Winnipeg, April 25. — Opening of navigation was officially declared today at 9:40 a.m. by the council of the grain exchange. Demand for wheat was probably somewhat more active in view of this fact, while prices were considerably firmer, influenced by steady Liverpool cables, and a good demand for Manitoba wheat there.

Private reports state seding is progressing rapidly in Western Manitoba, Saskatchewan and Alberta, while in the Red River Valley it is being delayed and is not expected. Nearing the close the market gained strength owing to shorts covering.

Wheat opened %c to 1/2c higher and Wheat opened %c to ½c higher and closed %c to %c higher.

The cash demand for all grains was improved, while export inquiry was inactive.

Cash wheat closed %c higher for contract grades. Cash oats closed ½c to %c advance. Cash barley closed unchanged to ½c higher. Cash flax closed %c higher for all grades.

London, April 27.—There was a smart recovery on the London Stock Exchange, the press. recovery on the London Stock Exchange today, under bear covering on the news that Provisional President Huerta had accepted the proffered mediation of Argentina, Brazil and Chili. Mexican Railway Company shares rose from 3 to 5 points, while Americans were from 1 to 2 and Canadian Pacific 4 over parlty. Continental favorites also improved, but British securities were depressed by the clouded state of conditions in Ulster. A reaction occurred in Mexican rails at noon, when they fell a point on realizations.

against the "foreign invader." The capital is quieting down and there is no longer a rush of Americans to get away. A special train has been arranged to leave tonight with Americans desiring to leave, but not a few Americans, after inscribing their names on the roster of departure, reconsider-

ed and have decided to remain. There was little to differentiate yesterday from other Sundays in the Mexcan capital. The city was quiet and orderly and Mexicans in general were most considerate toward Americans remaining here.

The churches were crowded and the streets presented their customary anmated appearance. Nearly all the American stores have reopened and the stores owned by persons of other nationalities have removed their shut-

CARRANZA FAVORABLE. Reported utterances of one of Carranza's confidential agents that the constitutionalist leader would make no statement on the proposal of the South American diplomats but that "the offer is a hopeful sign and any proposition that looks to peace is acceptable to the constitutionalists" added to hope in Washington that the crisis might simmer to settlement. From Chihuahua, Carranza had ordered his officers to redouble their attack on Tampico and apprehend federals responsible for affronts to the United States at that port, so they might be tried by a reliable court. It was reported that Carranza had been asked for a statement of his attitude on cer-

tain questions. SOME ARRESTS. While fears over the safety of Amercans in Mexico City were partially dissipated by Secretary Bryan's announcement that Huerta officials and Rear Admiral Fletcher had arranged for the departure of United States citizens from the Federal capital. Consul Canada reported that more than a score of American refugees, among them United States Consul Schmutz, had been hauled from a train at Aguas Calientes, north of

Mexico City, and imprisoned. It was

said however that the arrest might have

occurred several days ago. The consul's informant said federal soldiers made the arrests.

While diplomats and the President and his advisers labored in Washington over new developments in the situation, Brigadier General Funston, with a renforcing phalanx of infantry and artillery, was nearing Vera Cruz, and Rear PRESIDENT PLEASED Admirals Badger and Fletcher were toiling in preparation for any eventuality. They had quieted the town, placed it under martial law and were preparing for the reception of General Funston who immediately will take charge of all the American forces about the seaport. He 111/2 will have at his disposal about ten ference with newspapermen, owing to the Spanish Minister Riano, in charge of

thousand fighting men-infantry, artillery, marines and bluejackets. MUNICIPAL WORK.

