DOCTOR "POSTUM."

Some Coffee Experience in Mexico,

"Some years ago I went to a city of Mexico, where I increased my coffee allowance quite considerably. 'In about three months my nerves

became seriously effected. A sort of stupor seemed to possess me all day and I suffered great discomfort from dyspepsia. I kept on, however, with black coffee until just before I left, when I could not keep it down any longer. Had to quit, and took up cold water and milk.
"When I reached New York city

a lady friend who used Postum Cereal Food Coffee regularly, recommended it. I gladly tried some of her coffee and found it all the owners claimed for it. A very delicious beverage the way makes it.

"I have been entirely cured, and in perfect health in every way. Am a regular missionary for Postum.

Whenever I hear a man or woman complain of any pain or disorder that arises from the nervous system, I pre-Postum. Several of my business friends dub me 'Doctor Postum,' because I have cured them of their in-digestion and dyspepsia."

Are You Still in Suffering and Misery?

HAVE CONTINUED DIS-APPOINTMENTS MADE YOU DESPONDENT?

Paine's Gelery Compound Guarantees Safety and Good Health.

There are thousands of well-meaning people in our Dominion who are either adding to their burdens of physical sufferings, or who are making so little progress in banishing disease from their bodies, that they are continually despondent or miserable.

The people we refer to are the men and women who are placing their confidence in the many advertised pills, tablets, sarsapariilas and nervines that have little or no medicinal value to commend them.

The tens of thousands in Canada

who are at present using Paine's Celery Compound for the banishment of blood diseases, nervous affections, nheumatism, neuralgia, dyspepsia, liver and kidney complaints, are the wise and prudent. They have been guided by the advice of relatives. friends and neighbors, who have found new life, health and strength from Paine's Celery Compound.

The continued flow of testimonials from cured people is the strongest proof that Paine's Celery Compound is the only salvation of the sick, one true friend that never disappoints when disease threatens life.

Are you, dear reader, one of the many disappointed ones, still in the death grasp of some serious ailment? If you are, we would counsel you to lines throw aside the useless medicines you Rifles. are now using and give Paine's Celery Compound an honest trial.

The great medicine is a prescription of one of the ablest medical men that ever lived, and is indorsed by the highest practitioners. You must use it if

HAIL AND RAIN STORM THE HEIGHTS

Soldier Boys Get a Thorough Drenching Yesterday.

The 26th Middlesex Got Caught on the Road-Band Concert Last Night -Camp Notes.

The soldiers in camp received the full brunt of the terrific rain and hail storm yesterday afternoon. The Twentysixth M. L. I. had been at the rifle butts volley firing during the afternoon, and were returning to camp when the storm broke. Everybody was wet through to the skin. The scarlet dye from the tunics left its mark on everything, and the bosom of the average boiled shirt presented anything but a picture. However, they took their soaking "like soldiers," and seemed last night to have enjoyed it. In the evening the Twenty-sixth and the battalions in the first brigade gave a concert opposite the lines of the Middlesex infantry, which was attended by about a thousand people, and thoroughly enjoyed. As might be expected, the programme was a varied one. While the concert was in progress, Brigadier-Colonel Buchan, of the second brigade, was dining the commanding officers of the several battalions in

"From chief staff officer, London garrison, to officer commanding First Hussars, London: You will be good enough to furnish a cavalry screen, which shall extend from the point on Dingman's Creek, where the road running east and west through Glendale strikes the creek, to the Lake Erie and Detroit River Railway, following the line of

Dingman's Creek, which passes through Lambeth. By order, X. Y. Z." Officers' patrols were sent as fellows: Right to Rarer postoffice; center to eross road, 31/2 miles south of Lambeth; left to Glanworth station.

The general officer commanding suggested that three squadrons might be employed, with the one squadron in reserve at Glendale. The screens, etc., were in position at 10 a.m., at which hour the major-gen-

eral commanding at Glendale received reports from the officers commanding squadrons, and any information gain-ed by officers' patrols of the movements of the enemy, blue.

Troops will be withdrawn, unless otherwise ordered, at 11:30 a.m.

Doctors were summoned at once and worked over an hour, when they parried her to her home at Albert Trim's, where she died a short time afterwards. She never regained consciousness.

A neighbor advised me to try Dr. Thomas' Eclectric Oil, stating that his wife had used it for a throat trouble with the best results. Acting on this advice I procured the medicine, and less than half a bottle cured me; I certainly believe it saved my life.
