MACGREGOR URGES CHURCH DISCARD OLD IDEAS OF WAR

London Minister Addresses Presbyterian Synod At Woodstock.

Special to The Advertiser. Woodstock, April 30.—Rev. D. C. MacGregor of London told the members of the Hamilton and London Presbyterian Synod in this morning's session at Knox Church, that a recent meeting of London laymen demonstrated that there was no question but that men were discarding their old ideas concerning war. "It is time for the church to act now to create an opinion against war," he said. Mr. Lawes, an elderly gentleman,

arose from his seat and requested the forbearance of the members of the synod, while he spoke. "My grandson's attended High School," he said, "and despite their reluctance they were put through drills which created the very impression the synod wished to destroy. It's a wonder people couldn't use more common sense. Rev. Dr. L. B. Gibson of Woodstock declared that preparation led to war. "Nations unprepared won't enter war," he said. "I am absolutely opposed to the maintaining of a huge military system, and the military training in collegiate institutes and high schools. The church glorifies the great military leaders, who are held up to our boys as examples of truly famous men. "Personally I don't like the hymn, 'Onward, Christian Soldiers.' The words 'marching as to war' are offensive to me." Gloried in Bloodshed. Col. Beattie, in a brief address, scored the statements made by previous speakers to the effect that the high military men gloried in bloodshed. Rev. Dr. Coburn, speaking in favor of disarmament, contended that the men who have returned from the past

war now rise up and say: "We played the fool." "War wrecks our ideals, morals and material resources," he said. "All nations have the same reasoning ability as ourselves." Rev. Mr. Matheson, mover of a resolution favoring disarmament, said that he had a son sleeping in Flanders fields, whom he told that this was the war to end war. I made that pledge and intend to keep it. Dr. MacElroy, speaking on the question of retrenchment in missions, said the women had had to face the same difficulties as the men. Yet they had underwritten their missionary report. A number of women, who had heard of the necessity for retrenchment if more money wasn't subscribed for foreign missions, assured the board of general missions of their support in carrying on this great work. Rev. A. W. Shepherd presented a very encouraging report on the finance committee which showed expenditures of \$3,388.30 for 1923, and a balance on hand of \$607.20. This is an increase of \$407.16 over the balance of 1922. The committee reporting on the resignation of Dr. Radcliffe, in behalf of the government, extended a hearty welcome to the overseas visitors.

cupy the position. The moderator, Rev. Robert Martin of Stratford, in a few words, expressed his appreciation of the courtesies extended the synod by the people of Woodstock, and the trustees of Knox Church, who had so kindly lent the auditorium. The press members of Woodstock and London were thanked for the generous publicity secured for the synod. The synod met the last Monday in April, 1923, in King Street Church, London. Adjournment was made shortly after 12 o'clock at noon today.

INTERNATIONAL ROTARY CHIEF ARRIVES IN LONDON

Associated Press Despatch. London, April 30.—The Rotary Club of London at a luncheon today welcomed Guy Gundaker, Philadelphia, president of the International Association of Rotary Clubs; Frank Mulholland, Toledo, Ohio, former president, and other officials of the international organization, who arrived in London today in the course of a visit to the British clubs. J. R. Clynes, deputy leader of the House of Commons, in behalf of the government, extended a hearty welcome to the overseas visitors.

GOVERNMENT TO REFUND TAX ON UNSOLD GOODS

Hon. J. A. Robb, Acting Minister of Finance, Makes Big Announcement.

ON THE SAME BASIS

Rolled Iron, Steel For Implements, Shovel Handles Are Placed On Free List.

Canadian Press Despatch. Ottawa, April 30.—Sales tax already paid on manufactured implements of production still in the hands of manufacturers and dealers will be refunded, Hon. J. A. Robb, acting minister of finance, announced today when he tabled a number of additions to his budget resolution, chiefly benefiting manufacturers of implements and of steel.

