John Macdonald & Co.

Wellington and Front Sts. East, TORONTO.

WIRELETS FROM WINNIPEG.

Hugh John Macdonald Offered the Command of the Western Contingent for the Transvaal.

Winnipeg, Man., Oct. 20.—(Special.)—Mr. R. J. Spencer, assistant to the Provincial Auditor, is going to Toronto as accountant with the Canada Law Book Company.

Messrs. Sifton, Paterson and party are expected here to-morrow.

Hugh John Macdonald has declined the offer to command the western contingent for the Transvaal. His political friends would not listen to his going. However, his own inclinations run strongly in the direction of going to the front.

A further medical examination of the Manitoba contingent has been made, and the volunteers will be ready to depart early next week.

Nickle-in-the-slot cigar machines were taken down in the cigar stores to-day by order of the police.

Harry Arnold, a popular society man, who has been appointed to the Manitoba Transvaal contingent, reported at the barracks this evening.

President Shaughnessy of the C.P.R. left for the West to-day.

THE SOUTH AFRICAN WAR.

Public Interest Manifested.

Without doubt the public interest in the war in Africa has been very strongly manifested in Toronto during the past few days, in the enormous demand at The Robert Simpson Company's store, on Yonge-street, for copies of the now celebrated colored war map issued by The Montreal Star. Thousands upon thousands of callers made their way to the store to procure a copy of the map, and were satisfied amply for their trouble. So great was the crush, as many more were, however, disappointed when the supply ran out. The Montreal Star is, however, doing everything possible to give Torontonians an opportunity to get one, and arrangements have been made to get a further and final supply of the maps by express, and the last free distribution will take place at the Robert Simpson Company's store (book department) to-day, Saturday, commencing at 8 o'clock. The Star's enterprise has been highly commented upon in the city, and expressions of appreciation are being heard on all sides.

City Hall Notes.

The Board of Control will meet at 11 o'clock this morning to take up Dr. Sheard's report of his inspection of the firemen.

The officers of the 1st Fusiliers of Montreal were given a tallyho drive around the city yesterday morning by the Civic Reception Committee.

A special meeting of the Council may be called for Monday afternoon next.

A BRAVE WOMAN.

How a Drunken Husband Was Made a Sober Man by a Determined Wife.

A PATHETIC LETTER.

She writes:—"I had for a long time been thinking of trying the Samaria Prescription treatment on my husband for his drinking habits, but I was afraid he would discover that I was giving him medicine, and the thought unnerved me. I hesitated for nearly a week, but one day when he came home very much intoxicated and his week's salary nearly all spent, I threw off all fear and determined to make an effort to save our home from the ruin I saw coming, at all hazards. I sent for your Samaria Prescription and put it in his coffee as directed next morning and watched and prayed for the result. At noon I gave him more and also at supper. He never suspected a thing, and I then boldly kept right on giving it regularly, as I had discovered something that set every nerve in my body tingling with hope and happiness, and I could see a bright future spread out before me—a peaceful, happy home, a share in the good things of life, an attentive, loving husband, comforts, and everything else dear to a woman's heart, for my husband had told me that whiskey was vile stuff and he was taking a dislike to it. It was only too true, for before I had given him the full course he had stopped drinking altogether, but I kept giving the medicine till it was gone, and then sent for another lot to have on hand if he should relapse, as he had done from his promises before. He never has, and I am writing you this letter to tell you how thankful I am. I honestly believe it will cure the worst cases."

A pamphlet in plain, sealed envelope, sent free, giving testimonials and full information, with directions how to take or administer Samaria Prescription. Correspondence considered sacredly confidential. Address The Samaria Remedy Co., Jordan-street, Toronto, Ont.

For sale from us, or Bingham's Drug Store, 100 Yonge-street, Toronto.

77 KING STREET WEST.

MANY FIREMEN ARE UNFIT.

Medical Health Officer Reports Seventy Per Cent. of Men and Only Seven Officers O. K.

GUNS FOR TORONTO VOLUNTEERS.

Contingent Send-Off Committee Met and Devised Ways and Means for the Occasion.

