When the Fog Was Struck.

The Labrador had a good passage until snuday, when she entered a log bank and lost her bearings. Skerryvore light was mistaken for Inistrahull light, on the north of Ireland. Most of the passengers were still if bed when the steamer struck, and there was much excitement, but the passengers were calmed by the assurances of the captain, the boats were lowered without a hiten and all on board left the steamer in safety.

The passengers and crew lost everything they possessed.

Captain Epskine endeavored to save the nulls, but was obliged to abandon them owing to the vessel threatening to break up. The women and children were put in the first boat, in charge of the fourth officer, the other passengers were placed in the second boat, under the command of the second boat, under the command of the second officer.

The crew of the Labrador then took the other boats and as they left the steamer wheat was pouring into the sea from her hold.

Seattle, Wash., March 2.—The steamer City of Seattle arrived from Alaska after a stormy trip yesterday. She had a number of passengers who brought late news from the interior.

G. T. Howard left Rampart City about Dec. 15. He brings a story that a party of 10 tenderfect started out late in October to go from Rampart City to the Koyukak River.

They employed John Folger, an old time miner of the lower Yukon, to guide them. After they had been three days on the trail a snowstorm came up and three of them turned back, reaching Rampart safely. Two days later another bizzard occurred and the thermometer dropped to but they have heard nothing of them. Mr. Howard does not know their names.

W. P. McDonald, a United States mall carrier, who left Circle City Jan. 23, brought 60 pounds of mail. He says that the first nall from St. Michael's since navigation closed last fall, should reach there within 10 days.

The net profits of the Canadian business for the year ending August 31st, 1897, were \$35,514.73 and for the year ending August 31st, 1898, were \$50,929.00. For the year ending 31st March, 1898, the profits of The Dunlop Pneumatic Tire Company (Limited)

of England reached \$2,354.963.90. With the trade open to the Canadian company, there is every reason to believe that the business for this current year will show a very large gain in volume and in net profits over those of the year ending August 31st, 1898. Already the shipments from the factory for the current year beginning September 1st, 1898, are almost one hundred per cent. in excess of the corresponding period of the previous year, and the

future deliveries contracted for during the first four months of the Company's year are more than double those secured during the whole of the last fiscal year of the Company. The Company will commence its operations entirely free from debt.