No ill effects of th torrid temperatures of Vera Cruz had been reported among the American forces. Under martial law the business of government in the city was resuming, with municipal authorities at their posts. The Federal officials decided they could not work under American supervision, and that was one of the tion and purpose to extend to the inhabitants of the territory as much participation in the government as is practicable with due consideration for the ends to be hereby accomplished." There will be no additional imposts "except when required by unusual exigencies" and if any surplus remains after the city's expens-

es have been paid it will be entrusted to

treasurer. MANY MORE FROM CAPITAL. Vera Cruz, April 27.-There was rejoicng here today, when word was received from the British minister, Sir Lionel Carden, in Mexico City, that Gen. Huerta had agreed to permit another refugee train to leave the capital, and that 250 foreigners, including Americans, would arrive in Vera Cruz tomorrow. Next in importance to these developnents was the expected arrival of the brigade of troops commanded by Gen. Fred-

AVIATORS BUSY.

Because of the delicate nature of the egotiations and the number of lives which may depend upon them, it is conidered probable here that no extension of he lines already established by the Amercans will be attempted while the negotiations are pending. This will become a matter for Gen. Funston's decision, however, upon his landing, since Admiral Fletcher has already been advised that the general is to have supreme command ashore. There was great activity today about the aviators' camp near the bathing beach, where the smooth water of the nner harbor affords every facility for arising and landing. Should the machines be required later, the aviators are ready for service, and are busy studying maps of the surrounding territory.

ALL NATIONS ANXIOUS About the central plaza of the city, where the small park, brilliant with tropical growths, is surrounded on two sides by sidewalk cafes of Parisian appearance. he scene is an animated one from early norning until late at night.

The gathering represents every activity in the interior of Mexico in which Europeans have had a part, and many of the British subjects still wear a little Union Jack pinned to coats or dress froits. Anxiety knows no nationality. British and Germans fear the wrath of the Mexican mob will make no distinction between those of white skin, and that all vill share the common fate as Americans if an uprising should occur. As the days pass and the exodus of refugees from coast points continues with no reports of violence, hope among those gathered here is growing that loss of life will be averted and damage inflicted only in a financial

STILL ATTACKING TAMPICO. Washington, April 27 .- Constitutionalsts. at Tampico are continuing their attack on the city, according to a dispatch from Admiral Mayo received at the navy

department today. 'The American consul at Tampico." the dispatch continues, "is now on board the Dolphin, with the consular force on the Des Moines. The North Dakota had arrived at Tampico, and general conditions are reported as unchanged.

All Americans Are to be Permitted to Leave the Capital.

[Canadian Press.]

Berlin, April 27 .- Germany, England and rance have advised Provisional Presiden Huerta, through their ministers in Mexico City to accede to the demands of the United States, according to an announcement made here today.

ALL AMERICANS LEAVE.

Washington, D. C., April 27 .- After con erence with President Wilson today, Secretary Bryan announced that all arrange ments had been completed to permit al Americans in Mexico City to leave there Seven hundred American men and women are preparing to go, comprising the last remnants of the American colony.

PEONS MAKING PROFIT FROM THE REFUGEES

Bringing Chickens, Eggs, Etc. in Their Arms to Vera Cruz-Ice Is Scarce.

[Canadian Press.]
Vera Cruz, April 27.—Vera Cruz stores are doing a thriving business, supplying those who fled leaving everything behind. The cafes are reduced to meagre bills of fare to meet the demand. Ice is at a premium, and restaurants are striving to reopen trade with truck gardeners and dairies to the southward. flecking to the city daily, their arms laden with live chickens and eggs, carried for miles to get the unusual prices which prevail here. City hotel accommodations are strained to the limit to care for the influx of refugees, and the American officials continue today their efforts to induce the women at least to go to the United States. The steamer Mexico carried over five hundred when it sailed for Galveston last night, and when enough desirous of making the trip are gathered, another ship will follow.

Capt. Stickney, of the Prairie, now is making good progress in straightening out the custom house tangle. He found desks rifled of many papers, presumably by departing Federal officials, but believes cials might clear their own accounts rather than to embarrass the Americans. At the ancient fortress San Juan de Ulloa the Mexican flag is still flying, and the Mexican commandant is still in control of 80 armed soldiers and 500 prisoners, many of the latter most desperate criminals. A narrow causeway connects the fortress with the shore, and this is constantly guarded, being covered by a field piece and a machine gun, making a guard in the fortress unnecessary.
