Ferrated Cod Liver Oil

Dr.
A. R. Pyne,

Dominion Analyst,
writes under date of
January 27th, 1899,

as follows:

"After making a very careful examination of a sample of Ferrated Cod Liver Oil, I have much pleasure in being able to recommend it as all its formula represents.

"As a ferruginous emulsion of Cod Liver Oil, containing Quinine and Strychnine, it cannot but commend itself to the practitioner as a compound most efficacious in administering to patients suffering from lingering and debilitating diseases more or less accompanied by deterioration of the blood constituents.

"From several experiments made by me, I consider it a perfect emulsion, in which its several constituents are held in suspension without danger of precipitation."