The resolutions provide for the reduction of the sales tax, in line with the original reductions, on implements fabricated before the budget was announced. This is to place the Canadian seller on an equal basis with United States dealers, who pay no sales tax in their own country.

Shovel Handles on Free List. Shovel handles and stems are placed on the free list. These, it is understood, are all imported from the United States. Rolled iron and steel, which goes into the manufacture of implements, also is placed on the free list.

As a concession to the steel manufacturers, ingot molds, which now are taxed 5, 7½ and 10 per cent, are reduced to: British preference, free; 5 and 7½.

Concessions On Slag. Concessions are also made on slag and similar material for blast furnaces and smelting operations. The duty on fire brick also is to be reduced.

Other articles exempted from sales are: Fire brick, ingot moulds and articles used in the smelting of iron ore; taploca, lap welded tubing not less than four inches in diameter for water, oil and natural gas wells.

Materials for the manufacture of fertilizers, dry materials to be used for the same purpose as spraying. Sales tax on cross-tied railway ties is cut in half.

The value of imported matches and imported playing cards will include excise duty. This change will make the same system of valuation on imported as on domestic matches and playing cards.

Licenses Authorized. All wholesalers and jobbers are authorized to take out licenses provided they give the necessary security for payment of the tax and other requirements. This change will put all wholesalers and jobbers on the same basis.

In addition to wood handles for shovels, machinery of a class not manufactured in Canada for handling iron ores and other materials to be charged into a blast furnace is placed on the free list.

The new provision also specifies a drawback of 99 per cent on materials which entered into the cost of agricultural implements on hand or in process of manufacture in possession of the manufacturers and unsold on April 10. There is also a similar drawback on all materials entering into the cost of cyanide of potassium and cyanide of sodium.

The reduction on racing shells is in the British preference, which is reduced from 15 per cent to 5 per cent. There is no change in the general tariff.

KINDERSLEY WILL ORGANIZE BANK

Famous British Financier To Aid in German Reorganization Plans.

Associated Press Despatch.

Paris, April 30.—Sir Robert Kindersley, noted British banker, British member of the experts committee, was appointed today by the reparation commission as an expert to take part in the organization of the new German bank of issue to be set up under the Dawes plan.

Sir William Acworth and M. Lever, who did most of the work in the expert committee report, were named as members of the committee for the organization of the new German railroad commission. As representatives of the allies on the committee on industrial demerit, the commission chose Dr. Alberto Pretelli of Italy and Alfred Descamps, banker, of France.

Sir Robert Kindersley's nomination, which has been a foregone conclusion for several days, is considered as likely to prove quite acceptable to France, as well as to the other allies.

AUTO IS SEIZED.

Special to The Advertiser. Petrolia, April 30.—Police Officer W. Ballie seized a car when he found liquor hidden in it. The owner of the car lives in Sarnia, and it is alleged that he was selling liquor in Petrolia on the night he lost his car.

LADY WILLIAMS-TAYLOR, wife of Sir Frederick Williams-Taylor, general manager of the Bank of Montreal, while visiting with friends near Charlottesville, Virginia, was robbed of jewels, furs and lingerie valued at \$60,000. Fortunately, she was wearing a diamond cluster ring valued at \$60,000, which thus failed to fall into the robbers' hands.

EFFORTS OF ANTIS ARE ON DECREASE, BEATTIE STATES

Pastor of First Presbyterian Declares Union Bill Gaining Favor.

REFERS TO VOTE

If the vote of the London and Hamilton Presbyterian Synod, taken at a meeting in Woodstock yesterday afternoon, in which 126 were for the union with 59 against, can be taken throughout the country, it is evident as any criterion on the matter that the church union bill, despite the work of the anti-unionists, will meet with success.

Out of the large number of elders who attended the Hamilton-London meeting, only nine voted against the bill. The London Presbyterian vote on the bill was 35 to 8 for union, and in the opinion of Col. W. Beattie, the anti-unionists in the London district were given a decided setback.

