

this measure by my Government early last year, satisfactory discussions have been held with all the provinces and legislation embodying the Government's proposals will be placed before you in this session.

It is the aim of my Government to provide young people with the opportunities they are seeking for constructive service to the community, at home and abroad, and to that end legislation will be placed before you for the establishment of a Company of Young Canadians.

In accordance with my ministers' belief that public policy should be directed to ensuring that all Canadians can obtain needed health services, irrespective of their ability to pay, my Government last July announced its willingness to make fiscal contributions to provinces which provide programs of medical care meeting certain criteria. When discussions with the provinces have been sufficiently advanced, legislation to carry out this proposal will be placed before you.

To provide for the expected expansion of health services, my Government has announced its intention to establish a Health Resources Fund of \$500 million. You will be asked to approve a measure establishing this Fund.

While fully respecting the jurisdiction of the provinces in matters of education, my Government recognizes a pressing obligation to foster more effective development of the human resources of Canada by assisting the expansion of institutions of higher education, and by providing greater and more equitable opportunities for young Canadians to attend such institutions. A program of Canada scholarships and bursaries for students undertaking higher education will be submitted for your approval. Amendments will be proposed to the Student Loans Act. As an initial response to the acute financial difficulties encountered by the universities and colleges, you will be asked to approve a substantial increase in the federal financial assistance to universities for the academic year 1966-67. After discussion with the provinces, my Government will convene a meeting to consider continuing action in a manner that recognizes differences in the educational systems and institutions of the provinces.

Legislation on unemployment insurance will be proposed. You will also be asked to consider measures respecting the Fair Wages and Hours of Labour Act and Safety in Employment.

Arrangements will be made for you to decide the issue of capital punishment at an early date.

My Government intends to place before you legislation regarding Term 29 of the Terms of Union with Newfoundland.

My Government will propose legislation to amend the Canadian Citizenship Act, in order to ensure equality of rights for all citizens; legislation to make collective bargaining available to the Public Service; legislation revising federal superannuation and pension plans to integrate them with the Canada Pension Plan; legislation to remit to provincial governments 95% of corporation taxes on investor-owned electric utilities; a measure to help the development of a feature film industry in Canada; legislation to establish the National Arts Centre and measures respecting the National Gallery and Museums; the extension of the Export and Import Permits Act; and legislation to extend the construction period for the Trans-Canada Highway.

Other legislative proposals which you will be asked to consider will include amendments to the Judges Act, the National Energy Board Act, the Area Development Incentives Act, the Aeronautics Act, the Canadian Vessel Construction Assistance Act, the Yukon and Northwest Territories Acts, the Bretton Woods Agreements Act, the Atlantic Development Board Act, the National Housing Act, the Defence Production Act, and the Post Office Act. Further measures may be brought forward in the course of the Session as a result of inquiries now pending.

Members of the House of Commons:

You will be asked to appropriate the funds required for the services and payments authorized by Parliament.

Honourable Members of the Senate:

Members of the House of Commons:

May Divine Providence guide you in your deliberations.

The House of Commons withdrew.

His Excellency the Governor General was pleased to retire.

The sitting of the Senate was resumed.

RAILWAYS BILL

FIRST READING

Hon. Mr. Leonard presented Bill S-1, relating to railways.

Bill read first time.
