Press Despatch. New York, Feb. 27.-Prices of stocks yielded to a sharp attack late in the session today, and the market leaders were carried between one and two points Mexican Central. 26% below last night. It was reported that the banks were calling loans and presumably forcing some liquidation, but active covering at the dealers in the covering at the co sumably forcing some liquidation, but active covering at the decline indicated that stort selling had played a part in the break. The serious inroads upon bank land, but the dealings in Wabash were by a few room traders who dealt with each other on a large scale. With the sturplus reserves of the banks down to about \$5,000,000 last week and with a a million of that amount, it will be seen that a serious condition will confront the New York money market unless serious offset to the reserve shrinkage has been effected by loan contraction. The action freeted by loan contraction. Preparations for the March settlement increased the pressure to-day, so that call loans were forced up to four per cent, before the close. Time money is firmly held at five per cent, for all periods. There is nothing to indicate early cessation of the interior demand for currents. The market closed irragular at Morning Glory.

New York, Feb. 27.—To-day's market was wholly animated by the chances of the passage of the Aldrich bill and by the chancing that will probably by made the showing that will probably be made by the banks to-morrow. Early Washington despatches were rather sanguine regard to the Aldrich bill; consequently although Americans in London showed losses, as compared with our closing or Thursday, our opening was strong and most stocks showed an upward tendency. The strength was mainly due to covering of shorts put out yesterday afternoon and to operations on the bull side ! the professionals, commission house business being conspicuous by its absence. The upward movement lasted almost to noon, one of the strongest stocks bein Wabash, preferred, but after lunch hou rices gradually yielded and at one patches from Washington, stating there was little or no chance that Aldrich bill would reach a vote in Senate to-day, and that consequently chances of finally passing congress at this session had materially decreased. A moderate rally took place towards the close, but the whole list, with few ex-ceptions, showed losses, as compared with yesterday's final quotations. It is esti-mated that the banks have lost to the sub-treasury and to the interior some

Grand Trunk was wavering and dealings in this stock restricted, pending the January statement. Rio Tintos reacted. Kaffirs fluctuated. The month-end preparations accentuated the stringency of Monday's market to-day.
