GRATEFUL—COMFORTING.

EPPS'S COCOA.

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of the well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.

Made simply with boiling water or milk. Sold only in packets, by Grocers, labelled thus:

CANADA PATENT FOR SALE.

NO. 30,065. DATED OCT. 30TH, 1888.

SAW MILL DOG
Will pay 250 per cent. Is entirely new, with no infringements. Sold cheaper and is less complicated than any other, either in the United States or Canada. The principal feature of this Dog is that by the motion of an eccentric lever the log, or cant, is drawn up square against the standard. Working model can be seen at Patent Office. Other patents are now pending. Will sell cheap. For further particulars, address
J. H. MINER, Baton Rouge, La., U.S.A.

RUBBER * STAMPS

WRITE FOR PRICES AND CIRCULARS.
EVERYTHING IN THE RUBBER STAMP LINE, GOT UP IN BEST STYLE.

This cut represents our New No. 4 Midget Band Dater, which is the most compact, simple and complete Dating Stamp yet offered.

It is on the same principle as our large "Standard" Self-Inking Band Dater, or the old reliable "Model" Band Dater, with the new and great improvement of being attached to a self-inking frame, which does away with the old, loose type-dates, some of which were continually getting lost, and it does away with the necessity of any pad, as the pad is attached to the stamp. It is truly the coming Dater for accuracy and convenience. The bands are self adjusting, and it has a new catch to hold the die and dates down while setting the dates or inking the pad. See cut.