The report of the Medical Health Officer upon the general fitness and physical condition of the firemen has at last been issued and a nice state of affairs it reveals. The brigade is shown to be in a deplorable condition, physically, and only about 70 per cent. are really fit for the ordinary duties of a fireman. The officers also are in a wretched physical condition, and out of 26 of them only 7 could pass the examination of Dr. Sheard, which was not unnecessarily strict.

The men examined were divided into three classes. In the first class were put such as were in a perfect condition of health, whose muscles, heart, lungs, etc., would permit of their undergoing and maintaining satisfactorily such an amount of effort as could reasonably and ordinarily be demanded in the performance of a fireman's duties.

They Might Qualify.

The second embraces such as are not fully up to a proper standard of average physical fitness, qualifying them for anything like sustained effort, but could be brought to such a condition of fitness by properly regulated exercise, training and habits.

In the third class were placed only such as appear to be not only unfit for ordinary duty but in such a state that they could not be brought to a condition approaching fitness to attempt the action or endurance which a fireman must be capable of standing.

The Clasification.

Altogether there were 154 men examined and they are classed as follows:

First class	89
Second class	35
Third class	30

In the face of these facts Dr. Sheard says it is scarcely necessary to state that he does not consider the fire brigade up to a proper standard of physical fitness, and a careful and critical examination of the classes materially aids in throwing light upon the cause. The first fact that is confronted, he says, is that out of 20 officers of the brigade, including foremen, 7 only are found in the first-class, 9 in the second, and 9 in the third and 1 resigned. This at once reveals a very striking source of weakness, as it is apparent that the officers in charge of the men should not only be those of astute faculties, and who are capable of directing in an emergency, as well as leading, but furthermore whose physical and general conditions are such as command respect and stimulate example in the men under their charge. The percentage of those physically unfit is unduly large, and assuming that the brigade is not over-manned, those who suffer from such physical defects as prevent the proper performance of the particular duties assigned impose extra work upon the others, thus materially detracting from the efficiency of the whole.

Too Old for Service.

Further on in his report Dr. Sheard says: "Of the 89 men embraced in the first-class 45 have been appointed within the last five years. In the third-class, so far as I can determine, only one man has been placed there as a result of injuries sustained, while nine have seen but 10 years' or less than 10 years' service; 13 out of 30 have not served over 15 years, but are outclassed for reasons altogether aside from the result of service; 9 have passed the age of 50, 9 are under the age of 40, and 7 have seen 25 years or more of service."

A Few Suggestions.

As a result of a careful examination on the lines of his instructions, the Health Officer offers a few suggestions, which, if carried into operation, would, in his opinion, materially improve the condition of the brigade. The suggestions he offers are:

1. The retirement of those physically disqualified.

2. The arrangement of an age limit, under which ordinary conditions shall determine the date of the retirement of members of the brigade. This limit should be somewhere between the ages of 50 and 55 years.

3. Arrangements should be made and rules enforced for persistent daily drill and other athletic exercises of a nature suitable to the work of a fireman and most likely to improve the physical condition of the men.

4. Regular habits and absolute sobriety, while on or off duty, must be insisted upon among the officers and men.

5. No candidate to be admitted or promoted in the brigade without the production of a certificate of physical fitness from the Health Officer.

A list of names giving the class to which each man had been placed is followed, but the Mayor, for some reason or other, withheld them.

Permanent Committee Appointed.

The committee composed of Mayor Shaw, J. S. Willison, Hugh Blain and A. E. Kemp, appointed at a public meeting of the citizens last Tuesday afternoon, met yesterday morning at the City Hall and appointed a permanent committee to make all arrangements for the farewell to be given to the Toronto portion of the Canadian contingent for service in the Transvaal. The following are the names of the gentlemen appointed: Hon. Chief Justice Sir John Alex. Boyd, Hon. S. H. Blake, Dr. Parkin, Lieut.-Col. G. T. Denison, Col. Sweny, Hon. Geo. A. Cox, Judge Osler, T. G. Blackstock, George Gooderham, sr., B. E. Walker, D. R. Wilkie, city M.P.'s, local members of the Ontario Legislature, W. R. Brock, E. E. Sheppard, J. W. Flavelle, Dr. Ryerson, W. E. H. Massey, Hon. Lyman Jones, Elias Rogers, James Scott, Robert Jaffray, Henry Cawthra, William Mackenzie, Alex. Manning, Edward Gurney, Angus W. MacMurchy, S. W. Burns, A. E. Ames, John Hoskin, Rev. Father Ryan, Rev. Dr. Caven, Rev. Dr. Potts, Rev. Dr. Thomas, Rev. Frank Forester, Rev. Prof. Clark, Prof. Loudon, Chancellor Burwash, William Christie, Nelson R. Butcher, W. J. Douglas.

