

(d) The amount assessed to each of the States hereunder shall become due and payable on the first day of the year in respect of which the assessment is made; provided that at the discretion of any State, its assessment may be paid in quarterly instalments, in which case payments shall be made not later than the first day of each quarter.

4. (a) (i) On or before 1st September in each year commencing with 1950, each of the States shall furnish to the Council, in such form as the Council may prescribe, full particulars of actual flights by its scheduled air services using the LORAN Services and the Greenland Services respectively during the twelve months' period ending 30th June in such year, or such other period of twelve months as the Council may decide; together with such additional information concerning other aircraft movements and other relevant information as the Council may require for the purposes of this paragraph.

(ii) Upon receipt of the said information, the Council shall review the percentages set forth in paragraph (3) (b) (II) and, if it considers that they do not represent an equitable distribution between States, shall establish different percentages to take effect in substitution for the percentages therein set forth.

(iii) In carrying out the review, the Council shall be governed by the principle that the cost of operation, maintenance and development of the LORAN Services and of the Greenland Services should be borne in proportion to the aeronautical benefits derived by each of the States from the Services concerned, provided that the Council may take into account, so far as practical, the non-aeronautical benefits.

(iv) In determining the aeronautical benefits derived by any of the States, the Council may disregard any temporary reduction in the use made of the LORAN Services or of the Greenland Services by the aircraft of that State by reason of special circumstances arising within such State.

(b) If any of the States does not consent to assessment or fails to make payment of the amount assessed to it or withdraws from participation in this Arrangement, or if a State not listed in paragraph 3 agrees to participate in this Arrangement as provided in paragraph 12, the Council shall, to the extent appropriate, revise the percentages prescribed for the other States in paragraph 3 and the corresponding assessments. Such revision shall be carried out in accordance with the principles set out in sub-paragraph (a) (iii) and (iv) of this paragraph, provided that no State shall without its consent, be assessed, either for the year 1950 or for any subsequent year, for an amount exceeding the maximum specified for that State in sub-paragraph (b) (II) of paragraph 3.
