testimony thruout Canada, and, if re-

to be established, within six miles of a railway, the board, upon application of the owner thereof, direct him to pay into some chartered bank the country of such extension, and the railway company is then required to build the extension, recouping from such fund in the bank, upon orders from the text of its to be repaid to the manufacturer, by rebates upon his shipments, and for such repayment he is granted a lien trate the differences between us, either that the differences between us, either that the differences between us, either that we have not the preservation of Niagara Falls should be limited to the anthracite strike committee. We have made the reservation, however, that it must be a full committee, not a part of it.

"We regret that we have not been able to make a tentative agreement as to the preservation of Niagara Falls should be limited to the anthracite strike committee. We have made the reservation, however, that it must be a full committee, not a part of it.

"We regret that we have not been able to make a tentative agreement as to the preservation of Niagara Falls should be limited to the term of twenty-five years, and should also establish the principles applicable to all diversions or uses of waters adjacent to the international boundary able to make a tentative agreement as to the preservation of Niagara Falls should be limited to the anthracite strike committee. We have made the reservation, however, that it must be a full committee, not a part of it.

"We regret that we have not been able to make a tentative agreement as to the preservation of Niagara Falls should be limited to the anthracite strike committee. We have not been at the principles applicable to all diversions or uses of waters adjacent to the international boundary and of all streams which flow across the boundary.

"The following principles are suggested:

"It is all navigable waters the use of the principles are suggested."

It is a preservation of the principles are suggested to all diversions or uses of waters adjacent t such repayment he is granted a lien

Can Order Convenient Junctions. Another section requires that "where a company's railway crosses, joins or approaches (in the opinion of the board) sufficiently near to any other railway, our grievances." upon which passengers or mails are transported, the board may order the company to so regulate the running of its trains, carrying passengers or mails, sion be turned into a strike, and the places and times of stopping the same, as to afford reasonable opportunity for the transfer of passengers vailed all thru it. and mails between its railway and such other railway, and may order the com-pany to furnish reasonable facilities and ecommodation for such purpose."
Other provisions require facilities for the junction of private sidings or private branch railways, and this shall in-

clude the placing and moving of ears as required from and upon such private siding or private branch railway. Must Do as Told. and demurrage are to be dealt with in a

drastic manner.

But the most sweeping reform destroys by statute the division of terri-

tory and community of interest by which apparently competing lines are enabled to hold the shipper.

It is no longer for the railroads themselves to decide whether or not they will make connections. Any person, firm or municipality interested may now appeal to the railway commission to order connection to be made, with transfer of freight, mail and passengers and all appropriate facilities therefor. Hereafter, a railway may find itself in serious trouble if it discriminates against any community, or against local freight or passenger traffid.

Not only is the board of railway commissioners authorized to make the

commissioners authorized to make specific orders as to accommodation required, but it "may prohibit or limit the running of trains, or of any particular class of trains, on any railway or specified part thereof." The sleeping cars are also to receive

attention.

· A Queer Distinction. Strange to say, members of parlia-ment are made to ride in upper berths. One member related that he had laid down his \$2 and was about to receive the coveted pasteboard that stood for lower berth in the middle of the car.' when the agent spied his transportation "You have to take an upper," he said, and, instead of getting "lower six," he was relegated to upper twenty-two.
Mr. Emmerson was disposed to make light of this, but one member after another rose in his place and gave similar

SACRILEGE TO MAR SCENERY 25-YEAR TREATY ASKED TO LIMIT DIVERSION

International Waterways Commissioners Reach Agreement--Canada Gets Two-Thirds at Niagara and Half at Soo.

"In the opinion of the commission it would be a sacrilege to destroy the scenic effect of Niagara Falls.

"While the commission are not fully agreed as to the effect of diversions of water from Niagara Falis, all are of the opinion that more than 36,000 cubic feet per second on the Canadian side of the Niagara River or on the Niagara peninsula, and 18,500 cubic feet per second on the American side of the Niagara River, including diversions for power purposes on the Erie Canal, cannot be diverted without injury to Niagara Falls as a whole.

