ANOTHER UGLY FAILURE.

The Clothing Firm of E. W. Gough, This City and Belleville, in Difficulties.

The most important failure noted for several weeks is that of E. W. Gough, the Queen-street clothier. The assignment was made to Mr. E. J. Henderson, who is in possession of the business here and at Belleville. There is likely to be trouble. First a writ was issued against him on an overdue note, then he was arrested on the charge of perjury. A second writ was issued at the instance of H. J. Caulfeild & Co., this city, for $177.

Mr. Gough is widely known, having conducted businesses in several different parts of Ontario. Since 1888 he has been twice in business difficulties and has effected compromises. In June last he came from Belleville and opened a second store on Queen-street, at the stand formerly occupied by Sutcliffe. He recently became ill and was unable to look after his business, while several writs were issued against him, forcing an assignment. As yet no statement is prepared, but an estimate places the liabilities at about $35,000, largely owing to Montreal creditors. Assets will probably amount to $20,000.

Mrs. Gough has a claim for some $20,000 against the estate, but this would include the amount of paper for which she is liable. If those creditors who hold Mrs. Gough's signature rank on the estate, her claim against the business might be reduced by that amount. When Gough failed before in 1896 Mrs. Gough had a claim against the estate, which, however, when a compromise was made, was allowed to stand. It is understood that she holds Mr. Gough's life insurance policies. The failure is probably the indirect result of the writ for $1,853.29 which was issued against E. W. Gough by Messrs. Laidlaw, Kappele & Bicknell at the instance of E. Boisseau & Co., wholesale clothiers, 18 Front-street east.

James A. Cantlie of Montreal has effected a compromise at 20 cents on the dollar cash.

R. G. Crawford, grocer, Fort Erie, has assigned to B. F. Matthews.

The creditors of the estate of N. P. Finch, general merchant, Aylmer, have been notified that the dry goods stock has been sold at 65½c, and the clothing, boots and shoes at 73½c. The creditors will receive about 70c on the dollar.

William McKinnon, general storekeeper, Rat Portage, has assigned to Louis Hillard.

C. Langford, carriages, Wiarton, has assigned to D. M. Jermyn.

William Mowat, dry goods, Napanee, has compromised at 35c on the dollar cash.

Assignee Barber, who has charge of the estate of Abraham Cohen of Chatham, has declared a second dividend of 25c on the dollar. Mr. Barber while in Buffalo received from the insolvent $5000 in cash and $2000 in securities. It is expected that a further dividend of 10 or 15 cents will be declared.

A writ by Thibaudeau Bros. & Co. of Montreal for $9820 has been issued against Sittlington & Co., general storekeepers, of Sarnia. Some days ago a meeting of the creditors of the firm was held at Toronto, at which an offer of 30c cash was refused.

Toronto Trams.

Glasgow Evening News: The perfection of the tramway system at Toronto has evidently startled the wise men who have gone there to attend the meetings of the British Association. Electricity is the motive power, as it is to most well-ordered capitals, and the cars go in all directions at an astonishing pace. "When they get a clear run," remarks one amazed visitor, "they leave the bicycles, which abound in incredible numbers, far behind. 'I have seen them run repeatedly at fully 25 miles an hour, if not more; and yet they are under the most perfect control. Moreover, the cars are most delightfully airy and comfortable. You buy six tickets for a quarter, that is a shilling, and the system is so arranged that a single ticket will take you almost from anywhere to anywhere. In Montreal, I should add, the service is almost equally good, and still more wonderful on account of the steep hills. The electric cars dash up and down the steepest gradients with as much ease and certainty as if they were on level ground."

What are Her Antecedents?

In the crowd at the Exhibition on Citizens' Day Detective Cuddy says he saw Mary Wren put her hand into the pocket of a lady named Tait. He arrested Mrs. Wren, who was arraigned yesterday before the Police Magistrate. She pleaded not guilty and was remanded for a day. Mrs. Wren says she comes from the United States, but will give no more definite address. She carried a lot of money in her stocking. She was anxious to be allowed her liberty on suspended sentence, but the Crown would not consent to this.

Pleasant Reunion.

The members of "Big B." Camp of Balla, Muskoka, held a pleasant reunion last evening at the home of Mr. and Mrs. Bulman, Givens-street. During the evening many incidents of the past summer were recalled and talked over by members of the party, who are already looking forward with eagerness to next year's meet.

Visitors Returning Home.

The rush of Exhibition visitors to their homes from Toronto was at its height yesterday, and the Union Station was crowded from early morning till late at night.

