BERLIN, ONT., MARCH, 1900.

Old Series  
Vol. II, No. 3

## GLEANINGS

Garnered from the Philatelic Field.

Incorporated with a business letter recently received from one of our Michigan advertisers was the following :

“Congratulations on the bravery and pluck of your countrymen in South Africa. The hopes of all Americans are with their brothers the English in South Africa.”

Yours truly,

RELIABLE STAMP CO.

per R. H. Post, Mgr.

Such noble words bespeak the true American and are sincerely appreciated by Canadians.

In “Gerant” the Bay State Philatelist has an excellent contributor, his article on Advertising Rates in the March number is well worth reading.

Friend Brodstone sends out his Philatelic West with over 60 pages for February. We notice a fine new engraving for the cover title.

What can you offer us in the line of mss.?

We are offering ad. space at 10c per inch to anyone who has not advertised in ENERGY since Jan. 1st, 1900. This is in order to get you to try our columns. We are prepared to prove that over 1000 copies are printed every month. These go to the right class of buyers. It will pay you to try us. Look up our ad. in this issue.

Another new paper has just blown in from Peekskill N.Y., published by C. E. Cooley. We wish it all success.

Have you noticed the striking likeness between the half-tone of Mr. Sells' presented on the cover of the Philatelic West for February to the early pictures of C. W. Kissinger?