Col. Beattie stated that at the last meeting held in London the vote was 30 to 18, and how those who oppose the bill can say that the unionists are losing ground he is at a loss to explain.

"I believe," stated Col. Beattie, "that the result of the vote taken yesterday is a fair basis on which the feeling of the Presbyterians throughout Canada may be judged, and that the efforts on the part of anti-unionists is on the decrease."

"The vote goes to show," he said, "that the church union bill is gaining favor in both the London and Hamilton synods."

Refers to Clause. In reference to the clauses brought in by the meeting dealing with the churches' stand on war, he said that the trend of the resolution was too indefinite. While he agreed with several clauses of the resolution, he did not see that the church could do other than prevent war in so far as they were able.

Dr. D. C. MacGregor, who also returned from the meeting last night, stated that the time was no better than the present for the church to create public opinion that would make war impossible.

Resolution. The resolution adopted by the London-Hamilton Synod at its meeting in Woodstock on Wednesday, April 29, by a vote of 126 to 59 is as follows:

"Whereas, after many years of consideration and discussion the Presbyterian Church in Canada has decided to unite with the Methodist Church in Canada and the Congregational Church to constitute the United Church of Canada.

"Whereas application has been made to the Parliament of Canada for legislation to incorporate the United Church in Canada, this synod of Hamilton and London respectively petition the synod and the honorable House of Commons of Canada to pass the bill respecting church union now before them without interference with its central principles."

EXPENDITURE ON HUDSON BAY RY. IS \$14,459,941

Canadian Press Despatch. Ottawa, April 30.—The capital expenditure to March 31, 1923, on the Hudson Bay Railway was \$14,459,941. The sum of \$6,250,000 is the estimated cost of finishing the road exclusive of terminals or harbor developments. This information was given to E. W. Tobin, Liberal, Richmond-Wolfe, in the House of Commons, this afternoon. Mr. Tobin was told that there was no specific authority under the Dominion lands act for the sale of land for the purpose of Hudson Bay Railway construction, but that the provisions of that act. The net amount collected on pre-emptions sales up to March 31, 1924, was \$15,384,134, and from purchased homesteads \$3,146,421 or a total of \$19,530,555.

BIDS ON STEEL ASSETS LAID OVER TO MONDAY

Associated Press Despatch. Buffalo, April 30.—At the request of representatives of Steel's Consolidated Inc. prospective bidders for the remaining live assets of the L. R. Steel enterprises in the United States and Canada settlement of the Steel affairs was put over until Monday by Referee in Bankruptcy James Persons this afternoon.

Do you really enjoy life?

Your work, your thoughts, alert and sparkling wits, happy social intercourse, and the exercise of your physical strength — all these should be a joy to you in the springtime of the year. Worry, sluggishness, indifference, and depression are all a question of health — health's everything!

A sensation of delicious freshness, a consciousness of alert and sparkling wits, happy outlook, high spirits, sound sleep, hearty appetite, renewed energy, vigour and vitality — in short, the abundant mental and physical joy of sheer good health is the reward of those who take a pinch of Kruschen Salts in their breakfast cup of coffee or tea every morning.

Kruschen Salts

Good Health for Half a Cent a Day

The ingredients of Kruschen Salts are necessary for healthy life. Your body must, if necessary, obtain these ingredients from somewhere, or you could not live. Normally your system should extract these vital salts from your food — meat, bread, fruit, vegetables, milk, eggs, and so on; but as a matter of fact, owing to impaired digestion, errors of diet, overwork, anxiety, worry, sedentary occupation, and many other causes, your system does not extract from food the correct proportions of these essential life-giving salts.

And what follows? Depression, or headache, or constipation, or disordered liver, or inactive kidneys, or rheumatism, or gout.

Good health for half a cent a day.
