

Some of the friends of the cause have acted injudiciously, in what we would call the ostentation of temperance. This has uniformly a bad effect; it rather arms opposition, than tends to conciliate. Besides a repulsive display of vanity, it is exceedingly lame policy. Were there uniformly unostentatious diligence—an utter sacrifice of mere self-consequence, for the sake of the cause to which we would secure prosperity; success, in greater degree, would attend our operations.

The above are a few of the circumstances which we reckon erroneous, on both sides of the question. To judge of it correctly, according to its own merits, all such things should be wholly thrown aside. In my next I shall therefore call your attention to the intrinsic claims, which the cause of temperance has to our regard. M.