McIntyre & Wardwell (John J. Dixon) received the following despatch from New York to-day:

The stock market developed further irregularities to-day under the pressure on the part of professional traders and local operators to secure profits on previous purchases and the partial subsidence of outside buying. The selling was influenced by an apprehension of some unfavorable developments in connection with the Cuban question, which comes up before the Cabinet tomorrow. Newspaper reports of the spread of yellow fever and stringent quarantine methods checking passenger and freight traffic in the South, also had a depressing influence on the market, and the tendency was toward a lower range from the start. The pressure is directed chiefly against the Grangers and the miscellaneous list. Prices declined 1 to 2½ per cent. London bought upwards of 30,000 shares and the leading bull interests openly bought 40,000 shares of different stocks, but met free selling from some quarters. In the final dealings some firmness developed in the Coalers, and the general list was steadier, but the rally was slight. Action of market confirms our views that it is advisable for the present to take profits on long stocks, even though the market ultimately goes higher.

CHICAGO GOSSIP.

Henry A. King & Co., 12 King-street east, received the following despatch to-day from Chicago:

Wheat at one time showed a loss of 2⅛c. There was some recovery from this decline. The dulness had much to do with the decline, but there were large receipts, somewhat lower cables and other more or less bearish statistics. Primary receipts were 500,000 bushels ahead of last year, 1,852,000 bushels, against 1,353,000 bushels. Local receipts were treble last year's, 558, against 195. The visible supply increased about as expected, 949,000 bushels. World's shipments, 9,190,000 bushels, were less than the week previous, but 2,600,000 over last year. Liverpool was off 1½d; Paris off about as much. The local stock did not increase so much, only 154,000 bushels. There was a small decrease in the English visible, 520,000 bushels. Clearances for the day were 320,000 bushels. It made an array of statistics not as imposingly bullish as of late. A little rally towards the close was helped by a London cable reporting locusts making their appearance in Argentine. The South American prospect was said to be not so good. The cash demand here was slow. New York claimed 30 loads there for export.

Corn was easy, closing about where it did Saturday. It keeps dry and hot west. Since the Government report there has been a feeling that the advance has been too fast, and that sentiment still exists. Prices are off about 2½c from the top. To-day's cars were 1651; the estimate for Tuesday 1300. The local stock, 16,050,000 bushels, showed an increase for the week of 2,000,000, and the visible of 33,600,000 bushels showed an increase for the week of 2,400,000 bushels.

Oats ruled about as corn did: yielded early and closed about at Saturday's figures. Receipts were 549 cars, with 420 estimated for to-morrow.

Provisions—Liberal hog receipts, with prices 10c lower, together with easier grain market, opened provisions at a decline and caused rather free selling by scattered holders. A good demand from shorts, particularly from the leading bear interests, and some buying by packers brought about a recovery and closed this market firm at a good advance. The cash demand was moderate. Receipts were 32,000, with 15,000 estimated for to-morrow. We look for higher prices.

McIntyre & Wardwell (John J. Dixon) received the following despatch from Chicago to-day.

Wheat—Weak cables and some selling for foreign account caused a weak opening this morning, and the market declined about 1c; then heavy selling for the large holders caused additional weakness, the market breaking about 1c more. There was, however, too confident a feeling on the short side and a great many of the local traders who were short were then buyers at the closing, causing a reaction of ⅜c. There was nothing encouraging in the news. The visible supply increased 949,000 bushels. The receipts everywhere showed good increases and there was not much cash demand reported. New York wires that 30 loads were taken for export, which, in view of the decline, was small. Indications point to larger receipts. We think the market in shape for more declines.

Provisions—Opened weak and lower; receipts of hogs 4000 more than expected, and prices 10c lower. At the decline John Cudahy's brokers bought December pork and lard and the Cudahy Packing Co. bought October ribs. Swift & Co. were also good buyers of ribs. The market advanced quickly on this buying and closes at about the highest prices of the day. Estimated hogs to-morrow 20,000.

MONTREAL LIVE STOCK.

Montreal, Sept. 13.—There were about 750 head of butchers' cattle, 70 calves and 1000 sheep and lambs offered for sale at the East End Abattoir to-day. The over-supply of common cattle, together with the wet, muddy weather, helped to make business rather slow, and prices continue about the same as on Thursday. There were no prime beeves on the market to-day, and the top price did not exceed 4c per lb., with pretty good stock at from 3c to a little over 3¾c.; do., common dry cows and rough young stock, sold at from 2c to 3c per lb., while cows of the leaner beasts and hard-looking bulls would not bring much over 1½c per lb. The prices paid for calves to-day ranged from $2.50 to $7 each; good large sheep sell at about 3c per lb.; lambs sell at from 3¼c to 3¾c do.; fat hogs sell at about 5½c per lb.
