JUBILEES VS. COLLEGIATES. About 700 people went out to the Jubilee rink on Saturday night to see what was to have been the first game in the second series of the amateur city hockey league contests between the London Collegiate Institute and Jubilee team's.

The same was supposed to start at 9 o'clock, and when both teams appeared on the ice at that time the maority of the spectators present thought that the L. C. I.s had resurrected the old London team to take their place. They had Bob Lind and Frank Reid, ex-members of Londons; Clark, of the Bank of Toronto, and, on account of net being able to get a cover-point good enough in London, they secured the services of Bell, the crack forward who played with Ingersoll against London last Thursday. With such a combination as this they wanted to play a purely local team. Mr. Smith, the donator of the silver cup, gave the trophy under certain conditions, and one was that only local players could compete for it, and on these grounds the Jubilees refused to go on with the game if the Collegiates insisted on playing these men. The Collegiates would not give way, so the game was declared off, and the executive committee will decide whom it shall go to. Rather than disappoint the large crowd present an exhibition game was arranged for, the Collegiates agreeing to drop Bell, who acted as referee. At 9:40 the game started, and it proved to be an exhibition of hockey that eclipsed all the games that have been played here this winter. It was scientific throughout, some fine combination work being done on both sides. Every

man played his position. The Collegiates scored the first goal after one minute's play, and two minutes later Lind added another to their After a fine rush Carrothers passed the rubber to Sippi, who shot the first goal for the Jubilees, and ten minutes later they tied the score. For this fine work the small boys of the east end brought about 50 tin horns into play, which made such a noise that to carry off blue ribbons. The London Hunt Club has won at many of the horse shows, and recently at the big by good work got two more goals in rapid succession. Lind and Carrothers started after the puck at a fast rate. Carrothers reached it first, and in the attempt to throw it, his stick accidentally struck Lind a terrible blow in the face, almost knocking him over. After a delay of ten minutes Lind resumed

play, but had to retire in the second half, and Ashplant took his place. Carrothers scored the first goal for the Jubilees in the second half, after five minutes' play. After a rush Ashplant scored on a long shot the last goal for the Collegiates. Five minutes later the Jubilees scored again, and they tied the score for the second time ten minutes later.

The star play of the game was made by Stinson, two minutes before time was up. With the score a tie he captured the puck in the center of the rink, and from that position shot the last goal for the Jubilees, leaving the score 6 to 5 in their favor. The contesting teams were:

Jubilees—Goal, Johns; point, Martin; cover-point, Stinson; forwards, Sippi, Carothers, Dart and Cook. L. C. I.—Goal, Gibbons; point, Reid; cover-point, Hueston; forwards, Fraser, Lind, Peel and Clark. Referee-Mr. Bell, Ingersoll.

A Specimen Slander From Hamilton, in Which London Is Interested.

[Hamilton Herald, neutral.] Much is being made by Conservative journals of the fact that Adam Hope & Co., hardware merchants, of this city, supplied the Hamilton asylum for the insane last year with some flour under contract, the amount supplied being 1,462, barrels and the contract price \$6,286 58. A specimen of the comments being made on this transaction is the following from the Toronto News: "The effect of this method of doing business was made plain in Hamilton, where the flour required for the asylum was purchased from a hardware merchant. He had no flower to sell, of course, so he bought from a good Liberal miller in London. The result was the ordinary retail profit for the miller and a substantial rake-off for the hardware man. Thus the province paid for the flour for the Hamilton asylum two prices, and the beneficiaries were Liberal workers. If that is not a case of bribery will some honest Liberal give it a name? And is that a principle of business that any AFTER YEARS OF AGONY.

There is no raw material for a scandal in the facts relating to this flour contract. The government, in the usual way, advertised for tenders for the supply of flour for the Hamilton asyium. Several tenders were submitted. Among the tenders was the firm of Adam Hope & Co., whose tender proved to be the lowest, and was accepted.
Upon the surface it appears strange that a hardware firm should tender for a flour contract; but a little explanation will show that there is nothing in the facts upon which to base a suspicion of crooked or unfair dealing. The real tenderer in this case was the milling firm of Hunt & Co., of London, Ont. The senior member of that firm (a Conservative, by the way), is an intimate friend of a member of the firm of Hope & Co., and as a matter of friendship it was arranged that the Hamilton man should act as agent of the London firm, no doubt receiving a complishment. certain commission for his trouble.

were paid to "Liberal workers" on this contract, and that the affair is "a case of bribery"? Tory journals had better let this "flour scandal" drop. There's nothing in it.
