

NON-OFFICIAL PART.

EVERYBODY'S AIR-BRAKE.

"Yes, sah," said Uncle Zach, "I see watched it forty years an' it's as I sez: De fust of May an' Christmas day of de same year allers comes on de same week day."

Further conversation proved Uncle Zach a most incredulous person. Changing to mention Dr. Carver's feat of breaking glass balls with a rifle, he said:

"I heerd 'bout that shootin' and knowed right off it wasn't squar'; dat was a Yankee trick, boss, sho's you born."

"What was the trick?"

"Dar wuz loadstone put into de glass balls, an' likewise onto de bullets; so when the bullets fly outen de gun, it an' de ball jes drawed 'ergedder, which, in course, brokes de glass—dats de trick!"

Later, Uncle Zach observed a rope running along the side of the car.

"Boss, what's dat line fur?"

"To apply the air-brake in case of accident." Then we had further to explain how the force of the brake was obtained, to which Uncle Zach responded:

"Look a here, boss, you sholy don't 'speat me to b'leve dat foolishness? Why, de biggest harricane whatever blowed couldn't stop dis train, runnin' forty mile a hour. An' you think I gwine to b'leve a little pipe full of wind under de kyars can do it? No, sah-ree!"

There are a great many Uncle Zachs who judge everything simply by appearances. The air-brake does not seem to be a very powerful thing, but power and efficiency are not necessarily equivalent to bigness and pretense.

Philip Beers, Esq., who resides at the United States Hotel, New York City, and is engaged in raising subscriptions for the New York World Bartholdi pedestal fund, was once upbraided by a distinguished relative who was a physician, for commending in such enthusiastic terms, a remedy that cured him of Bright's disease eight years ago. He said: "Sir, has the medical profession with all its power and experience of thousands of years, anything that can cure this terrible disorder?" No, no, that is true, there is no mistake about it but that Warner's Safe Cure is really a wonderfully effective preparation. That remedy is an "air-brake" that every man can apply and this fact explains why it has saved so many hundreds of thousands of lives.—Copyrighted. Used by permission of American Rural Home.

FRANK SIDDALLS, the greatest Philadelphia advertiser, is reported to have lately remarked, as a fact worthy of comment, that he had never had a personal application for patronage from the Newspaper Advertising Bureau of Geo. P. Rowell & Co. of New York. The reason for this may be found, not in the fact that Messrs. Rowell & Co. do not want business or are unwilling to drum for it, but that they find a cheaper and more efficacious way of securing patronage is to keep their names before the public by using the advertising columns of the newspapers. Doing this they attract those advertisers who wish their services, and avoid annoying or wasting the time of those who have not yet arrived at that conclusion. The newspaper is the most persistent and at the same time the best mannered of all advertising canvassers.

BEET-SUGAR INDUSTRY.

A gentleman who, for the last 15 years, has been technical manager of large beet-sugar factories in Germany, wants a similar position. Being up with the latest contrivances and improvements, he is capable of gaining the best results as to producibility. First-class references can be furnished. A letter addressed to 240 B West Chicago Av., Chicago, Ill. will meet with prompt attention from JULIUS FENNER.

SARGENT'S CELEBRATED LOAD-LIFTER

This labor-saving machine has proved a success for the past three years. The load with the rack can be elevated to any height required. Thousands are in use in various places. This machine has been awarded all first prizes and diplomas. Beware of infringement. The rack can be raised by a man as well as by horse-power. Any party wishing a load-lifter from different parts, who do not know the agent for that district, or any person wishing to buy a "right," will apply to the patentee.

Sargent & Ruddell have combined their respective patents, which will defy competition for the practical use of this celebrated machine. Parties desiring the like would do well to send for circulars before purchasing any rival machines.

WM. SARGENT, Berkeley P. O., Cal.
