Rum Runners Are Preparing For Real War

Associated Press Despatch. St. Albans, Vermont, July 24.— The rumrunners are getting ready for war. A high-powered road-ster that had come down from Canada with a cargo of beer was found to have been provided with a shield for the driver against gunfire when it was brought here today by prohibition enforcement agents. Examination showed that the cowl had been built up with sheet-iron. The agents, mounted on motor cycles, had run the car down near Montpelier. The driver escaped. The sheet-iron cowl was

regarded as a recognition of armed

warfare between rum-runners and

prohibition officers.

Sentence.