A meeting of the above will be held this afternoon at the City Hall.

Assessment Appeals.

The Court of Revision sat yesterday morning and made the following reductions in the assessment for Ward 4: James H. Colling, druggist, No. 382 College-street, income reduced from $2000 to $1000; James B. Baxter, No. 98 and 100 St. Patrick-street, buildings reduced by $400 each; Annie F. Allison, No. 223 college-street, land reduced from $85 to $80 per foot; S. C. Biggs, No. 55 St. George-street, land reduced by $5 per foot, building by $5000; George C. Royce, No. 294 Simcoe-street, building reduced by $500; James Alison, No. 52 Munro-street, building reduced by $500; J. F. McCurdy, No. 490 Spadina-avenue, land reduced by $5 per foot; Dr. Baldwin, No. 86 Str George-street, building reduced by $500; S. T. Wood, No. 220 Beverley-street, land reduced by $5 per foot; Charles Holland, No. 73 St. George-street, land reduced by $5 per foot.

Presses Their Claim.

At the meeting of the Property Committee yesterday Mr. J. A. Patterson again made an effort to have the claim of Moir and McCaul for work on the old drill shed recognized. He pointed out that the city had been greatly benefited by the work and when the contractors pulled the building down, the material, being new, could be utilized again on other city work. He was willing to take $600, which was a very low figure.

Ald. Lamb did not think the city could be held liable for the claim, but promised to look into the matter.

A communication was received from the License Holders' Association, asking for the use of a room in which to hold their annual convention.

The committee had not the power to deal with it, as it takes a two-third vote of Council to give the necessary permission. The sub-committee's report recommending a new boiler for the jail was adopted.

Citizens Are Kicking.

The Board of Works yesterday considered the complaint of the residents on Claremont-street, who ask for a bylaw to prevent cattle from being driven along that thoroughfare. They draw the board's attention to the fact that the street is thickly populated and the damage that is done to the boulevards, etc., is becoming a serious matter.

The question was allowed to stand over until the next meeting.

Another Crematory.

The joint report of City Commissioner Coatsworth and Street Commissioner Jones, advising the establishment of a central crematory on the Waterworks lot at the foot of Peter-street, was discussed at some length, and finally referred to a sub-committee consisting of Ald. Crane, Davies and Hubbard to report upon.

The cost of erecting a suitable building was estimated at $8000. Both Ald. Bowman and Davies disapproved of the scheme, the former saying that it was very queer to say the least that a central crematory should be built, when the eastern one had been closed because there was not enough work to warrant the city in keeping it open.

New System of Ventilation.

The sub-committee re the ventilation of sewers brought in a report recommending that the City Engineer be authorized to erect three hollow poles at different points to carry off the smell, and that a six months' trial be given to the scheme.

The report was adopted.

Ald. Lamb and others strongly objected to the swamp north of McNamee's Cut being filled in, and the report of the sub-committee recommending it was therefore left over until the next meeting.

A Nuisance Remedied.

The motion of Ald. Crane that the City Engineer be instructed to see that contractors do not tear the streets up unless they are prepared to go on immediately with the work, was carried unanimously.

Ald. Saunders has received a letter from Mr. Robert Darling saying that the residents of Rosedale strongly object to the Glen-road bridge being closed, and unless work on it is proceeded with immediately decided steps will be taken.

Another letter has been received from the Brewers' Association asking for water to be supplied to them at manufacturers' rates.

They Have a Snap.

Last September a petition was received from the city scavengers asking for an increase in pay. The City Commissioner was asked to bring in report, which says: "I have made inquiries as to the wages paid to teamsters by the Shedden, Hendrie and Canadian Pacific Cartage Companies, and I find that our men have actually less work, shorter hours and are paid a better rate of wages than the men employed by the cartage companies. I, therefore, could not advise that the increase should be given as asked by the men."

