. Following the general direction of the arrow he found other rocks with similar carvings. The end of the line of arrow rocks was a huge mound of stones with a flat one resting horizontally on top.

The flat rock was engraved crudely with the figure of an Indian with abnormally large feet and hands; around the figure was a circle, the death star of the Puute.

The dead chief is reputed to have had enormously large feet and hands and it is a tradition that one of his feet was six inches wide and eighteen inches long. The attempt of the carver to show the large hands and feet leads Lambert to believe that it is the grave of Chief Nam-puh.

In closing, special mention might be made in reference to the ability of Miss Mary O'Neill, A. T. C. L., who accompanied the artists at the piano. Her work was highly praised and appreciated by the performers as well as the patrons.

Another tip to Majestic patrons and screen lovers, is to book their appointments for the greatest of all screen productions entitled "Human Wreckage," full facts of which will be made known later.

Women of India Demand Seats in Legislature

LONDON.—(A. P.)—From distant India comes a cry of the women for further political rights and privileges under the leadership of Mrs. Pankhurst, used to smash windows and pour kerosene into the mail boxes in an endeavor to convince men that women should vote, has received from India an account of the struggle going on there to give women the right to membership in the legislatures.

At a representative meeting of Indian women held recently in Simla under the presidency of Lady Sha, the question of the disqualification of women for election as members of the several legislatures was discussed. The following resolution, supported not only by the Simla women but by the Bombay Women's Council and the Women's Indian Association, Madras, was passed unanimously:

"This meeting of Indian women, belonging to different parts of India, places on record its very strong opinion that the disability of women to stand as candidates for the legislatures be removed forthwith, and that the rules under the government of India act be amended accordingly."

The memorandum of the reforms committee states that "it is not necessary to recapitulate the arguments for and against women franchise in British India. Our contention is that it is an anomaly that women may not be members of the legislatures in provinces where they are granted the right to vote. We feel that the right to vote ought to include the right to be a member of the legislatures."

Grateful Owners Pay Doctor to Save Life of Heroic Cat

TACOMA, Wash., Oct. 14 (A.P.)—Blue Bell, a Persian cat that saved the lives of six persons in a fire, is recovering from a surgical operation undertaken to save her life.

The operation was ordered by Mr. and Mrs. Carl V. Hall, owners of the cat, on advice that in no other way could Blue Bell's life be prolonged.

"She saved the lives of all the members of my family," said Mr. Hall, and I owe it to her to do everything possible for her."

It was on July 8 last that the cat aroused Mrs. Hall by jumping on her bed and scratching her into wakefulness and the knowledge that the house was on fire. Mrs. Hall awakened her husband, and the four Hall children were hustled out of the house less than three minutes before it collapsed.

Methodists on Oct. 15 Will Honor Bishop Asbury

WASHINGTON, Sept. 25 (A.P.)—A bronze statue of Bishop Francis Asbury, pioneer Methodist in this country, will be erected here with appropriate ceremonies Oct. 15. Augustus Lukeman, of New York, is the sculptor. Representatives of various Methodist churches over the world have been invited, and a reception will be tendered them on the eve of the unveiling.

The statue, which is to cost some \$60,000, has been cast in bronze and will portray the militant bishop seated on a horse, with a saddle bag containing books and articles of clothing, as he travelled in the flesh from the coast to the western edge of the wilderness preaching the gospel.

Francis Asbury came from England to America in 1771, by appointment of John Wesley, to do missionary work.

Terms of Canada's Australian Trade Treaty Announced

FISH, GLOVES, MACHINERY AND PAPER GO INTO AUSTRALIA UNDER BRITISH PREFERENCE.

BENEFITS GAINED BY COMMONWEALTH.

LONDON, Oct. 2 (Canadian Press)—The High Commissioner for Australia announces as the main terms of the proposed Canadian-Australian tariff agreement:

"Certain goods of Canadian origin, including fish, gloves, machinery and paper imported into Australia will be given the benefit of the British preferential tariff, while others consisting of iron and steel tubes or pipes, goldfishes and vehicle parts will enter under the intermediate tariff."

"The proposed British preferential rates render machinery free compared with ten per cent. under the present rates. Certain classes of printing paper also will be free compared with the present rate of 43 per cent. Gloves (textile only) will be subject to ten per cent. ad valorem compared with the present rate of 25 per cent."

Regarding the other side of the agreement Canada will grant Australia the British preference on fresh meat, canned meat, hard tallow, eggs, butter, cheese, onions, raisins, currants, dried fruits (not otherwise provided for), canned fruit, and vegetables, plus gelatine, seaweeds, pears, quinces, apricots, nectarines, honey and eucalyptus oil.

"Canada will amend the tariff on these items so as to increase the preference. Australia will also get the same rate as France regarding wines and brandy."

The Quebec division of the Canadian Manufacturers' Association is without any information of any kind on which to base an opinion with respect to the Australian trade treaty.

Interest is manifested in many branches of industry, according to an official of the association in Montreal, but apparently, it was stated, it is impossible to acquire any definite information on any of the points involved. "All we have to go on are the vague reports sifting through the press," Montreal Daily Star.

Shifting Desert Sands Threaten Western Town

LOS ANGELES, Oct. 14 (A.P.)—Kelo, a community of about 500 people situated on the Mojave desert, northeast of here, is threatened with destruction by the shifting sands of the desert.

Three years ago a huge pile of sand, approximately half a mile square, was noticed drifting near Kelo. Constant winds, blowing across the town and into the hot pit of Death Valley, a few miles away, were slowly moving the sand toward Kelo. The winds still blow, and it is believed that at

the rate the dune is moving it will cover Kelo with 50 feet of sand within the next five years unless the preparations being made to ward off the menace are successful.
