SEEKING TENDERS FOR MT. PLEASANT

Controllers Approve Temporary Construction to Serve North Toronto.

WEAPON FOR SIR ADAM

Rival Transportation Would Hew Down Price of Metropolitan.

After a fairly lively discussion the board of control yesterday decided, on the motion of Controller Maguire, that plans and specifications be prepared at once for the construction of a temporary line of street cars on Mount Pleasant road and that tenders be called for. Alderman Ball was present with a deputation who urged that the work be proceeded with and that the council was under obligation to carry out the desires of the people expressed some years ago. During the discussion there was a sharp passage at arms between Controller Works .. Commissioner Harris, the latter asking whether the former obtained certain figures from him or clandestinely. The controller insisted that they were from the commissioner's report.

Alderman Ball said six years ago money was voted for a car line on the Mount Pleasant thorofare, but up to the present there had been no move to put that into effect. He took the position that there was no relationaship between the Metropolitan and the Mount Pleasant car line. The Mount Pleasant road was a subject in itself. roted on by the people, and the obligation was on the council to carry out the desires of the people. He took the ground that this was a growing a locality not served by transportation. With the construction of this line he would say that inside of three people tributary to that line.

Controller Cameron intervened to say, "We know all that you are telling us," and Alderman Ball replied, 'Apparently you know it, but there

Controller Cameron: You see nection between the Metropolitan and the Mount Pleasant line. I can assure you in my mind there is a very definite and vital connection.

Alderman Ball: In this district for one mile and a quarter people have to walk. There is no other section in the city of Toronto so inefficiently

Ballast Construction Answering a question by the mayor, Alderman Ball said, "We are not ask-

ing for a permanent construction. absolute nonsense to talk about that. We are asking for a ballast construction. Controller Cameron: Certain ob-

jections to the Mount Pleasant road there, but I know what Bloor street

Alderman Ball: I take the attitude there is no relation between the two. city of Toronto. We cannot see it.

Controller Cameron: I am going to support them both, but the Metropolitan first, the clean-up of Yonge street. could be bought now, led into the up very seriously with the Ontario cabinet, and getting a lot of support mark, "I suggest a sub-committee to see what can be the Metropolitan."

Controller McBride: Would you ask for. kindly bring down a proper report? Can you tell us the figures? privately.

Controller McBride did not want the to negotiate he made plain to the legislation.

Controller Cameron (interrupting): The legislation was promised us, and what he could do with the \$250,000 you did your work all right, just as available, replied: "I can spend it and good as a negotiator could do, but you then stopcame to a place where somebody said. Thus far shalt thou go and no far-The mayor: I told the board of

control we would have to wait on the Alderman Ball: The people have

voted the money. We are asking that the amount still available be No Committees For Him.

Concerning some remarks made, the major said, "If I had my way there would be no board of works or

deputation in connection with the ment?

Mount Pleasant matter, said the procity. We claim we have a right to transportation, and that you fulfil your pledges so frequently made on the platforms up there. I want to tell

DOCTOR'S FAMILY THRIVES ON GERMS

Dr. Fraser and Two Daughters Ate Diphtheria Bacilli By Million.

Coffee and pistols for two is, in the present age, too tepid a method to settle disputes; a duel with germs is the modern solution for the settle-ment of scientific argument and doubt. S. B. Fraser of Sherbourne street is a non-believer in the destruc_ tive power of germs and consequently sees no use for anti-toxins as preventatives against disease. He cla that five years ago he swallowed 50,-000 diphtheria germs in water but no disease followed. Growing bolder he followed. His two daughters. Maud and Bola repeated the set of experiments and did not suffer the slightes Ill health.

Dr. H. W. Hill, executive secretary of the Minnesota Public Health As sociation, has challenged Dr. Fraser to a duel to determine whether or not

off the disease.