Scarlet Fever Prevalent.

Medical Health Officer Sheard reports that typhoid fever is prevalent in the city. There are three cases at Moulton College, three cases in a family near High Park and also several patients at the Western Hospital. He cannot attribute the disease to any particular cause.

A Generous Offer.

The Reception Committee, together with the commanding officers of the city corps, met yesterday afternoon. Lieut.-Col. Delamere announced that the Metropolitan Life Insurance Company would give free a policy for $1000 on the life of any man the committee cared to name.

Mr. J. C. Clarke suggested that the senior boys of the Public schools be permitted to participate in the send-off to the Toronto soldiers leaving for the Transvaal. The committee thought the idea a splendid one, and the boys will line up on either side of the streets through which the troops pass.

Lieut.-Col. Bruce drew the committee's attention to the necessity of having a marshall in charge of the parade. Chief Grasett will be asked to officiate in that capacity.

Will Be Given Revolvers.

Chairman Graham said he had conversed with a number of commanding officers, who all thought that it would be an appropriate and thoughtful act on the part of the city if they would present each of the Toronto officers with a revolver.

This opinion was shared by the committee, and they accordingly ordered six weapons of the regulation pattern. They will be given to Lieut.-Col. Otter, Capt. Mason, R.G., Lieut. Wilkie, R.G., Lieut. Temple, 48th, and Capt. Macdonald and Major Denison. The last two mentioned are not going with the city quota, but they are old Toronto boys.

Mr. George Musson, representing the '06 Association, requested that they be given a place in the parade, if one is to be held. His request was granted.

The next meeting of the committee will be held on Monday afternoon next.

25 cts. AT DRUGGISTS DR HAMMOND-HALL'S **ENGLISH TEETHING SYRUP**

is preferred by mothers because it is perfectly harmless to the most delicate infant. Not an atom of injurious drugs in a gallon of it. It takes baby through the entire period of teething in comparative comfort. Cures colic in ten minutes; prevents indigestion; cures sour stomach, and is widely recommended for cholera infantum. Used exclusively in the children's Hospitals of London, Berlin, Paris and other centres of Europe.

BRITISH CHEMISTS COMPANY, Manf'rs, London, New York, Toronto

A HAMILTON MAN

Says a Good Word for That King of Medicines—Dodd's Kidney Pills.

Lumbago and Kidney Disease Sufferer—Mr. Harry Bawden's Case—Cured, After Six Years' Useless Suffering, by Dodd's Kidney Pills.

Hamilton, Oct. 20.—There is one man in this town who should be thankful for Dodd's Kidney Pills, if anybody should. For by Dodd's Kidney Pills he was cured of Lumbago, that terrible disabling disease of the back. Fancy! He suffered for six years—six long years of backache and misery—and he need not have suffered a month, nor a week, if he had taken Dodd's Kidney Pills in time.

Dodd's Kidney Pills will cure Lumbago in its most chronic state. But few are so sceptical nowadays as to let Lumbago or any other form of Kidney Disease rend them for six years before resorting to Dodd's Kidney Pills. Dodd's Kidney Pills have the conclusively established reputation in Hamilton of curing not only Lumbago but Bright's Disease, Diabetes, Heart Disease, Rheumatism, Bladder and Urinary Complaints, Dropsy, Female Troubles and Blood Disorders.

Mr. Bawden was one of the many who came to the right medicine in the end. It took him six years. By reading this account of his experience, others may be saved six years of time, misery and expense.

This is what Mr. Bawden says: "For six years I suffered with Lumbago and Kidney Disease. I tried everything under the sun, but absolutely nothing I ever took gave me the slightest relief. A friend advised me about one year ago to try your Dodd's Kidney Pills. I finally decided to do so and purchased one box and found relief. I used in all five boxes and am completely cured."

King Quality Men's Shoes

Special Sale To-day of Men's Fall Shoes

made by the J. D. King Co. at

$3.00, $3.50 and $4.00

The King Shoe for men, without doubt, is the KING of all men's shoes.
