

ALREADY AN ASSURED SUCCESS.

Adopted for use in the Public and High Schools of Montreal.

Grafton's Exercises in Arithmetic.

Teachers and Educationalists all over are delighted with it. The Publishers beg to announce they will issue new numbers from time to time, the idea being to cover at least the work of the Elementary Schools.

These exercises are intended to supplement the exercises of the text-book in Arithmetic :—

To save the PUPIL setting down examples, in many instances involving longer time than is required to solve them.

To save the useless labor of copying from the blackboard.

To save the eyesight.

To inculcate habits of neatness and order in setting down his work.

To encourage the pupil to do more of his work mentally, using the pencil to record results only.

To give the brighter pupils abundance of examples to work while the teacher is helping the slower ones.

To save the TEACHER the time and labor of preparing daily a number of examples and of writing them on the board ; and

To afford a convenient form for assigning home-work.

Contents of No. 7 :

Exercises on the Simple Rules, Canadian Money, and Addition and Subtraction of Fractions.

80 pages of printed matter and 80 pages blank.

Price, 10 cents.

Contents of No. 8 :

The exercises in this book deal chiefly with the Multiplication and Division of Fractions ; they contain also a general review of Common Fractions and give considerable practice on the Simple Rules and Canadian Money.

80 pages of printed matter and 80 pages blank.

Price, 10 cents.
