## WITH THE TOMLINSON

(PATENT)

## BARREL MACHINE

One man and two boys can turn out

One Hundred and Fifty First-class Flour Barrels in Ten Hours,

made from veneered wood of two thicknesses. The inside is one solid sheet of veneer running around the barrel, making in reality one hoop from top to bottom, and in the outside thickness the grain is reversed, running up and down, finished with five hoops two inches wide, reversed again, making the barrel almost three thicknesses, which gives the package superior strength, tightness and durability over the ordinary hand made flour barrels, yet with all its many advantages cost less than the old style of package. My barrel machine is arranged to make all sized packages from a large barrel down to small mail kegs, butter packages and cheese boxes. I am open to prove at any time the superior strength of my barrel. That one will stand more hardship by any actual test than one hundred of the old ordinary flour barrels. County rights for sale, and all information given by applying to

Irish Canadian Office,  
Toronto, Feb. 21st, 1881.

Mr. F. CUMMINGS,  
Dear Sir,—The watch I purchased from you some time ago, has given perfect satisfaction, and I am much pleased with it, and can cordially recommend any person in need of a watch or anything in the jewelry line, to deal at your store. Yours very truly,

PATRICK BOYLE,  
Proprietor Irish Canadian.
