NEW YORK WRITER BOOSTS CANADA

Former Winnipeg Girl Says the Dominion Has Call—Great Possibilities Before It.

Winnipeg, July 24.—"Wake up Canada." This was the clarion call brought to Winnipeg by a former Winnipeg girl, Miss Agnes C. Laut, now a New York financial writer, who came here to visit with friends before "roughing it" on vacation, on Mackenzie River. Incidentally Miss Laut hinted with a significant flick of the right eye, that "You never can tell when a person will stumble on virgin oil fields."

"If Canada pulls together, if labor and capital and east and west bury their grievances in staunch unity of war days, this Dominion will see a prosperity boom not even dreamt of by real estate dealers."

She said: "There's a panic coming in the United States. It may come all of a lump; it may come in germs. But the handwritings are on the wall. Factories are cutting down to two days a week schedules, and banks are calling in their paper. With hard times this winter, American labor, hundreds of thousands of skilled men and women, will look about for employment. Europe is impossible and Canada offers the only field. American capital, too, must inevitably turn to the Dominion at least \$100 millions of American money should come here in the next few years. But Canada today is thinking in small down figures, when the world demands billion-dollar programs. The mines here are sending out a third of what they should; shortage of labor will mean a one-half crop in the east, and a three-fourths crop here in the west."

"In ten years the United States will not produce enough grain to feed its people. Either Canada or the Argentine will get the grain trade."

IS THE PICTURE OF HEALTH, NOW

Dartmouth Woman Gets Rid of Indigestion and Gains Twenty-Three Pounds.

The story of how a young wife, who for four years has been a martyr of indigestion and its attendant evils, has been restored to perfect health and strength again, is one of the most pleasing which it has been our privilege to publish. The following statement was made by her husband, Mr. Edward Ford of 34 North street, Dartmouth, N. S., who is employed by the Imperial Oil Co., in Halifax, a few days ago.

"This is the seventh bottle of Tanlac that I have bought for my wife, and I am more than gratified with the results. It may seem hardly credible but nevertheless it is true that she has actually gained twenty-three pounds in weight and is in better health today than she has been for years."

"For four years now she has been a sufferer from indigestion and stomach trouble. She was never able to eat a meal without being in misery for hours afterwards. She had to force herself to eat in order to live, but whatever she ate only caused her pain and distress. She was also subject to severe sick headaches, and her nerves were so bad that she couldn't sleep at night but would wake up every few minutes and many a night would hardly close her eyes at all. I am safe in saying that she hasn't known what it was to be really well for a single day during the past two years and for over a year now she has been in such a weakened, run-down condition that she couldn't do her housework and was only just able to get about."

"American capital must come to Canada to develop oil, timber, and mineral resources. Canada will benefit by it."

about able to keep up and about. She had fallen off until she only weighed

HON. C. MARCIL'S HOUSE BURNED

Fire Completely Destroys Building With All Its Contents.

On Monday Hon. Mr. Marcil's house at Carleton, P. Q., was completely destroyed by fire with all its contents. Mrs. Marcil was alone at the time, in the house and was engaged in heating a little tar on the kitchen stove. The soder on the can or kettle becoming too hot melted, the bottom dropping out of the can and permitting the tar to run over the kitchen floor. So rapidly did the flames spread that it was impossible to save any of the household effects. Houses in close proximity were saved with much difficulty, some of them caught fire three or four times. A spark from the Marcil building ignited an old unoccupied grist mill about one half mile distant, which building was totally destroyed.

a hundred and one pound and was almost a wreck.

"None of the many medicines prescribed for her ever seemed to meet her case, and at last in sheer desperation I decided to give Tanlac a trial. Its effect was immediate and truly marvelous. The indigestion and stomach troubles were soon overcome. Before long she had a keen appetite and found that she could eat meats, fruit or vegetables without having to suffer from it afterwards. Her nerves have got steady and strong and she can now sleep fine. As I said before, she has gained twenty-three pounds in weight, and is so much stronger that she can now do all her own housework. To-day she is the picture of health, and I have to thank Tanlac for it."

Tanlac is sold in Campbellton by THOMAS WRAN, Druggist; in Jacques River, by S. McALLISTER; in Archibald Settlement, by M. SMEARER; and in Chandler, by ARTHUR NADEAU.

PRESENTATION TO REV. AND MRS. JOBB

Congregations of District Retiree Retiring Clergymen And His Wife.

The Presbyterian Congregation of New Mills, in its various sections, last week testified in no unimpeachable manner their good wishes and esteem for Rev. F. L. Jobb and Mrs. Jobb, who leave this week for their new field of labor in Morewood, Ont. The expressions of appreciation of the fine work of the minister, ably seconded by his wife, were cordial and warm. Rev. Mr. Jobb has been minister of the New Mills Church for eight years and under his pastoral charge the congregation has greatly grown and prospered.

One evening last week a large company, representing the New Mills and Black Lands sections of the congregation, assembled at the Manse, where an address was read on behalf of the people by William C. Hamilton and following this another by Miss Ruth Hamilton, the latter for the young people of the Sunday School and Mission Band. Both addresses spoke of warm and deep appreciation of the splendid work done in the congregation by Mr. and Mrs. Jobb, who had been unceasing in their efforts for the welfare of the people and the up-building of the congregation in its varied interests. The addresses were accompanied by envelopes containing tangible expressions of the regard of the people. Appropriate replies were made by Mr. and Mrs. Jobb.

On a subsequent evening a similarly pleasant assemblage of the people of Archibald's Settlement took place in that section of the congregation, where also there was an address and presentation. It is understood the envelopes contained about \$200.00.