"The commission, therefore, re-commend that such diversions, exclusive of water required for do-mestic use or the service of locks in navigation canals, be limited on the Canadian side to 36,000 cubic feet per second, and on the United States side to 18,500 cubic feet per second (and in addition thereto a diversion for sanitary purposes not to exceed 10,000 cubic feet per second be authorized for the Chicago Drainage Canal), and that a treaty or legislation be had limiting these diversions to the quantities men-

The effect of the diversion of water by the Chicago Drainage Canal upon the general navigation interests of the Great Lakes system will be considered in a separate report ate report.

The above resolution, it was an nounced yesterday, was decided upon at the meeting of the two sections of the international waterways commis-sion, just concluded at Buffalo.

testimony thruout Canada, and, if retestimony thruout Canada, and, if required, in foreign countries as well.

But besides the general provisions, additional sections are added that deal with particular grievances and afford desired relief.

It is provided that where "an industry of business is established, or intended for business is established, within six miles of a to be established, within six miles of a to be established, upon application.

The committee had perhaps gone even farther than it should have gone, in endeavoring to bring about a peaceful settlement.

He told of the propositions made by both sides, and then said:

"We have offered to arbitrate all the demands we made upon them, or, in other words, we have offered to arbitrate the differences between us, either than it should have gone, in endeavoring to bring about a peaceful settlement.

"We have offered to arbitrate all the demands we made upon them, or, in other words, we have offered to arbitrate the differences between us, either than it should have gone, in endeavoring to bring about a peaceful settlement.

"We have offered to arbitrate all the demands we made upon them, or, in other words, we have offered to arbitrate the differences between us, either than it should have gone, in endeavoring to bring about a peaceful settlement.

"We have offered to arbitrate all the demands we made upon them, or, in other words, we have offered to arbitrate all the demands we made upon them, or, in other words, we have offered to arbitrate all the demands we made upon them are the connection to the above conclusions, did so upon the understanding that in connection the above conclusions are about a peaceful settlement.

"We have offered to arbitrate all the demands we made upon them, or, in other words, we have offered to arbitrate all the demands we made upon them are the demands are the told of the propositions made by George C. Gibbons, second-ed by Louis Coste:

Vast Differences Between Estimated and Realized Profits Admitted by Actuary--Fall in Rate of Interest One Reason.

P. C. H. Papps, the actuary to the Manufacturers' Life, was in the witness box all the time yesterday. The evidence he gave before the commission was of an exceedingly technical character, yet some illuminating disclosures were afforded concerning the disparity between estimates and actual results as regards surplus, a host of tables being exhibited.

"Well, we were trying to find out be tween this and last night whether or not policyholders are attracted by first premium policies," said Mr. Shepley when the commissioners began. "Is it fair to say that there is a loss in respect of the ratio which has been covered if it lapses at the end of the first year or the second year?"

"In some cases there will be," said Mr. Papps.

Mr. Papps.

"Assuming that you are computing the profits to which all policies are entitled, including the policies in respect of which this expense ratio has been incurred, will the profits so treated be affected by the large expenditure."

ture?"
"Not always."
"As I understand the law," said witness, replying to a question, "It requires the company to hold a reserve, based on 3 1-2 per cent, rate of interest with all policies issued since Jan. 1, 1900—when the act came into force, that computing the reserves of the company at the end of the year 1909 the reserves held from the old policies issued before Jan. 1, 1900, shall be computed at 4 per cent, interest basis, and the same old business at the end of 1914 shall be on 3 1-2 per cent, interest

"There is no requirement in the statute that you shall await the end of the two periods before altering your reserve. Before asking you what your company has done, let me ask you to give a statement of what the different kinds of policies which your company deal with?"

Various Sert of Policies.

"We show all regular plans of insurance, but I will name as many as I can. There are the whole life policy, payable by annual payments thruout the whole of life, the same policy limited by a number of years, endowment insurance policies thruout the term of the endowment, or by a limited number of years. That is in respect to participating and non-participating."

"What effect, if any, will the alter-
