hold meetings on this date at the same place. This year special lectures have been arranged for horse breeders, and on the question of good roads. All on the question of good roads. All pense. these things are, or should be, highly pense.

will dispute the fact that its success has been largely due to a wise, yet liberal, system of the advertising that gets down in the homes of the people. Signboards, pamphlets, official programs and such like expenditures in advertising make pleasing frills, but fail to each like expenditures in advertising make pleasing frills, but fail to each like expenditures in advertising make pleasing frills, but fail to each like expenditures of Montreal. It lines, while some specially designed by Johnson Brothers of Montreal. It lines, while

annual meetings of the breeders is the small attendance of ordinary farmers and breeders, and the routine lifelessness of some of the proceedings. He awork of art and combine with their artistic qualities an unusual fidelity to the subject. The cost was \$140. This trophy will not become the permanent property of any grower until won by him three times. more whole-hearted interest taken by his fellow farmers. The election of officers who give direction to the business end is done under nominating committees and by the old heads at the business, so that new blood only creeps in slowly. New ideas thus actions and solutions are solved to see that new blood only creeps in slowly. New ideas thus action at least of the solution of that was admired by so many summer excursionists to the Agricultural College has justified expectations and yielded more than 20,000lbs. of milk in one year. The cost of feed was \$72.66. Thus she gave a profit of over \$150 above her feed where the profit is a small charge to cover probable losses. The sales are made subject to government inspection and weight, which assure purchaser that grain is in good condition for storing or grinding.

Owing to the continuous fluctuations in the market, sales must be made by which assure purchaser that grain is in good condition for storing or grinding.

good lectures, the splendid displays or poultry, pet stock, cattle, sheep awing and seeds. The placing of the merits of these before the people would, we believe, produce a liberal rayonse. We we a great show at Guelph. It can vily be duplicated in America. It is almy is a credit to Ontario's entere, e, and a tribute to our sgricultural ligence. By it, farmers and stock.

We we a great show at Guelph. It can vily be duplicated in America. It is almy is a credit to Ontario's entere, e, and a tribute to our sgricultural ligence. By it, farmers and stocks will tend to be distribled. The current is a contract of the speel of the goopel of good farming, is pure atmosphyse, filled wite.

Acceptable of the property of any grower until won by him three times.

Ontario points, north and east of To-Country of York, to Wit:

By virtue of a warrant issued by the Reeve of the Township of Scarboro, and Amount, 1907. Amount, 1907, and to me directed, commanding me to proceed, with the Circular of these contracts of taxes on the lands and expenses, I therefore give notice that the close of market yesterday, sales could be closed at Good for feeding purposes, on the lands and expenses, I therefore give notice that the life of the goopel of good farming, the previous of the statements made in the morning talk. He has the discolaring by frost, the measured burble, but they are otherwise good milling outs, the seventh day of December, 1907. The country of the color of the scoopel of good farming, the previous of the color of the popular of the color of the co experiment, is to be halled as the desired end of the winter lair and its Gazette of Chicago. kindred exhibitions. To attain such, no expenditure of money, that places before the common people what it is doing and shows them how to get the most out of their lives, will be called unprofitable. If it is to be educational

It is too true that little publicity is ly important that all farmers express given this fair, as our correspondent says. Only one weekly paper in To-

push into this publicity department of the winter fair board would emulate the business enterprises that grow to opulence under the wise policy purture.

Seller. Watch for their ad. on these pages and write to them if you need a carrier, mentioning The World.

The training of an unbroken horse the good things they have been educated to secure for themselves. To the byways and hedges, then

FAT STOCK SHOW DATES.

Agricultural Editor World: I am a reader of The Toronto World and have been for several years. I take it for

ganizations, and the farmers who constitute your many readers naturally look to your pages to find out just what this winter fair board is doing.

Durham County.

the clientele that feeds the business as effectively as intended.

What surprises the young man most word his first visit to the fair and the upon his first visit to the fair and the a work of art and combine with their

spread of the gospel of good farming, with its pure atmosphere, filled with its chances of endless research and experiment, is to be hailed as the deof his intelligence, says The Breeders

A. P. Westervelt of the Ontario Provincial Winter Fair writes The World especially commending the meetings that are to be held at Guelph this year. in its nature, and do the most good to the most people, a broad-minded policy of dealing with the question of hew to appeal to the people would not be criticated.

It is to be educational that are to be held at Gueiph this year. The sessions on "Horses" should be of great interest to all farmers. Action looking to the better control of breeding will likely be taken at no distant date, and it is high-likely be taken at no distant date, and it is high-likely be taken at no distant date, and it is high-likely be taken at no distant date, and it is high-likely be taken at no distant date, and it is high-likely be taken at no distant date, and it is high-likely be taken at no distant date. themselves upon the best thing to he

ronto, and only another fortnightly journal, carries any official data about the show at Guelph. And this from the press in the centre of Ontario's commerce, the home of the biggest daites with their extended influence upon the lives of our people!

advertising on a more extended scale of the Ontario Fat Stock Show, which takes place at Guelph the second week in December.

This is an important week for the farmers and stock breeders of Ontario. The Experimental Union, several and the Canadian Seed Growers' Association for side lines makes travel almost impossible.

More cars are needed for apples.

D. Ward King, the inventor of the sucception of an odd car of the early thrashed in better condition than is usually the case, owing to the very favorable weather for drying grain, both in stock and in stack, during the month of October, and up until this date. Farmers now realize the importance of good roads. The muddy condition of side lines makes travel almost impossible.

The fact is that, with the exception of sheep and to Impose a tax on Dogs, followed by a discussion of the Protection of Sheep and to Impose a tax on Dogs, followed by a discussion of the Address—"The December 12, 7.30 P. M.

Address—"The Necessity for Amending the Act for the Protection of Sheep and to Impose a tax on Dogs, followed by a discussion of the early thrashed in better condition than is usually the case, owing to the very favorable weather for drying grain, both in stock and in stack, during the month of October, and up until this date. Besides, the inspector will not grant a certificate of grade on grain not fit for storing, and any showing the least symptoms of two Thronton for Sheep and discussion of the early thrashed in the Act for the Protection of Sheep and to Impose a tax on Dogs, followed by a discussion of the Spit Impose a tax on Dogs, followed by a discussion of the Spit Impose a tax on Dogs, followed by a discussion of the Act for the Protection of Sheep and to Impose a tax on Dogs, followed by a discussion of the Act for the Protection of Sheep and to Impose a tax on Dogs, followed by a discussion of the Act for the Protection of Impose a tax on Dogs, followed by a discussion of the Act for the Act for the Protection of Impose a tax on Dogs, followed by a discussio

grinding. Your correspondent seems to these things are, or should be, highly important to the average farmer in Ontario. And the question comes up: Ontario. And the question comes up: Do all the farmers know of the good things to be found at the Royal City during this week? Unfortunately, its light is under the bushel as far as many farmers are concerned.

The very people that need the education and the betterment of social complising are the ones who do not get important to the average farmer in Ontario. And the question comes up: The Bowmanville Statesman says that not over half the barley and not over a quarter the cats of former years have been marketed at that centre. The farmers consequently have not been meeting their accounts as promptly as usual.

The low prices obtaining for hogs now are a serious questions for the supply next years have been meeting their accounts as promptly as usual.

The low prices obtaining for hogs now are a serious questions for the supply next years have been meeting their accounts as promptly as usual.
